Employers' Associations in Asia John Beson,Ying Zhu,Howard Gospel,2017-06-26 Economic growth in Asia over the past half century has led to significant changes in societies business organization and the nature of work This has been accompanied by the rise in some countries of trade unions and also of employers associations This book explores the nature of employers associations in the major countries of Asia It considers how employers associations have developed in recent decades how changes in market structures and the profile of economies have affected employers associations how employers associations deal with issues to do with pay and employment conditions and how they interact with regulation and the state The book shows how the differing political and institutional contexts of different countries and different economic conditions greatly affect the nature of employers associations and also the wider context of labour markets and trade unions A *Concise History of Afghanistan-Central Asia and India in 25 Volumes* HAMID ALIKUZAI,2015-01-19 Thirteen years after the U S invasion of Afghanistan Thirteen years after the U S invasion of Afghanistan the gains that the international coalition has made with its local partners are real but reversible Afghanistan is no longer a global hub of terrorist activity but Taliban resurgence would threaten to make it one again Reconstruction assistance has produced demonstrable progress in health education and economic well being but corruption and governance problems have undermined popular support for the government in Kabul and constrained the overall level of progress Internationally a coalition still backs the International Security Assistance Force ISAF military mission However NATO s will is waning China Russia and India are largely free riders and Punjab and Iran publicly say the right things while destabilizing Afghanistan by privately meddling to their own ends Political and economic realities in the United States make the current level of American engagement in Afghanistan

unsustainable But as the commitment of coalition partners fades what Washington decides will shape the future of South Asia Looking ahead there are three different scenarios for American engagement in Afghanistan It remains to be seen exactly which route Washington will take But it is clear that U S interests require a long term commitment not only in Afghanistan but across the region Lest it be forgotten the consequences of ignoring the region in the 1990s were visited upon the United States on 9 11 So the most vital goals present day are defeating the remnants of al Qaeda in Punjab preventing the reemergence of terrorist sanctuaries in Afghanistan ensuring the security of Punjab s nuclear weapons and discouraging Punjab s use of extremism and terror as a policy instrument There are three ways forward Each entails a different degree of involvement and carries varying risks and rewards The first option is the riskiest Future 1 Immediate Departure and the Reallocation of Resources because discontent among the U S public over the war is already at an all time high
