George Zebrowski, author of the best-selling novel *OMEGA POINT*, is a unique and creative talent whose thoughtful and entertaining works have generated great critical praise and gained him a devoted following of readers.

One of these fans is Thomas N. Scortis, who writes in the introduction to this volume: "I have watched George Zebrowski's body of work grow for five years. The distance he has travelled in half a decade is impressive. The rate at which his talent is growing makes me impatient to see the product of his talent twenty years from now.... I have watched Zebrowski grow artistically to become one of the leaders of the new generation of science fiction writers...."

Monadic Universe:

The Monadic Universe George Zebrowski, 1985 A visionary imaginative collection of science fiction tales about alien encounters far reaching journeys of discovery and human struggles for survival in an alien universe Hyperculture Byung-Chul Han, 2022-01-10 In the wake of globalization cultural forms of expression have become increasingly detached from their places of origin circulating in a hyper domain of culture where there is no real difference anymore between indigenous and foreign near and far the familiar and the exotic Heterogeneous cultural contents are brought together side by side like the fusion food that makes free use of all that the hypercultural pool of spices ingredients and ways of preparing food has to offer Culture is becoming un bound un restricted un ravelled a hyperculture It is a profoundly rhizomatic culture of intense hybridization fusion and co appropriation Today we have all become hypercultural tourists even in our own culture to which we do not even belong anymore Hypercultural tourists travel in the hyperspace of events a space of cultural sightseeing They experience culture as cul tour Drawing on thinkers from Hegel and Heidegger to Bauman and Homi Bhabha to examine the characteristics of our contemporary hyperculture Han poses the question should we welcome the human of the future as the hypercultural tourist smiling serenely or should we aspire to a different way of being in the world A Theory of Monads Herbert Wildon Carr, 1922 The Monad Manifesto Dennis William Hauck, 2022-03-08 The Monad is the indivisible single source of consciousness and information that created our universe In philosophy the Monad is the origin of all things the totality of both our present existence and all possible future incarnations For theologians it is the Word of God that created the world In mathematics the Monad is the archetypal origin of all the numbers and geometric shapes that describe Nature Computer scientists view it as the cosmic code embedded in the matrix of reality In science the Monad is the Singularity the Big Bang explosion of light and consciousness from which our universe sprung forth In *The Monad Manifesto* we explore the mysterious monadic origin of the universe and its relationship to the field of conscious awareness that we all share The book is organized into a central Manifesto and ancillary chapters that expand and document the ideas presented These chapters include The Monad in Philosophy The Monad in Science The Monad in Mathematics and Monad Cosmology We will also explore the ways people experience monadic reality in the chapter Monadic Experiences Then we will learn methods of meditation developed down through the ages to connect to the Source in *Monad Meditations* *The Lacanian Left* Yannis Stavrakakis, 2007-08-09 In recent years psychoanalysis especially Lacanian theory has been gradually acknowledged as a vital resource in the ongoing reorientation of contemporary political theory and analysis Of particular note is that the work of Jacques Lacan is increasingly being used by major political philosophers associated with the Left This indicates the dynamic emergence of a new theoretico political horizon that of the Lacanian Left However this field has yet to be properly conceived as a field and this is the first book to bring it into academic consciousness and to systematically draw its implications for concrete political analysis This book offers an accessible mapping of its main contours a detailed

examination of the convergences and divergences between the major figures active within or at the periphery of this terrain including Slavoj i ek Ernesto Laclau Alain Badiou and Cornelius Castoriadis and a critical evaluation of their respective arguments on social construction and the political affectivity and discourse ethics and social change and negativity and positivity Engaging with the role of affect and emotion in political life through the central Lacanian notion of enjoyment The Lacanian Left puts forward innovative analyses of political power and authority nationalism European identity consumerism and advertising culture and de democratization and post democracy It will be of value to everyone interested in exploring the potential of psychoanalysis in reinvigorating political theory critical political analysis and democratic politics

HyperHumanity Mike Hockney,2013-07-28 Humanity is a single biological species but has split into two different mental species labelled Mythos and Logos The Mythos species is driven by emotional stories not by facts evidence or rational arguments Even scientific materialism is a Mythos the sensory Mythos which asserts that rational unobservables undetectable by the senses simply cannot exist The Enlightenment the Age of Reason was when Logos humanity came to the fore HyperHumanity is the upgrade of Logos humanity that advocates Hyperrationalism Old Humanity stuck in its irrational Mythos past will become extinct The future is about the new human race HyperHumanity Do you belong to the Illuminated Ones the Shining Ones the Divine Ones or are you on your knees to some story book God an irrational market or irrational devotion to your physical senses HyperHumanity is not here to help Old Humanity It is here to replace it We are the true human race that which seeks to claim its rightful prize divinity

Take Hyperianism to the Morgue: Book II The Illuminist Army,2023-02-18 When a cult gives out red flags everywhere then all decent moral people have an absolute duty a categorical imperative to blow the whistle and protect others People should have blown the whistle on influencer Andrew Tate long ago and now it s even more essential to blow the whistle on people such as Morgue the leader of the modern cult of Hyperianism and all the rest of the cult predators who are preying on na ve people those easy to manipulate and fleece This Hyperian cult is the epitome of cancel culture It actively tries to cancel anyone who says anything against it Absolutely no one is allowed to get away with criticizing it even though the cult leader hilariously claims that he will answer any question

well except any question he doesn't like and that's nearly all of them The cult's attack dogs will be out for sure regarding this book We know what's coming We've been through it all before This is a book featuring the direct victims of this dangerous Hyperian cult and its predatory leader Morgue Three people were criminally swatted by the leadership of this cult And that's just the tip of the iceberg Come inside and find out all about what the leader of this cult and his chief accomplices get up to Hear those affected in their own words uncensored This book will be of enormous value to anyone including academic researchers dealing with a modern online cult There are many cults out there just like Hyperianism with dark triad leaders just like Morgue Society needs to do something about it The influencer industry resembles the Wild West It's completely unregulated and is doing extraordinary damage to some of the feeblest most impressionable and suggestible people in society They are sitting ducks for online predators looking for a fast buck and adulation Buffy a former member of this cult added this alarming comment about Morgue He has ways of punishing people they verbally punish you until you feel at your lowest He gets the other admin to do it he never does it Watch out *Morality within the Life- and Social World*
