*Shanghai, 1925* Nicholas Rowland Clifford, 1979      **Shanghai 1925** Nicholas R. Clifford, 1979      **Japan and Britain in Shanghai, 1925-31** H. Goto-Shibata, 1995-11-17 In Shanghai in 1925 the shooting by a British policeman of Chinese demonstrators developed into a full scale anti British movement while in 1932 Japan bombarded the Chinese areas of Shanghai The book examines how the relations between China Britain and Japan in Shanghai changed over time during the period It investigates the economic aspect of history and businessmen s perceptions as well as the diplomatic and military aspects because economic expansion was one of the most important objectives of Japan in the 1920s      The Nationalist Revolution in China, 1923-1928 C. Martin Wilbur, 1984-11-29 This lively history of China s Nationalist revolution tells the story of a small group of Chinese patriots headed by Sun Yat sen until his death in 1925 They mobilised men money and propaganda to create a provincial base from which they launched a revolutionary military campaign to unify the country end imperialist privilege and bring the Kuomintang to power Soviet Russia induced the fledgling Chinese Communist Party to join the effort and sent money arms military and political experts to guide the revolution But there was a fatal flaw in this co operation and when the fighting was over the remnant Communist Party had been driven underground the Russian experts had been expelled and a faction riven Nationalist Party led by Chiang Kai shek could claim to be China s new government This study of a key period in China s history reprinted from Volume 12 of The Cambridge History of China is solidly based in Chinese Russian and Western languages sources      **Government, Imperialism and Nationalism in China** Chihyun Chang, 2013-08-06 The Chinese Maritime Customs Service which was led by British staff is often seen as one of the key agents of Western imperialism in China the customs revenue being one of the major sources of Chinese government income but a source much of which was pledged to Western banks as the collateral for and interests payments on massive loans This book however based on extensive original research considers the lower level staff of the Chinese Maritime Customs Service and shows how the Chinese government struggling to master Western expertise in many areas pursued a deliberate policy of encouraging lower level staff to learn from their Western superiors with a view to eventually supplanting them a policy which was successfully carried out The book thereby demonstrates that Chinese engagement with Western imperialists was in fact an essential part of Chinese national state building and that what looked like a key branch of Chinese government delegated to foreigners was in fact very much under Chinese government control      **From Friend to Comrade** Hans J. van de Ven, 2023-12-22 Scholars have long held that the Chinese Communist Party CCP was a centralized organization from its founding in 1921 In a departure from that view From Friend to Comrade demonstrates how the CCP began as a group of study societies only evolving into a mass Marxist Leninist party by 1927 Hans J van de Ven s study is based on party documents of the 1920s that have only recently become available as well as the writings of a wide range of Chinese communists He analyzes the party s difficulty in building a cohesive organization firmly rooted in Chinese society While past

scholarship has emphasized the influence of Soviet communism on the CCP van de Ven stresses the thinking and actions of Chinese communists themselves placing their struggle in the context of China's political history and highly complex society. Scholars have long held that the Chinese Communist Party (CCP) was a centralized organization from its founding in 1921. In a departure from that view, *From Friend to Comrade* demonstrates how the CCP began as a group of study societies only evolving

Asian Department Stores Kerrie L. MacPherson, 2013-12-16 In this pioneering study of the development of the Asian department store, economists, anthropologists, and historians examine various aspects of retailing, business organization, networking, and consumerism in the expanding economies of Asia. The Jiangyin Mission Station Lawrence D.

