*with the Patron in Mind* Susanna Davidsen, Everyl Yankee, 2004 A library's web site is the face of the institution in the virtual world. If users don't quickly and intuitively find what they need, they will move on to other sites, possibly for good.

Encyclopedia of Industrial and Organizational Psychology Steven G. Rogelberg, 2007 Publisher description **Balanced Website Design** Dave Lawrence, Soheyla Tavakol, 2006-12-18 Real Website Design is a new methodology that fuses traditional strengths of structured, stepped, and iterative approaches to design and implementation, sharply focused throughout a project on defining and achieving the desired purpose, usability, and aesthetic characteristics, which are essential requirements of any website. This book offers practical discussion of new perspectives on usability and aesthetics and a down-to-earth, structured approach to designing a website or teaching website design. *Universal Access in Human-Computer Interaction: User and Context Diversity* Constantine Stephanidis, Margherita Antona, 2013-07-03 The three-volume set LNCS 8009/8011 constitutes the refereed proceedings of the 7th International Conference on Universal Access in Human-Computer Interaction UAHCI 2013, held as part of the 15th International Conference on Human-Computer Interaction HCII 2013, held in Las Vegas, USA, in July 2013, jointly with 12 other thematically similar conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 230 contributions included in the UAHCI proceedings were carefully reviewed and selected for inclusion in this three-volume set. The 78 papers included in this volume are organized in the following topical sections: age-related issues, human vision in universal access, emotions and persuasion in universal access, design for autistic spectrum disorders, cognitive issues for universal access, universal access to the Web and social communities. *The Practical Handbook of Internet Computing* Munindar P. Singh, 2004-09-29 The Practical Handbook of Internet Computing analyzes a broad array of technologies and concerns related to the Internet, including corporate intranets. Fresh and insightful articles by recognized experts address the key challenges facing Internet users, designers, integrators, and policymakers. In addition to discussing major applications, it also covers the architectures, enabling technologies, software utilities, and engineering techniques that are necessary to conduct distributed computing and take advantage of Web-based services. The Handbook provides practical advice based upon experience, standards, and theory. It examines all aspects of Internet computing in wide-area and enterprise settings, ranging from innovative applications to systems and utilities, enabling technologies, and engineering and management. Content includes articles that explore the components that make Internet computing work, including storage servers and other systems and utilities. Additional articles examine the technologies and structures that support the Internet, such as directory services, agents, and policies. The volume also discusses the multidimensional aspects of Internet applications, including

mobility collaboration and pervasive computing It concludes with an examination of the Internet as a holistic entity with considerations of privacy and law combined with technical content
