Scriptures Thomas Hartwell Horne,1877 **Karanga Indigenous Religion in Zimbabwe** Tabona Shoko,2016-04-22

Tabona Shoko contends that religion and healing are intricately intertwined in African religions This book on the religion of the Karanga people of Zimbabwe sheds light on important methodological issues relevant to research in the study of African religions Analysing the traditional Karanga views of the causes of illness and disease mechanisms of diagnosis at their disposal and the methods they use to restore health Shoko discusses the views of a specific African Independent Church of the Apostolic tradition The conclusion Shoko reaches about the central religious concerns of the Karanga people is derived from detailed field research consisting of interviews and participant observation This book testifies that the centrality of health and well being is not only confined to traditional religion but reflects its adaptive potential in new religious systems manifest in the phenomenon of Independent Churches Rather than succumbing to the folly of static generalizations Tabona Shoko offers important insights into a particular society upon which theories can be reassessed adding new dimensions to modern features of the religious scene in Africa *How Religion Evolved* Brian McVeigh,2017-07-12 Why did many religious leaders Moses Old Testament prophets Zoroaster claim they heard divine voices Why do ancient civilizations exhibit key

similarities e.g the living dead treating the dead as if they were still alive speaking idols care and feeding of effigies monumental mortuary architecture and houses of gods pyramids ziggurats temples How do we explain strange behaviour such as spirit possession speaking in tongues channelling hypnosis and schizophrenic hallucinations Are these lingering vestiges of an older mentality Brian J McVeigh answers these riddles by updating bicameralism First proposed by the psychologist Julian Jaynes this theory postulates that an earlier mentality existed a human the brain's left hemisphere heard voices of gods or ancestors the brain's right hemisphere Therefore ancient religious texts reporting divine voices were recounting of audio visual hallucinations a method of social control when early populations expanded As growing political economic complexity destabilized god governed states in the late second millennium BCE divine voices became inadequate Eventually humans had to culturally acquire new cognitive skills modern religions to accommodate increasing social pressures selves replaced the gods and history witnessed an inward turn This psychological interiorization of spiritual experience laid the foundations for the world's great religions and philosophies that arose in India China Greece and the Middle East in the middle of the first millennium BCE **Types of Pentecostal Theology** Christopher A.

Stephenson, 2016-10 In this the first critical study of the major theologians of pentecostalism Christopher A Stephenson establishes four original categories that classify recent pentecostal theologians methodologies in systematic constructive theology **The Heirs of the Prophet** Liyakat N. Takim, 2012-02-01 2007 CHOICE Outstanding Academic Title After the death of the Prophet Muhammad different religious factions within the Muslim community laid claim to the Prophet's legacy Drawing on research from Sunni and Shi'ite literature Liyakat N Takim explores how these various groups including the caliphs scholars Sufi holy men and the Shi'ite imams and their disciples competed to be the Prophetic heirs The book also illustrates how the tradition of the heirs of the Prophet was often a polemical tool used by its bearers to demand obedience and loyalty from the Muslim community by imposing an authoritative rendition of texts beliefs and religious practices Those who did not obey were marginalized and demonized While examining the competition for Muhammad's charismatic authority Takim investigates the Shi'ite self understanding of authority and argues that this was an important factor in the formation of a distinct Shi'ite leadership The Heirs of the Prophet also provides a new understanding of textual authority in Islam by examining authority construction and the struggle for legitimacy evidenced in Islamic biographical dictionaries Syllabus and Notes of the Course of Systematic and Polemic Theology Taught in Union Theological Seminary, Virginia Robert Lewis Dabney, 1885 Speaking of God in Thomas Aquinas and Meister Eckhart Anastasia Wendlinder, 2016-04-01 Medieval masters Thomas Aquinas and Meister Eckhart considered problems inherent to speaking of God exploring how religious language might compromise God's transcendence or God's immanence ultimately hindering believers in their journey of faith seeking understanding Going beyond ordinary readings of Aquinas and building a foundation for further insights into the works of both theologians this book draws out the implications of the thought of Eckhart and Aquinas for contemporary

issues including ecumenical and inter religious dialogue liturgy and prayer and religious inclusivity Reading Aquinas and Eckhart in light of each other reveals the profound depth and orthodoxy of both of these scholars and provides a novel approach to many theological and practical religious issues

Getting the Holy Ghost Peter Marina, 2013-01-30 This book carries an ethnographic signature in approach and style and is an examination of a small Brooklyn New York African American Pentecostal church congregation and is based on ethnographic notes taken over the course of four years The Pentecostal Church is known to outsiders almost exclusively for its members bizarre habit of speaking in tongues This ethnography however puts those outsiders inside the church pews as it paints a portrait of piety compassion caring love all embraced through an embodiment perspective as the church s members experience these forces in the most personal ways through religious conversion Central themes include concerns with the notion of spectacle because of the grand bodily display that is highlighted by spiritual struggle social aspiration punishment and spontaneous explosions of a variety of emotions in the public sphere The approach to sociology throughout this work incorporates the striking dialectic of history and biography to penetrate and interact with religiously inspired residents of the inner city in a quest to make sense both empirically and theoretically of this rapidly changing surprising and highly contradictory late modern church scene The focus on the individual process of becoming Pentecostal provides a road map into the church and canvasses an intimate view into the lives of its members capturing their stories as they proceed in their Pentecostal careers This book challenges important sociological concepts like crisis to explain religious seekership and conversion while developing new concepts such as God Hunting and Holy Ghost Capital to explain the process through which individuals become tongue speaking Pentecostals Church members acquire Holy Ghost Capital and construct a Pentecostal identity through a relationship narrative to establish personal status and power through conflicting tongue speaking ideas Finally this book examines the futures of the small and large institutionally affiliated Pentecostal Church and argues that the small Pentecostal Church is better able to resist modern rationalizing forces retaining the charisma that sparked the initial religious movement The power of charisma in the small church has far reaching consequences and implications for the future of Pentecostalism and its followers
