Teaching and Learning Early Years Mathematics Mary Briggs, 2025-02-28 This up to date

book is essential reading for all those teaching or training to teach Early Years mathematics. It provides comprehensive subject and pedagogic knowledge for those responsible for the youngest children in school and their vital first experiences of learning mathematics. Appropriately focused text ensures the reader can understand and support how children learn to count and calculate, recognize shapes and begin to generalize their findings about problems. Critical questions enable trainees and teachers to both test and develop their own understanding of mathematics and suggested activities clearly exemplify how theory links to practice. The text also considers recent and relevant research, examines international perspectives and provides opportunities for reflection.

Problem Solving, Reasoning and Numeracy Pat Beckley, Ashley Compton, Jane Johnston, Harriet Marland, 2010-11-11 This is a complete guide to supporting problem solving reasoning and numeracy in the Early Years Foundation Stage (EYFS) promoting a holistic approach and exploring good practice.

An Integrated Play-based Curriculum for Young Children Olivia N. Saracho, 2013-03 Play provides young children with the opportunity to express their ideas, symbolize and test their knowledge of the world. It provides the basis for inquiry in literacy, science, social studies, mathematics, art, music and movement. Through play, young children become active learners engaged in explorations about themselves, their community and their personal social world. An Integrated Play Based Curriculum for Young Children offers the theoretical framework for understanding the origins of an early childhood play based curriculum and how young children learn and understand concepts in a social and physical environment. Distinguished author Olivia N. Saracho then explores how play fits into various curriculum areas in order to help teachers develop their early childhood curriculum using developmentally and culturally appropriate practice. Through this integrated approach, young children are able to actively engage in meaningful and functional experiences in their natural context. Special Features Include Vignettes of children's conversations and actions in the classroom, Suggestions for activities and classroom materials, Practical examples and guidelines, End of chapter summaries to enhance and extend the reader's understanding of young children. By presenting appropriate theoretical practices for designing and implementing a play based curriculum, An Integrated Play Based Curriculum for Young Children offers pre-service teachers the foundational knowledge about the field, about the work that practitioners do with young children and how to best assume a teacher's role effectively.

Geometry, Grade 4 Jennifer Lawson, 2008-07-31 In this module, students explore two and three dimensional shapes, their makeup, their properties and their relationships to each other. The principal goal is to enhance students' understanding of geometric concepts and the roles they play in our lives. Also included: materials lists, activity descriptions, questioning techniques, problem solving examples, activity centre and extension ideas, assessment suggestions, activity sheets and visuals. All modules include a list of children's books and websites related to the mathematics topics introduced. A detailed introduction to the Hands On Mathematics program, guiding principles, implementation guidelines, an overview of the skills that students use and develop during mathematics inquiry and a classroom assessment plan and record keeping templates.

A Child Centred EYFS Aaron

Bradbury, Ruth Swailes, 2024-09-05 As EY practitioners we know that child centred practice is what matters. Despite the pressures for more school like learning in the Early Years, EY professionals and practitioners continue to advocate for child led best practice in settings. This book is a toolkit for all those working with children on how to develop and implement a child centred curriculum for delivery of the EYFS. A curriculum that is research informed and based on what we know about children's development and learning. A curriculum that ensures children have the time and space to explore and develop the fundamental building blocks of early development.
