At last a book of sage advice that will help frustrated parents reconnect with their teenager and keep that connection even in today's often crazy world. The first step is simple: realizing that inside every teen resides two very different people: the regressed child and the emergent adult. The emergent adult is seen at school, on the playing field, in his first job and in front of his friends' families. Unfortunately, his parents usually see only the regressed child: moody and defiant and if they're not on the lookout, they'll miss seeing the more agreeable, increasingly adult thinker in their midst. With ingenious strategies for coaxing the more attractive of the two teen personalities into the home, family psychologist Mike Riera gives new hope to beleaguered and harried parents. From moving from a managing to a consulting role in a teen's life, from working with a teen's uniquely exasperating sleep rhythms to having real conversations when only monosyllables have been previously possible, *Staying Connected to Your Teenager* demonstrates ways to bring out the best in a teen and consequently in an entire family. *A Colourful Presence* Maryam Ghorbankarimi, 2015-10-13. This book analyzes the changes in the representation of women in Iranian cinema since the 1960s and investigates the reasons and motives for this. Iranian cinema, both before and after the Islamic Revolution, has been closely monitored by the ruling power and has been utilized to relay messages and information that comply with the ruling ideology. However, it was only after the 1979 Revolution and the subsequent legitimization of cinema by the Islamic rule that cinema became widely accessible to the general public. Within this context, this book explores the changing roles of women in film production and their representation in films made between the 1960s and 2000s. Although some aspects of women's lives became stricter after the revolution, it was in the late 1980s that women took a prominent role both behind and in front of the camera for the first time. It is demonstrated here that such shifts were due to several factors, including factionalism within the Islamic Republic, shifts in the Iranian film industry, and the emergence of a group of highly educated film production teams in addition to the fuller integration of women into the film industry, which is analyzed in particular detail. This study explores a number of representative female-centric films with a focus on their cultural, social, and cinematic contexts. Discussing these films with respect to the representation of women, it uses textual analysis as its base methodology. Interviews conducted with filmmakers and people active in the industry also serve to place the films into their historical, social, and political context. **The Simple Guide to Having a Baby free chapter "Staying Healthy during Pregnancy"** Penny Simon, 2016-09-20.
