Cultures of Confinement Frank Dikötter, Ian Brown, 2018-07-05 Prisons are on the increase from the United States to China as ever larger proportions of humanity find themselves behind bars While prisons now span the world we know little

about their history in global perspective Rather than interpreting the prison s proliferation as the predictable result of globalization *Cultures of Confinement* underlines the fact that the prison was never simply imposed by colonial powers or copied by elites eager to emulate the West but was reinvented and transformed by a host of local factors its success being dependent on its very flexibility Complex cultural negotiations took place in encounters between different parts of the world and rather than assigning a passive role to Latin America Asia and Africa the authors of this book point out the acts of resistance or appropriation that altered the social practices associated with confinement The prison in short was understood in culturally specific ways and reinvented in a variety of local contexts examined here for the first time in global perspective

Rethinking the Gulag Alan Barenberg, Emily D. Johnson, 2022-03 The Soviet Gulag was one of the largest most complex and deadliest systems of incarceration in the 20th century What lessons can we learn from its network of labor camps and prisons and exile settlements which stretched across vast geographic expanses included varied institutions and brought together inmates from all the Soviet Union s ethnicities professions and social classes Drawing on a massive body of documentary evidence *Rethinking the Gulag Identities Sources Legacies* explores the Soviet penal system from various disciplinary perspectives Divided into three sections the collection first considers identities the lived experiences of contingents of detainees who have rarely figured in Gulag histories to date such as common criminals and clerics The second section surveys sources to explore the ways new research methods can revolutionize our understanding of the system The third section studies legacies to reveal the aftermath of the Gulag including the folk beliefs and traditions it has inspired and the museums built to memorialize it While all the chapters respond to one another each section also concludes with a reaction by a leading researcher geographer Judith Pallot historian Lynne Viola and cultural historian and literary scholar Alexander Etkind Moving away from grand metaphorical or theoretical models *Rethinking the Gulag* instead unearths the complexities and nuances of experience that represent a primary focus in the new wave of Gulag studies

Starlight and Stargazers Helena Goscilo, 2024-05-21 Celebrification has thrived for centuries in literature theater music and other cultural spheres as vividly illustrated by Byron Sarah Bernhardt and Paganini It especially effloresced in cinema after the symbolically named Lumi re brothers pioneered movies as light projected moving life to be contemplated and shared in the

intimate darkness of theaters Actors and actresses such as Valentino and Garbo acquired the status of divine beings whose life on and offscreen stimulated fascination and a passionate devotion most frequently invested in religious figures The recent explosion in social media has only amplified immeasurably the scale and intensity of that adulation Yearning for the seemingly transcendent fans as mere mortals seek contact with celebrities as objects of worship that like nocturnal stars are simultaneously remote yet accessible Starlight and Stargazers examines the multifaceted nature and specific manifestations of film celebrification in Czechoslovakia the Czech Republic Poland Soviet Russia Russia and Ukraine before and after 1991

Inked: Tattoos and Body Art around the World Margo DeMello, 2014-05-30 In recent decades tattoos have gone from being a subculture curiosity in Western culture to mainstream and commonplace This two volume set provides broad coverage of tattooing and body art in the United States today as well as around the world and throughout human history In the 1960s tattooing was illegal in many parts of the United States Today tattooing is fully ingrained in mainstream culture and is estimated to be a multi billion dollar industry This exhaustive work contains approximately 400 entries on tattooing providing historical information that enables readers to fully understand the methods employed the meanings of and the motivations behind tattooing one of the most ancient ways humans mark themselves The encyclopedia covers all important aspects of the topic of tattooing the major types of tattooing the cultural groups associated with tattooing the regions of the world where tattooing has been performed the origins of modern tattooing in prehistory and the meaning of each society's use of tattoos Major historical and contemporary figures associated with tattooing including tattooists tattooed people and tattoo promoters receive due attention for their contributions The entries and sidebars also address the sociological movements involved with tattooing the organizations the media dedicated to tattooing such as television shows movies magazines websites and books and the popular conventions carnivals and fairs that have showcased tattooing Stories on Skin Terry Baxter, Libby Coyner-Tsosie, 2025-01-23 Helping expand archival studies into impermanent media like body art this book suggests that archiving must be considered a form of storytelling Tattoos are not merely decorative they contain deep meaning for individuals and communities They document their wearers personal histories and position in families or society and they engage with a communal understanding of symbols This unique book makes the case that archivists who want to preserve as full a human story as possible must recognize the rich documentation provided by tattoos It also argues in a broader sense that traditional archives are not representative of the ways human beings transmit information through time and that they must be augmented by other types of storytelling to provide a more complete record of our species Authors Baxter and Coyner touch on timely topics such as historical narratives storytelling cultural traditions the body as a text social control and memorialization by considering tattoos as a personal and community archive Discussing tattoos as a storytelling tool the authors also challenge how history is kept and who gets included Stories on Skin is committed to the rights of communities to tell their stories in their own way and to the power that right brings *The Prison Boundary*

Jennifer Turner,2016-07-13 This book explores the idea of the prison boundary identifying where it is located which processes and performances help construct and animate it and who takes part in them Although the relationship between prison and non prison has garnered academic interest from various disciplines in the last decade the cultural performance of the boundary has been largely ignored This book adds to the field by exploring the complexity of the material and symbolic connections that exist between society and carceral space Drawing on a range of cultural examples including governmental legislation penal tourism prisoner work programmes and art by offenders Jennifer Turner attends to the everyday practised manifestations and negotiations of the prison boundary The book reveals how prisoners actively engage with life outside of prison and how members of the public may cross the boundary to the inside In doing so it shows the prison boundary to be a complex patchwork of processes people and parts The book will be of great interest to scholars and upper level students of criminology carceral geography and cultural studies
