Shark Attacks Alex MacCormick,2025-06-25 More horrifying than Jaws because it s true Since 1990 there have been 283 shark attacks worldwide 40 of which were fatal In the past 15 years reports of shark attacks have substantially increased Over half the attacks occur in water no deeper than five feet Believe it or not shark attacks are still a very real threat to humans These unspeakably bloody encounters happen in shallow water in safe areas to people just like you people who thought it could never happen to them HONG KONG 1995 A forty five year old woman swimming in shallow water with fifty other people has one leg and one arm ripped off by the shark she dies before reaching the hospital CALIFORNIA 1993 A man snorkeling with friends is swallowed headfirst halfway down his body luckily the shark spits him back out with only bite wounds AUSTRALIA 1993 A professional diver and mother of five is literally torn in half in front of her horrified family by a

Screening the Nonhuman Amber E. George, J.L. Schatz, 2016-04-27 Screening the Nonhuman draws connections between how animals represented on screen translate into reality In doing so the book demonstrates that consuming media is not a neutral act but rather a political one The images humans consume have real world consequences for how animals are treated as actors as pets and in nature The contributors propose that altering the representations of animals can change the way humans relate to non humans Our hope is for humans to generate more ethical relationships with non humans ultimately mediating reality both in terms of fiction and non fiction To achieve this end film television advertisements and social media are analyzed through an intersectional lens But the book doesn't stop here Each author creates counter representational strategies that promise to unweave the assumptions that have led to the mistreatment of humans and non humans alike