Kessler, 2018-06-15 Lawrence Kessler uses the Jiangyin mission station in the Shanghai region of China to explore Chinese-American cultural interaction in the first half of the twentieth century. He concludes that the Protestant missionary movement was welcomed by the Chinese not because of the religious message it spread but because of the secular benefits it provided. Like other missions, the Jiangyin Station, which was sponsored by the First Presbyterian Church of Wilmington, North Carolina, combined evangelism with social welfare programs and enjoyed a respected position within the local community. By 1930 the station supported a hospital and several schools and engaged in anti-opium campaigns and local peacekeeping efforts. In many ways, however, Christianity was a disruptive force in Chinese society, and Kessler examines Chinese ambivalence toward the mission movement, the relationship between missions and imperialism, and Westerners' response to Chinese nationalism. He also addresses the Jiangyin Station's close ties to and impact upon its supporting church in Wilmington. A Road Is

Made Steve Smith, 2018-12-07 This is a study of the activities, ideas, and internal life of the Chinese Communist Party in Shanghai during its formative period. It investigates the party's relations to the city's students and teachers, women, entrepreneurs, secret societies, and its workers and examines the efforts to transform the CCP into a Leninist party, exploring relations between intellectuals and workers, men and women, Chinese and Russians within the party. The book culminates in a detailed analysis of the three armed uprisings which led to the CCP's briefly taking power in March 1927 before being crushed by troops loyal to Chiang Kai-shek. The study highlights the extent to which the Soviet Union sought to manipulate China's national revolution yet also reveals how divisions at every level of the Comintern allowed the CCP to achieve a degree of independence and to conduct policy at considerable variance with that laid down by Moscow. Labor and the Chinese Revolution S. Bernard Thomas, 2020-09-23 In the two-decade period from 1928 to 1948, the proletarian themes and issues underlying the Chinese Communist Party's ideological utterances were shrouded in rhetoric designed perhaps as much to disguise as to chart actual class strategies. Rhetoric notwithstanding, a careful analysis of such pronouncements is vitally important in following and evaluating the party's changing lines during this key revolutionary period. The function of the proletariat in the complex of policy issues and leadership struggles which developed under the precarious circumstances of those years had an importance out of all proportion to labor's relatively minor role in the post-1927 Communist-led

revolution 1 2      Social Organization in South China, 1911-1949 Yuen-fong Woon, 2020-08-06 Bridging the collapse of the Confucian state and the establishment of the People's Republic of China the period 1911-49 is particularly fascinating to historians anthropologists sociologists and political scientists Unfortunately it is also a very confusing period full of shifts and changes in economic social and political organizations The social implications of these changes and the relationships between officials on the subdistrict level the unofficial leaders and the bulk of the peasantry remain inadequately known South China which nurtured the Communist Party in its formative years is a particularly interesting case In this study I use the Kuan lineage of Kai ping as a case study to show the effects of demographic economic administrative and educational changes after the Treaty of Nanking 1842 on patrilineal kinship as a principle of social organization in South China vii      *Career Patterns in the Ch'ing Dynasty* Raymond Chu, William Saywell, 2020-08-06 The office of governor general tsung tu was the highest provincial post throughout the Ching dynasty As such it was a vital link in the control of a vast empire by a very small and alien ruling elite This is primarily a biographical and statistical analysis of the incumbents of that office By analyzing the biographical data of those who held the position of governor general much may be learned about the nature of the office itself However the main objective of the study is to provide information on career patterns that is the variety of different posts held from the first official appointment to that of governor general of an important cross section of successful Ching bureaucrats By plotting and analyzing the different patterns their official careers took we should be able to determine what kind of men reached the top of China's provincial and national administration during the final centuries of China's imperial history the qualifications that were required the factors which prompted rapid promotion or sudden disgrace We should also be able to determine the extent to which these and other factors varied markedly among Manchu Mongol Chinese Bannerman and Han incumbents and whether changes throughout the dynasty can be detected in policies concerning the office or in the career patterns of its personnel If such detection is possible this study may lend support to the view that late imperial China was not static but a society undergoing significant changes xi      **A Bibliography of Chinese Language Materials on the People's Communes** Wei-yi Ma, 2020-08-06 A research tool for scholars studying modern China particularly those focusing on the post 1949 communal system and economy The work includes full bibliographic references to some 2 800 essay articles pamphlets and other materials in Chinese taken from more than 130 publications primarily from mainland The entries are arranged are arranged topically with annotations Includes a geographic index to the communes referred to in the listed items      *China on the Margins* Sherman Cochran, Paul G. Pickowicz, 2011-03-31 Should modern Chinese history be approached from the center looking out or from the margins looking in The contributors to this book have explored a variety of relationships between the center or centers and the margins in China under the Qing dynasty the Republic and the People's Republic      **Imagined Ancestries of Vietnamese Communism** Christoph Giebel, 2011-10-01 Imagined Ancestries of Vietnamese Communism illuminates the real and imagined lives of Ton Duc Thang 1888-1980 a

