## **Russian Revolution And Leninism Or Marxism:**

**The Russian Revolution, and Leninism Or Marxism?** Rosa Luxemburg,1961 A controversial Marxist Luxemburg here opposes the Bolsheviks quest for power     **The Russian Revolution and Leninism Or Marxism** Rosa Luxemburg,1961

**Leninism Or Marxism?** Rosa Luxemburg,1962     **Lenin And The Russian Revolution** Christopher Hill,2016-09-06 Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork     *An Ideology in Power* Bertram Wolfe,2017-02-17 Originally published in 1969 and representing a quarter of a century s work of one of the USA s most respected scholars in Soviet affairs this volume discusses the question of what happens to an ideology in power by focusing on the evolution and uses of Marxism in Soviet practice As well as analyzing totalitarian behaviour the author offers advice for Western policy from analysis of the past     [The Russian revolution](#) Rosa Luxemburg,1961     **Lenin and The Russian Revolution** ,1967     *Lenin's Political Thought* Neil Harding,1977

*Leninism Under Lenin* Marcel Liebman,1975     **A Study Guide for Political Theories for Students: MARXISM** Gale, Cengage Learning,2015-03-13 Designed with busy students in mind this concise study guide examines major political theories and is organized into the following easily digestible sections overview history theory in depth theory in action analysis and critical response topics for further study and bibliography     **V.I. Lenin on Youth** Vladimir Il'ich Lenin,1967

**What is to be Done?** Vladimir Il'ich Lenin,1929 A political pamphlet written in 1901 and published in 1902 in which the author argues that the working class will not spontaneously become political simply by fighting economic battles with employers over wages working hours and the like To educate the working class on Marxism the author insists that Marxists should form a political party or vanguard of dedicated revolutionaries in order to spread Marxist political ideas among the workers The pamphlet in part precipitated the split of the Russian Social Democratic Labor Party between Lenin s Bolsheviks and the Mensheviks Adapted from Wikipedia     **Leninism** Alfred G. Meyer,1962 Based on a philosophy that is uncongenial to thinkers in our culture Leninism comprised a set of uncomfortable and highly controversial ideas the very preoccupation with which can serve today to compromise a writer Since Leninism is at the same time deceptively crude and simple at least in the way in which its advocates are wont to propound it many students of political thought tend to consider it unworthy of serious attention Hence instead of inquiring what Leninism is our social scientists have more often asked themselves why anyone might be prompted to turn to these ideas and follow the The relevancy of any study of Leninism has been questioned Its appeal has indeed been noted and its official acceptance as virtual dogma in the entire communist world is acknowledged but there is a good deal of dispute over the effectiveness of Leninist ideas even in this communist world     *The Russian Revolution (1917-1926)* Lancelot Lawton,1927 Bog om den russiske revolution under zaren Nikolaj den 2 og om hvordan samfundet blev formet efter denne Bogen er dog fra omkring 1930     *Twentieth-Century Marxism* Daryl Glaser,David M.

Walker,2007-09-12 Divided into three parts examining Marxism historically geographically and thematically this book outlines and assesses the Marxist tradition as it developed in the twentieth century and considers its place and standing as we move into the twenty first century

**Lenin and the Revolutionary Party** Paul Le Blanc,2016-02-01 For generations historians of the right left and center have all debated the best way to understand V I Lenin s role in shaping the Bolshevik party in the years leading up to the Russian Revolution At their worst these studies locate his influence in the forcefulness of his personality At their best they show how Lenin moved other Bolsheviks through patient argument and political debate Yet remarkably few have attempted to document the ways his ideas changed or how they were in turn shaped by the party he played such a central role in building In this thorough concise and accessible introduction to Lenin s theory and practice of revolutionary politics Paul Le Blanc gives a vibrant sense of the historical context of the socialist movement in Russia and abroad from which Lenin s ideas about revolutionary organization spring What emerges from Le Blanc s partisan yet measured account is an image of a collaborative ever adaptive and dynamically engaged network of revolutionary activists who formed the core of the Bolshevik party

