Kumar ,2019 Over the last decade traditional Indian temple towns have transformed into centres for urban lifestyles and tourist activities One of these is the historic temple town Vrindavan in North India on which this study focuses Exploring the multiple socio cultural realities present in the town the author engages with the narratives of the residents as they respond to the socio environmental changes against the backdrop of national and regional modernisation processes Here the imaginaries of a mythic Vrindavan with its pristine and sacred environment are evoked in narrations on contemporary modernity *Godwired* Rachel Wagner, 2012-03-12 *Godwired* offers an engaging exploration of religious practice in the digital age It considers how virtual experiences like stories games and rituals are forms of world building or cosmos construction that serve as a means of making sense of our own world Such creative and interactive activity is arguably patently religious This book examines the nature of sacred space in virtual contexts technology as a vehicle for sacred texts who we are when we go online what rituals have in common with games and how they work online what happens to community when people worship online how religious worlds and virtual worlds nurture similar desires Rachel Wagner suggests that whilst our engagement with virtual reality can be viewed as a form of religious activity today's virtual religion marks a radical departure from traditional religious practice it is ephemeral transient rapid disposable hyper individualized hybrid and in an ongoing state of flux **The Blackwell Companion to Sociology of Religion** Richard K. SACRED WORLD OF PENITENTES Alberto L. Pulido, 2000-07-17 On the isolated frontiers of the Spanish empire Catholicism flourished with little direction or support from the centers of colonial power in Mexico Hispano Catholics in the Southwest fashioned a self reliant lay religion that was intimately connected to their everyday experiences From this tradition emerged Los Hermanos Penitentes of New Mexico a brotherhood that has led Hispano communities both in worship and in practical measures such as collective irrigation and harvest since the end of eighteenth century Yet in accounts that range from nineteenth century pastoral letters to sensational mid twentieth century magazine exposes the brotherhood has been cast as a group of religious primitives who practice self flagellation and other bizarre rituals Drawing on seven years of research and extensive interviews with several penitentes Alberto Lopez Pulido focuses on their core religious concept of doing penance through charity prayer and the good example He explains that for the penitentes prayer is a form of action and acts of charity are tantamount to prayer and that both provide good examples to the brotherhood and the community at large Lopez Pulido argues that such teachings which have flourished outside the boundaries of institutional Catholicism should be seen as creative practical and lived religious expression rather than as deviancy Allowing penitentes oral histories to reveal their views of the sacred Lopez Pulido shows how the brotherhood's practices have continued to maintain community identity and purpose throughout northern New Mexico
