Nationalism and Civil War in Burma Ashley South, 2003 *Foreign Intervention, Warfare and Civil Wars* Adam

Lockyer, 2017-09-01 This book examines the impact of foreign intervention in the course and nature of warfare in civil wars Throughout history foreign intervention in civil wars has been the rule rather than the exception The involvement of outside powers can have a dramatic impact on the course and nature of internal conflicts Despite this there has been little research which has sought to explain how foreign intervention influences the course of civil wars This book seeks to rectify this gap It examines the impact of foreign intervention on the warfare that characterises civil wars through by studying the cases of the Angolan and Afghan civil wars It investigates how foreign resources affect the military power of the recipient belligerent and examines how changes in the balance of capabilities influence the form of warfare that characterises a civil war Warfare in civil wars is often highly fluid with belligerents adapting their respective strategies in response to shifts in the balance of military capabilities This book shows how the intervention of foreign powers can manipulate the balance of capabilities between the civil war belligerents and change the dominant form of warfare The findings presented in this book offer key insights for policy makers to navigate the increasing internationalization of civil wars around the globe This book will be of much interest to students of civil wars intra state conflict war and conflict studies and security studies **The "other"**

Karen in Myanmar Ardeth Maung Thawnghmung, 2012-01-01 *The Other Karen in Myanmar* looks at the other or quiet minorities who are members of ethnic groups associated with well known armed resistance organizations but who pursued non violent approaches to promote their individual and collective interests This is the first in depth study to uncover the existence and activities of the other Karen and analyze the nature of relationships with their rebel counterparts and the state authorities It also discusses other ethnic armed organizations that have experienced similar situations and assesses their implications for inter ethnic relations negotiations with state authorities and political reform Most previous studies have focused on violent aspects of ethnic relations and on ethnic armed organizations such as the Karen National Union KNU in Burma the Moro Islamic Liberation Front MNLF in the Philippines and the LTTE in Sri Lanka However even among these minorities which are locked in armed conflicts the majority of people have shunned armed resistance and sought to remain quietly beyond the struggle and pursued non violent approaches to promote their individual and collective interests in the

face of authoritarian governments This study which sheds light on the lives and growing political significance of non armed non insurgent members of ethnic minorities in Burma draws heavily on opinion surveys and open ended interviews among Karen diaspora among individuals who lived a minimum of 20 years in Burma quiet Karens who live inside Burma KNU officials personnel and soldiers and Karen refugees and IDPs who are currently living in Thai Burma border areas These interviews which covered approximately two hundred respondents have been conducted since 2002 It is mainly directed toward social scientists historians humanitarian workers policy makers and practitioners and non specialist ordinary audience who are interested in Southeast Asian Burmese politics and society comparative politics identity politics ethnic conflict social movements conflict resolution and political reform *Cities in Motion* Su Lin Lewis,2016-07-19 A social history of cosmopolitanism in Southeast Asia s ethnically diverse port cities seen within the global context of the interwar era State and Society in Modern Rangoon Donald M. Seekins,2014-06-17 Rangoon a city of many identities has since colonial times been a focus of conflict between the vertical power of the colonial military run state and the horizontal power and coping strategies of its residents **Language and National Identity in Asia** Andrew Simpson,2007-08-30 Language and National Identity in Asia is a comprehensive introduction to the role of language in the construction and development of nations and national identities in Asia Leading scholars from all over the world investigate the role languages have played and now play in the formation of the national and social identity in countries throughout South East and Southeast Asia They consider the relation of the regions languages to national ethnic and cultural identity and examine the status of and interactions between majority official and minority languages Illustrated with maps and accessibly written this book will interest all those concerned to understand the dynamics of social change in some of the most important countries in the world It will appeal to all those studying researching or teaching issues in Asian society language and politics from a comparative perspective **Ruling Myanmar** Nick Cheesman,Monique Skidmore,Trevor Wilson,2010 November 2010 sees the first elections in Myanmar Burma since 1990 to be held as the culmination of the military regime s Road Map for Democracy The conditions under which the elections are being held are far from favourable although the laws and procedures under which they will be conducted have been in place for seven months and quite widely publicized Political controls remain repressive freedom of expression and assembly does not exist and international access is restricted by government controls as well as sanctions While the elections represent a turning point for Myanmar Burma the lead up period has not been marked by many notable improvements in the way the country is governed or in the reforming impact of international assistance programmes Presenters at the Australian National University 2009 Myanmar Burma Update conference examined these questions and more Leading experts from the United States Japan France and Australia as well as from Myanmar Burma have contributed to this collection of papers from the Conference **Law, Society and Transition in Myanmar** Melissa Crouch,Tim Lindsey,2014-10-23 This edited volume addresses the dynamics of the legal system of

