Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

theory with practice in a way that will expand one's understanding of language as a global phenomenon **Translation and the Westernization of Eighteenth-Century Russia** Sergey Tyulenev, 2012-09-03 The book considers the role of translation in the reformation of Russia along Western European lines in the eighteenth century Translation is presented as a key social systemic factor in the dynamics of the relationship between the system and its environment between Russia and Western Europe The author draws on contemporary historiography and social theory primarily Niklas Luhmann's social systems theory but also concepts of other sociologists and historians such as Gumilev Bourdieu Habermas Jameson amongst others This allows the author to conduct a comprehensive analysis of social involvements of translation Importantly this case study aspires to pave the way for research of the social role of translation of universal validity Kolmogorov in Perspective, 2000 The editorial board for the History of Mathematics series has selected for this volume a series of translations from two Russian publications Kolmogorov in Remembrance and Mathematics and its Historical Development This book Kolmogorov in Perspective includes articles written by Kolmogorov's students and colleagues and his personal accounts of shared experiences and lifelong mathematical friendships Specifically the article Andrei Nikolaevich Kolmogorov A Biographical Sketch of His Life and Creative Paths by A N Shiryaev gives an excellent personal and scientific biography of Kolmogorov The volume also includes the following articles On A N Kolmogorov by V I Arnol d In Memory of A N Kolmogorov by S M Nikolskii Remembrances of A N Kolmogorov by Ya G Sinai The Influence of Andrei Nikolaevich Kolmogorov on My Life by P L Ulyanov A Few Words on A N Kolmogorov by P S Aleksandrov Memories of P S Aleksandrov by A N Kolmogorov Newton a Information for our distributors Co published with the London Mathematical Society beginning with Volume 4 Members of the LMS may order directly from the AMS at the AMS member price The LMS is registered with the Charity Commissioners *Central and Eastern European Literary Theory and the West* Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the histoire croise e the history of translations transformations and migrations that conditioned its relationship with the West **Towards a Theory of Montage** Sergei Eisenstein, 2010-06-30 I B Tauris is
