**Raj Rhapsodies: Tourism, Heritage and the Seduction of History** Maxine Weisgrau, Carol Henderson, 2016-03-23  
Heritage is a prized cultural commodity in the marketing of tourism destinations Particular aspects of heritage are often more actively promoted with others played down The representation of heritage in tourism as static and timeless derived since time immemorial from a distant past is seductive In Asia a major part of the tourism market lies in the sale and consumption of highly orientalized images and versions of culture and history In India's marketing discourse the state of Rajasthan symbolizes the nation in its heritage laden traditional and most authentic form These images draw heavily on the British period in India the Raj In one sense this vision of Rajasthan is ennobling highlighting moments of cultural pride In another sense it demeans by omitting and obscuring salient features of contemporary life This fascinating book explores the cultural politics of tourism through interdisciplinary perspectives Carol E Henderson and Maxine Weisgrau demonstrate that tourism heritage privileges elite histories that recapitulate colonial relationships compelling non elites to collude in these narratives of subordination even as they advance their own alternative visions of history *Experiencing Anthropology in the Nicobar Archipelago* Vijay S Sahay, 2020-07-27 This book explores the discipline of social cultural anthropology through an extensive study of the Nicobarese people in one of the remotest human settlements of the Indian Ocean It examines the social cultural economic political and magico religious beliefs of the Nicobarese and traces their ritualistic upbringing from conception till after death The book also discusses the nature man spirit complex observed in the life of the Nicobarese The author further utilises this study to examine the complex role of anthropologists in maintaining objectivity and authenticity in ethnographic accounts and discusses several critical epistemological issues concerning social cultural anthropology as a field of study today Based upon extensive field research by the author conducted over four decades this volume will be of great interest to scholars and researchers of sociology and social cultural anthropology human geography social sciences minority studies as well as South Asian studies *The Changing World Religion Map* Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions faiths and practices It discusses a broad range of issues and phenomena that are related to religion including nature ethics secularization gender and identity Broadening the context it studies the interrelation between religion and other fields including education business economics and law The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions Beginning with an introduction of the concept of the changing world religion map the book first focuses on nature ethics and the environment It examines humankind's eternal search for the sacred and discusses the emergence of green religion as a theme that cuts across many faiths Next the book turns to the theme of the pilgrimage illustrated by many examples from all parts of the world In its discussion of the interrelation between religion and education it looks at the role of missionary movements It explains the relationship between religion business economics and law by means of a discussion of legal and

*Human Impact on Ganga River Ecosystem* Sharad Bhalchandra Chaphekar,1986 *Uprooting Geographic Thoughts in India* Rana Singh,David Sopher,Oskar Spate,2009-03-26 Under the cultural turn and transformation the new intellectual discourses started in the 21st century to search the roots have cross cultural comparison and to see how the old traditions be used in the contemporary worldviews This book is the first attempt dealing with roots of Indian geographical thoughts since its beginning in 1920 It emphasises identity of India and Indianness and consciousness among dweller geographers in India development and status of geography and its recent trends Gaia theory and Indian context in search of cosmic integrity ecospirituality and global message towards interrelatedness Hindu pilgrimages and its contemporary importance Mahatma Gandhi and his contribution to sustainable environmental development for global peace and humanism and new vision to see meeting grounds of the East and the West on the line of reconstruction and reconciliation in the globalising world These essays are selective and thematic therefore overall view of comprehensiveness is lacking But this book is not the end obviously it is a beginning as already other volumes in sequence and continuity are in progress At the end the lead essays representative of the three eras by Spate 1956 Sopher 1973 and Mukerji 1992 are reprinted with a view to assessing the relevance of their challenging message even today

**New Pathways in Pilgrimage Studies** Dionigi Albera,John Eade,2016-11-18 Although there has been a massive increase in the volume of pilgrimage research and publications traditional Anglophone scholarship has been dominated by research in Western Europe and North America In their previous edited volume *International Perspectives on Pilgrimage Studies* Routledge 2015 Albera and Eade sought to expand the theoretical disciplinary and geographical perspectives of Anglophone pilgrimage studies This new collection of essays builds on this earlier work by moving away from Eurasia and focusing on areas of the world where non Christian pilgrimages abound Individual chapters examine the practice of ziyarat in the Maghreb and South Asia Hindu pilgrimage in India and different pilgrimage traditions across Malaysia and China before turning towards the Pacific islands Australia South Africa and Latin America where Christian pilgrimages co exist and sometimes interweave with indigenous traditions This book also demonstrates the impact of political and economic processes on religious pilgrimages and discusses the important development of secular pilgrimage and tourism where relevant Highly interdisciplinary international and

innovative in its approach New Pathways in Pilgrimage Studies Global Perspectives will be of interest to those working in religious studies pilgrimage studies anthropology cultural geography and folklore studies Belief, Bounty, and Beauty Albertina Nugteren, 2018-08-14 This study is focused on the interaction of material and symbolic values in the domain of sacred trees in India By presenting samples from 3 000 years of Indian ritual practice it is shown that in many sacred geographies trees continue to connect the present with the past the material with the symbolic and the contemporary ecological with the traditionally sacred Although in India religion may have become very much a temple cult its embeddedness in the natural world enhances today's green interpretation of religious traditions That in environmental matters such religious inspiration may be both successful and highly ambivalent at the same time is the thought provoking position taken in the final chapters **Pilgrims** Darius Liutikas, 2020-11-20 Values rich journeys can be described as pilgrimage spiritual travel personal heritage tourism holistic tourism and valuistic journeys There are many motivations for undertaking these journeys the most important being personal values life experience personal and social identity lifestyle social and cultural influence This book presents contributions that address pilgrim motivation identity and values as they are shaped by the broader sociological psychological cultural and environmental perspectives The focus of the book is the travellers themselves and their inner world through the lens of their pilgrimage The research presented focuses on the typology of pilgrim journeys as ways in which identity and values are presented to a post modern consumer society providing interesting and challenging perspectives on the identity of pilgrims in the 21st century *The Hare Krishnas in India* Charles R. Brooks, 2014-07-14 Most Americans know about the Hare Krishnas only from encounters in airports or from tales of their activities in the East Village and Haight Ashbury in the 1960s This entertaining and sensitive book deepens our knowledge by tracing the paths of those Western Hare Krishnas who eventually traveled to or lived in India The charismatic leader of the sect the Indian monk Swami Bhaktivedanta aimed to save Westerners from what he saw as materialism and atheism by converting them to worship of the Hindu god Krishna In addition he hoped that Western disciples would inspire Indians to rediscover their own religious heritage Charles Brooks describes in full detail the work of the reverse missionaries in the town of Vrindaban which since it is traditionally considered to be identical with Krishna's spiritual world is one of the holiest places in India and the site of some of its most engaging rituals Have the Western Hare Krishnas really become part of Indian culture Can it be that Indians accept these foreigners as essentially Hindu and even Brahman Brooks answers in a way that radically challenges our accepted images of Indian social dynamics Analyzing the remarkable success of the International Society for Krishna Consciousness and their temple complex in Vrindaban where Bhaktivedanta was buried in 1977 Brooks describes the intricate social economic and religious relationships between Westerners and Indians He demonstrates that social rank in the town is based not only on caste but also on religious competence many Indians of Vrindaban believe in Bhaktivedanta's words that Krishna is for all Originally published in 1989 The Princeton Legacy Library