Myanmar Burma in the context of the dramatic but incomplete transition to democracy that formally began in 2011 It includes contributions from leading scholars in the field on a range of key legal issues now facing Myanmar such as judicial independence constitutional law human rights and institutional reform It features chapters on the legal history of Myanmar electoral reform the role of the judiciary economic reforms and the state of company law It also includes chapters that draw on the experiences of other countries to contextualise Myanmar's transition to democracy in a comparative setting including Myanmar's participation in regional bodies such as ASEAN This topical book comes at a critical juncture in Myanmar's legal development and will be an invaluable resource for students and teachers seeking greater understanding of the legal system of Myanmar It will also be vital reading for a wide range of government business and civil society organisations seeking to re-engage with Myanmar as it navigates a difficult transition toward democracy and the rule of law Citizenship in Myanmar Ashley South, 2018-05-24 Myanmar is going through a period of profound and contested transition The country has experienced widespread if sometimes uneven reforms including the start of a peace process between the government and Myanmar Army and some two dozen ethnic armed organizations which had long been fighting for greater autonomy from the militarized and Burman dominated state This book brings together chapters by Burmese and foreign experts and contributions from community and political leaders who discuss the meaning of citizenship in Myanmar Burma The book explores citizenship in relation to three broad categories issues of identity and conflict debates around concepts and practices of citizenship and inter and intra community issues including Buddhist Muslim relations This is the first volume to address these issues understanding and resolving which will be central to Myanmar's continued transition away from violence and authoritarianism **Myanmar's Mountain and Maritime Borderscapes** Su-Ann Oh, 2016-08-16 This edited volume adds to the literature on Myanmar and its borders by drawing attention to the significance of geography history politics and society in the construction of the border regions and the country First it alerts us to the fact that the border regions are situated in the mountainous and maritime domains of the country highlighting the commonalities that arise from shared geography Second the book foregrounds socio-spatial practices and economic intimate spiritual virtuals of border and boundary making in their local context This demonstrates how state-defined notions of territory borders and identity are enacted or challenged Third despite sharing common features Myanmar's borderscapes also possess unique configurations of ethnic political and economic attributes producing social formations and figured worlds that are more cohesive or militant in some border areas than in others Understanding and comparing these social practices and their corresponding life worlds allows us to re-examine the connections from the borderlands back to the hinterland and to consider the value of border and boundary studies in problematizing and conceptualizing recent changes in Myanmar Native Peoples of the World Steven L. Danver, 2015-03-10 This work examines the world's indigenous peoples their cultures the countries in which they reside and the issues that impact these groups **General Ne Win's Legacy of Burmanization in Myanmar** Saw Eh Htoo, Tony

Waters,2024-05-15 This book focuses on how Burmanization created and reinforced ethnic divides since the 1962 coup d etat when General Ne Win concentrated all authority in the Burmese speaking army Background research for the book includes Burmese language materials from the Burmese Socialist Party BSP and others that describe with what the BSP believed in their own terms This is unique from previous works on the topic which either simply pointed out that the policies didn t work and therefore are uninteresting or to claim that they were necessary given the chaos of the previous regime The authors agree that Ne Win s policies didn t work However the book goes further by elaborating why Burmanization policies developed in the 1960s are important for understanding Burmese society today Most importantly Ne Win s ideology reflects how patterns of interethnic relationships in Myanmar lead to the intractability of the battles in early twenty first century Myanmar

Myanmar's Education Reforms Marie Lall,2020-11-02 This book reviews the state of education in Myanmar over the past decade and a half as the country is undergoing profound albeit incomplete transformation Set within the context of Myanmar s peace process and the wider reforms since 2012 Marie Lall s analysis of education policy and practice serves as a case study on how the reform programme has evolved Drawing on over 15 years of field research carried out across Myanmar the book offers a cohesive inquiry into government and non government education sectors the reform process and how the transition has played out across schools universities and wider society It casts scrutiny on changes in basic education the alternative monastic education higher education and teacher education and engages with issues of ethnic education and the debate on the role of language and the local curriculum as part of the peace process In so doing it gives voice to those most affected by the changing landscape of Myanmar s education and wider reform process the students and parents of all ethnic backgrounds teachers teacher trainees and university staff that are rarely heard

