Shame And Body Image Culture And The Compulsive Eater:

Shame and Body Image Barbara McFarland, Tyeis Baker Baumann, 1990 *The Tyranny of the Normal* Carol C. Donley, Sheryl Buckley, 1996 A study of the experiences of those who live outside social norms for beauty size and shape as well as the reactions of normal people to those who appear grotesque The text contains essays on treating those with disorders or deformities and over 40 stories poems and plays about abnormality **The Illusions Of Post-Feminism** Vicki Coppock, Deena Haydon, Ingrid Richter, 2014-09-03 First Published in 1995 As feminists reflect on the impact of the second wave of feminism and assess the gains of the last thirty years invariably they have questioned whether claims that women have achieved equality are justified In the late 1980s there was a proliferation of popular imagery of new men and post feminist women with the concept of post feminism reinforcing and emphasizing the differences between independent upwardly mobile career orientated women and those women who choose the more natural role of wife and mother The Illusions of Post Feminism New Women Old Myths maintains that post feminism is a myth Through in depth interviews with women about four major areas of their lives education work the media and the family the authors challenge and expose the myths implicit in the concept of post feminism The research illustrates that women s discontent continues despite the assumption that gender equality would result from equal opportunities legislation The chapters highlight the ineffective nature of liberal reformism and demonstrate how power relations still lie at the root of the oppression of women With its provoking and challenging analysis this revealing book breaks the silence of women s real experiences by showing the actuality of women s lives today *Beyond Anorexia* Catherine Garrett, 1998-10-13 A sociological exploration of eating disorders and the first book to focus exclusively on recovery **Critical Perspectives on Mental Health** Vicki Coppock, John Hopton, 2002-01-04 Over the last forty years there have been numerous attempts to critique the theory and practice of mental health care Taking its lead from anti psychiatry Critical Perspectives on Mental Health seeks to explore and evaluate the claims of mainstream mental health ideologies and to establish what implications the critiques of these perspectives have for practice This text will be essential reading for students and those working in the social work and mental health care professions *Healing from the Trauma of Childhood Sexual Abuse* Karen A. Duncan, 2004-08-30 The traumatic affects of childhood sexual abuse can remain and recur throughout life for women who have not healed emotionally This book by a family therapist shares stories from 18 women abused as children explaining that healing can occur at any stage of life and that healing itself occurs in stages The author offers guidance to recognize the long lingering potential affects of childhood sexual abuse including depression anxiety dissociation and chronic shock and she explains steps to take for recovery Also presented are letters from women who have healed or are in recovery Sexual abuse by men juveniles and female perpetrators is discussed as is how children may act out the abusive behavior taught by perpetrators The incidence of abuse by family members is also addressed Duncan explains the dual dilemma moral and legal that women face in exposing a

sexual perpetrator within the family when not protected by the legal system due to statutes of limitations She also discusses controversial topics including false memory and disclosure of memory to the perpetrator

Teaching Literature and Medicine Anne Hunsaker Hawkins, Marilyn Chandler McEntyre, 2016-01-01 Both the actualities and the metaphorical possibilities of illness and medicine abound in literature from the presence of tuberculosis in Franz Kafka's fiction or childbed fever in Mary Shelley's *Frankenstein* to disease in Thomas Mann's *Death in Venice* or in Harold Pinter's *A Kind of Alaska* from the stories of Anton Chekhov and of William Carlos Williams both doctors to the poetry of nurses derived from their contrasting experiences These are just a few examples of the cross pollination between literature and medicine It is no surprise then that courses in literature and medicine flourish in undergraduate curricula medical schools and continuing education programs throughout the United States and Canada This volume in the MLA series *Options for Teaching* presents a variety of approaches to the subject It is intended both for literary scholars and for physicians who teach literature and medicine or who are interested in enriching their courses in either discipline by introducing interdisciplinary dimensions The thirty four essays in *Teaching Literature and Medicine* describe model courses deal with specific texts authors and genres list readings widely taught in literature and medicine courses discuss the value of texts in both medical education and the practice of medicine and provide bibliographic resources including works in the history of medicine from classical antiquity
