Shepherders Men Alone:

Shepherders Michael Mathers, 1986-10-01 **Shepherders** Michael Mathers, 1975 Basque Immigrants and Nevada's Sheep Industry Iker Saitua, 2019-03-20

Basque Immigrants and Nevada's Sheep Industry is a rich and complex exploration of the history of Basque immigration to the rangelands of Nevada and the interior West. It looks critically at the Basque shepherders in the American West and more broadly at the modern history of American foreign relations with Spain after the Second World War. Between the 1880s and the 1950s the western open range sheep industry was the original economic attraction for Basque immigrants. This engaging study tracks the development of the Basque presence in the American West, providing deep detail about the shepherders' history, native and local culture, the challenges they faced, and the changing conditions under which the Basques lived and worked. Saitua also shows how Basque immigrant shepherders went from being a marginalized labor group to a desirable, high-priced workforce in response to the constant demand for their labor power. As the twentieth century progressed, the geopolitical tide in America began to change. In 1924 the Restrictive Immigration Act resulted in a truncated labor supply from the Basque Country in Spain. During the Great Depression and the Second World War, the labor shortage became acute. In response, Senator Patrick McCarran from Nevada lobbied on behalf of his wool-growing constituency to open immigration doors for Basques, the most desirable laborers for tending sheep in remote places. Subsequently, Cold War international tensions offered opportunities for a reconciliation between the United States and Francisco Franco, despite Spain's previous sympathy with the Axis powers. This fresh portrayal shows how Basque immigrants became the backbone of the sheep industry in Nevada. It also contributes to a wider understanding of the significance of Basque immigration by exploring the role of Basque agricultural labor in the United States, the economic interests of Western ranchers, and McCarran's diplomacy as catalysts that eventually helped bring Spain into the orbit of western democracies.

The Woolly West Andrew Gulliford, 2018-06-13

Winner 2019 National Cowboy and Western Heritage Museum Western Heritage Award for the Best Nonfiction Book, Winner 2019 Colorado Book Awards History Category, sponsored by Colorado Center for the Book. In *The Woolly West*, historian Andrew Gulliford describes the sheep industry's place in the history of Colorado and the American West. Tales of cowboys and cattlemen dominate western history, and even more so in popular culture. But in the competition for grazing lands, the sheep industry was as integral to the history of the American West as any trail drive. With vivid, elegant, and reflective prose, Gulliford explores the origins of sheep grazing in the region, the often violent conflicts between the sheep and cattle industries, the creation of national forests, and ultimately the segmenting of grazing allotments with the passage of the Taylor Grazing Act of 1934. Deeper into the twentieth century, Gulliford grapples with the challenges of ecological change and the politics of immigrant labor. And in the present day, as the public lands of the West are increasingly used for recreation, conflicts between hikers and dogs guarding flocks are again putting the sheep industry on the defensive. Between each chapter, Gulliford weaves an account of his personal

interaction with what he calls the sheepscape that is the sheepherders landscape itself Here he visits with Peruvian immigrant herders and Mormon families who have grazed sheep for generations explores delicately balanced stone cairns assembled by shepherds now long gone and ponders the meaning of arboglyphs carved into unending aspen forests The Woolly West is the first book in decades devoted to the sheep industry and breaks new ground in the history of the Colorado Basque Greek and Hispano shepherding families whose ranching legacies continue to the present day Rural New Yorker, 1900