Burma (Myanmar): The Time for Change Martin Smith,2002-07-17 Let us unite and work together These words were spoken by the independence hero Aung San at the 1947 conference where the ethnic principles of the future Union of Burma were agreed Within six months Aung San and most of his cabinet had been assassinated Following independence from Great Britain in 1948 a pattern of conflict and state failure was established that has lasted to the present day A country of abundant natural resources and human potential at independence by the late 1980s Burma Myanmar had declined to Least Developed Country status However as this report goes to press there is a small chance that Burma and its peoples may be turning towards peace after decades of conflict The author Martin Smith describes the pre colonial and colonial roots of the conflicts that have dominated Burma in the second half of the twentieth century and the attempts to resolve them at independence He discusses the periods of parliamentary democracy military socialist and transitional military rule In a section on the peoples of Burma he gives an overview of the main ethnic minority groups Chin Chinese Indians Kachin Karen Karenni Mon Naga Rakhine and Shan From the 1990s Burma has begun to open up to humanitarian agencies the report describes how these projects have so far produced understanding of the needs of the country rather than delivering decisive progress Major human rights issues

are also discussed extrajudicial killings displacement of populations forced labour illegal use of landmines and child soldiers The position of women and restrictions on freedom of expression of minority cultures and the challenges posed by HIV AIDS and the trade in narcotics are also covered This timely report gives a concise picture of the major conflicts in Burma during the last century and the issues it faces in this one at a crucial moment in its history Memories of Burmese Rohingya Refugees Kazi Fahmida Farzana,2017-08-24 This book provides a critical analysis of the Rohingya refugees identity building processes and how this is closely linked to the state building process of Myanmar as well as issues of marginalization statelessness forced migration exile life and resistance of an ethnic minority With a focus on the ethnic minority s life at the Myanmar Bangladesh border the author demonstrates how the state itself is involved in the construction of identity which it manipulates for its own political purposes The study is based on original research largely drawn from fieldwork data It presents an alternative and endogenous interpretation of the problem in contrast to the exogenous narrative espoused by state institutions non governmental organizations and the media Rebel Politics David Brenner,2019-10-15 Rebel Politics analyzes the changing dynamics of the civil war in Myanmar one of the most entrenched armed conflicts in the world Since 2011 a national peace process has gone hand in hand with escalating ethnic conflict The Karen National Union KNU previously known for its uncompromising stance against the central government of Myanmar became a leader in the peace process after it signed a ceasefire in 2012 Meanwhile the Kachin Independence Organization KIO returned to the trenches in 2011 after its own seventeen year long ceasefire broke down To understand these puzzling changes Brenner conducted ethnographic fieldwork among the KNU and KIO analyzing the relations between rebel leaders their rank and file and local communities in the context of wider political and geopolitical transformations Drawing on Political Sociology Rebel Politics explains how revolutionary elites capture and lose legitimacy within their own movements and how these internal contestations drive the strategies of rebellion in unforeseen ways Brenner presents a novel perspective that contributes to our understanding of contemporary politics in Southeast Asia and to the study of conflict peace and security by highlighting the hidden social dynamics and everyday practices of political violence ethnic conflict rebel governance and borderland politics Winning by Process Jacques Bertrand,Alexandre Pelletier,Ardeth Maung Thawngmung,2022-08-15 Winning by Process asks why the peace process stalled in the decade from 2011 to 2021 despite a liberalizing regime a national ceasefire agreement and a multilateral peace dialogue between the state and ethnic minorities Winning by Process argues that stalled conflicts are more than pauses or stalemates Winning by process as opposed to winning by war or agreement represents the state s ability to gain advantage by manipulating the rules of negotiation bargaining process and sites of power and resources In Myanmar five such strategies allowed the state to gain through process locking in sequencing layering outflanking and outgunning The Myanmar case shows how process can shift the balance of power in negotiations intended to bring an end to civil war During the last decade the Myanmar state and military controlled the process neutralized ethnic minority groups

and continued to impose their vision of a centralized state even as they appeared to support federalism *The Golden Land Ablaze* Bertil Lintner, 2024-09-26 Myanmar's generals didn't expect the nation to rise up against the coup they staged in February 2021. But after decades of stifling direct military rule the Burmese people had become used to another way of life during the relative openness of 2011-21. The army has been unable to suppress anti-coup protests as it did in 1962 and 1988 and three years after sending tanks into Yangon, Naypyitaw and other cities the army has yet to establish a functioning administration. For the first time since the 1970s armed resistance is not confined to traditionally strife-torn frontier areas where ethnic insurgents like the Karen National Union and Kachin Independence Army have been active for decades; it has spread to the majority Burmese heartland in the shape of the People's Defence Forces. But the anti-junta forces are insufficiently well equipped to defeat the much more heavily armed Myanmar army which itself is stretched too thin on several fronts to crush the resistance. And despite foreign observers' assurances there is no unity, common command or synchronised strategy among the various ethnic minority and ethnic Burmese resistance groups. This is a war that neither side can win. Caught in the middle and bound to suffer most are civilians.
