 the aesthetic of wonder from the romantic period through contemporary philosophy and literature arguing for its relevance
 to ecological consciousness Most ecocritical scholarship tends to overshadow discussions of wonder with the sublime failing
 to treat these two aesthetic categories as distinct As a result contemporary scholarship has conflated wonder and the sublime
 and ultimately lost the nuances that these two concepts conjure for readers and thinkers Economides illuminates important
 differences between these aesthetics particularly their negotiation of issues relevant to gender based and environmental
 politics In turn readers can utilize the concept of wonder as an open ended non violent framework in contrast to the ethos of