Lenin, Hegel, and Western Marxism Kevin B. Anderson,2021-12-20 Still the only full length study of the achievements and limitations of Lenin s extensive writings on Hegel Hegel Lenin and Western Marxism has become a minor classic In a full critical account Anderson s book connects Lenin s dialectics to his renowned writings on imperialism anti colonial movements and the state It takes up as well the debate over Lenin s writings on Hegel among Marxists such as Georg Luk cs Henri Lefebvre C L R James Raya Dunayevskaya Lucio Colletti and Louis Althusser With a comprehensive new introduction by the author This book is an updated and expanded edition with a new Introduction by the author originally published by The University of Illinois Press 1995 978 02 52 06503 3

**In Defence of the Russian Revolution** Al Richardson,1995

**The Revolution Betrayed** Leon Trotsky,2015-10-01 The Revolution Betrayed is one of the most important Marxist texts of all time It is the only serious Marxist analysis of what happened to the Russian Revolution after the death of Lenin In this book Trotsky provided a brilliant and profound analysis of Stalinism which has never been improved upon let alone superseded With a delay of 60 years it was completely vindicated by history Without a thorough knowledge of this work it is impossible to understand the reasons for the collapse of the Soviet Union and the events since then in Russia and on a world scale This remarkable work predicted the fate of the USSR down to the last detail In the period of so called market reform Russia experienced the biggest collapse in world economic history Just in the first five years alone the economy contracted by a staggering sixty percent Such a drop is unprecedented in economic history It was like a catastrophic defeat in war The collapse of the USSR has led to social disintegration The elements of barbarism have all reappeared Poverty beggary drunkenness drug addiction prostitution crime epidemics have spread to an unparalleled degree Sections of the youth are affected by lumpenisation At the same time the mafia capitalists have accrued massive wealth by plundering the former nationalised industries as well as the rich sources of oil and other resources The

bureaucratic degeneration of the Soviet Union and its eventual fall must be carefully studied if we are to be able to answer the questions of the workers and youth And the best explanation that can be found is in the pages of this wonderful classic of Marxism Only the restoration of a nationalised planned economy can create the conditions for a revival of Russia s colossal productive potential But this cannot mean a return to the old Stalinist regime Only a regime of real workers democracy along the lines of October 1917 can provide Russia with a way out of the present impasse As Trotsky points out in a most graphic and profound passage from *The Revolution Betrayed* a nationalised planned economy needs democracy as the human body needs oxygen

**Trotsky** Ernest Mandel, 2017-11-10 Leon Trotsky was the most important contributor to the development of revolutionary Marxism this century after Lenin As exiled militant or Soviet statesman party organizer or public orator as political analyst soldier or commentator on cultural trends he was centrally involved in the world historic upheavals of his time and foremost among the interpreters of their significance for socialism Yet the fate of his achievement was dramatically discrepant from Lenin s At the latter s death in 1924 his revolutionary authority was at its zenith In the Soviet Union his writings were consecrated as repository of a finished dogma Leninism Abroad his thought was interpreted in way much closer to its own original spirit by Georg Lukcs whose remarkable Lenin sought to elicit its unity and actuality for a later revolutionary generation In polar contrast factional assault official disgrace and proscription anathema and slander were the conditions of Trotsky s later life and activity until his assassination in 1940 and the unvarying background of any reaffirmation of his heritage for decades afterwards Systematic publication of his writings was beyond the means of his political followers whose internal discussions of his ideas were supplemented only by the attentions of liberal where not reactionary academics In the last decade however with the resurgence of the political formations associated with his name Trotsky s political role and ideas have again become topics of vigorous debate among socialists Ernest Mandel s book makes possible a necessary extension of this debate by providing the first ever synthetic account of the development of Trotsky s Marxism in its successive encounters with the key problems and crises of the epoch The Russian revolution and the theme of uneven development the construction of revolutionary parties the struggle against fascism and imperialism at large the nature of Stalinism and the prospect of a full socialist democracy are all discussed in a compact study that makes a fitting and long overdue counterpart to Lukcs s historic study of fifty years ago
