*To Soar with the Eagles* Sidney Bolick, 2002 *To Soar With The Eagles* is the sequel to the author's first book *Mama's Boarding House* picking up where *Mama's Boarding House* leaves off His new book follows his training as a pilot in the Royal Canadian Air Force in 1941 and his World War II service in Europe with both the Royal Air Force and the United States Army Eighth Air Force from 1942 through 1944 Returning to the United States in November of 1944 after having been shot down on a bombing mission over Germany being interned in Switzerland and escaping from there he ends the war in the Air Transport Command flying four engine transport planes on the run from California to Hawaii and the Central Pacific Islands This book is not about heroes although there are certainly some heroes in it Rather it is about ordinary young men like the author who when thrust into the maelstrom of war somehow found the courage and fortitude to face and overcome the dangers and challenges that confronted them Students of World War II and those simply curious about it will find that it was not all fighting and bloodshed For every minute spent in actual combat there were hours and days of training and preparation Some of the most interesting parts of this book are the author's descriptions of his training from learning to march in step to preparing for his first solo flight in a little Tiger Moth biplane Reading almost like a diary *To Soar With The Eagles* follows the author's footsteps from the afternoon in June of 1941 when he steps down from the Greyhound Bus in Ottawa Canada until he is discharged from the United States Air Force in nineteen forty six an old veteran at the age of twenty two

Brodsky,1996 As the initial volume of an impressive series comprising the full collection of verse by Louis Daniel Brodsky this book begins with Brodsky s first poem written during his final months at Yale in 1963 and traces the author s maturation into his apprentice years when he was a young graduate student in English at Washington University in St Louis presenting the hundreds of poems prose poems and short autobiographical prose works he had composed by June of 1967 when he launched

his professional writing career These pieces serve not only as a measure of Brodsky's evolution as a poet but as a human being chronicling one man's struggle to find his purpose in life to make a place for himself in a society often at odds with his own convictions His hopes fears and frustrations permeate the work revealing the intense inner conflicts he felt compelled to set to paper from individual matters his indecision over vocational goals his candid experiences with love and rejection the overwhelming isolation inherent in his academic pursuits to more global concerns especially his acute awareness of the increasing social and political turbulence surrounding him By grappling with these issues in his writing he explored passionate emotions released tension and at times resolved doubts evoked through his introspection But more important he used this outpouring to hone his creative skills and develop his personal and professional identity ultimately creating this tangible record of his travail and his ecstasy his certitude and his confusion and finally his journey into the heart of the person he would never stop becoming a poet