celebrated revolutionary activist and Vietnamese communist icon but it is much more than a conventional biography This multifaceted study constitutes the first detailed re evaluation of the official history of the Vietnamese Communist Party and is a critical analysis of the inner workings of Vietnamese historiography never before undertaken in its scope In prominence and public visibility second only to Ho Chi Minh whom he succeeded in the presidency Ton Duc Thang in fact lacked any real power Author Christoph Giebel reconciles this seeming contradiction by showing that it was only Ton Duc Thang who could personify for the Party crucial legitimizing ancestries those that linked Vietnamese communism with the Russian October Revolution highlighted proletarian internationalism among its ranks and rooted the Party in Viet Nam s south The study traces the decades long complex processes in which famous heroic episodes in Ton Duc Thang s life were manipulated or simply fabricated and depending on prevailing historical and political necessities utilized as propaganda by the Communist Party Over time narrative control over these tales switched hands however and since the late 1950s the stories came to be used in factional disputes by competing ideological and regional interests within the revolutionary camp Based on innovative archival research in Viet Nam and France and on analyses of biographical writings propaganda and museum representations the study challenges core assumptions about the history of the Vietnamese Communist Part and sheds light on divisions within the revolutionary movement along regional class and ideological lines Giebel uses the fictions and contested facts of Ton s life to demonstrate that history writing and the constructions of memories and identities are always political acts

The Search for Modern China Jonathan D. Spence, 1990 This work chronicles the history of China for over four hundred years through the spring of 1989      **The Modernization of China** Rozman, 1982-08 In the Modernization of China an interdisciplinary team of scholars collaborate closely to provide the first systematic integrated analysis of China in transformation from an agrarian based to an urbanized and industrialized society Moving from the legacy of the Ming and Ching dynasties to the reforms and revolutions of the 20th century the authors seek reasons for China s inability to achieve rapid steady growth during a 200 year long struggle to modernize They examine the changing shape of Chinese society the role of the state in local politics military affairs economics the development of the educational system changes in family population and settlement patterns science and technology world views and foreign relations And they make frequent comparisons between China s experience with growth and that of two other latecomers to modernization Japan and Russia The result is a book that brings much needed clarity and perspective to our understanding of China and the way a great civilization attempts to meet the challenge of modernity      **Chinese Professionals and the Republican State** Xiaoqun Xu, 2000-12-04 Xiaoqun Xu makes a compelling and original contribution to the study of China s modernization with this book on the rise of professional associations in Republican China in their birthplace of Shanghai and of their political and socio cultural milieu This 2001 book is rich in detail about the key professional and political figures and organizations in Shanghai filling an important gap in its social history The professional associations were as the author writes unambiguously urban and

modern in their origins and functions representing a new breed of educated Chinese and they pioneered a new type of relationship with the state Xu addresses a central issue in China studies the relationship between state and society and proposes an alternative to the Western derived concept of civil society This book illuminates the complexity of modernization and nationalism in twentieth century China and provides a concrete case for comparative studies of professionalization and class formation across cultures

**From War to Nationalism** Arthur Waldron, 2003-10-16 This book investigates the warlord period in China focusing on the pivotal year 1924
