The Emperor's Four Treasuries R. Kent Guy,2020-03-17

The compilation of the Complete Library of the Four Treasuries Ssu k u ch an shu was one of the most ambitious intellectual projects of the Ching dynasty Initiated by imperial command in 1772 the project sought to evaluate edit and reproduce the finest Chinese writings in the four traditional categories Confucian classics histories philosophy and belles lettres The final products created over a twenty two year period were an annotated catalog of some ten thousand titles and seven new manuscript libraries of nearly thirty six hundred titles The project had its darker side as well for together with the evaluation of books there developed a campaign of censorship and proscription Guy s study gives a balanced account of the project and its significance Dozens of celebrated Chinese scholars willingly participated in the project though it was sponsored by the Manchu emperor and Guy explains their reasons for doing so He also reconsiders the issue of censorship arguing that it grew as much from tensions and jealousies within the intellectual elite as from imperial command Guy s work will be useful to all those interested in the relationship between intellectuals and the state in late imperial China

Civil Examinations

and Meritocracy in Late Imperial China Benjamin A. Elman,2013-11-01

During China s late imperial period roughly 1400 1900 CE men gathered by the millions every two or three years outside official examination compounds sprinkled across China Only one percent of candidates would complete the academic regimen that would earn them a post in the administrative bureaucracy Civil Examinations assesses the role of education examination and China s civil service in fostering the world s first professional class based on demonstrated knowledge and skill Civil examinations were instituted in China in the seventh century CE but in the Ming and Qing eras they were at the center of a complex social web that held together the intellectual political and economic life of imperial China Local elites and the court sought to influence how the government regulated the classical curriculum and selected civil officials As a guarantor of educational merit examinations tied the dynasty to the privileged gentry and literati classes both ideologically and institutionally China eliminated its

classical examination system in 1905 But this carefully balanced constantly contested piece of social engineering worked out over centuries was an early harbinger of the meritocratic regime of college boards and other entrance exams that undergirds higher education in much of the world today

The Inner Opium War James M. Polachek, 2020-05-11 Why did defeat in the Opium War not lead China to a more realistic appreciation of Western might and Chinese weakness James Polachek's revisionist analysis exposes the behind the scenes political struggles that not only shaped foreign policy decisions in the 1830s and 1840s but have continued to affect the history of Chinese nationalism in modern times Polachek looks closely at the networks of literati and officials self consciously reminiscent of the late Ming era that sought and gained the ear of the emperor Challenging the conventional view that Lin Tse hsu and his supporters were selfless patriots who acted in China's best interests Polachek argues that for reasons having more to do with their own domestic political agenda these men advocated a futile policy of militant resistance to the West Linking political intrigue scholarly debates and foreign affairs local notables in Canton and literati lobbyists in Peking this book sets the Opium War for the first times in its inner domestic political context

A Cultural History of Civil Examinations in Late Imperial China Benjamin A. Elman, 2000-03-22 A very important study of one of the most important institutions in Chinese history one without which the China we have today would certainly be a vastly different place Peter Bol author of *This Culture of Ours Intellectual Transitions in Tang and Sung China*

Empire of Emptiness Patricia Ann Berger, 2003-01-01 It examines some of the Buddhist underpinning of the Qing view of rulership and shows just how central images were in the carefully reasoned rhetoric the court directed toward its Buddhist allies in inner Asia The multi lingual culturally fluid Qing emperors put an extraordinary range of visual styles into practice Chinese Tibetan Nepalese and even the European Baroque brought to the court by Jesuit artists

Imperial China, 1350-1900 Jonathan Porter, 2016-02-04 This clear and engaging book provides a concise overview of the Ming Qing epoch 1368 1912 China's last imperial age Beginning with the end of the Mongol domination of China in 1368 this five century period was remarkable for its continuity and stability until its downfall in the Revolution of 1911 Viewing the Ming and Qing dynasties as a coherent era characterized by the fruition of diverse developments from earliest times Jonathan Porter traces the growth of imperial autocracy the role of the educated Confucian elite as custodians of cultural authority the significance of ritual as the grounding of political and social order the tension between monarchy and bureaucracy in political discourse the evolution of Chinese cultural identity and the perception of the barbarian and other views of the world beyond China As the climax of traditional Chinese history and the harbinger of modern China in the twentieth century Porter argues that imperial China must be explored for its own sake as well as for the essential foundation it provides in understanding contemporary China and indeed world history writ large

Dynasties Jeroen Duindam, 2016 A vibrant and broad ranging study of dynastic power in the late medieval and early modern world

Orthodox Passions Maram Epstein, 2021-02-01 In this groundbreaking interdisciplinary study Maram Epstein identifies filial piety as the dominant expression of love in Qing

dynasty texts At a time when Manchu regulations made chastity the primary metaphor for obedience and social duty filial discourse increasingly embraced the dramatic and passionate excesses associated with late Ming chastity narratives Qing texts especially those from the Jiangnan region celebrate modes of filial piety that conflicted with the interests of the patriarchal family and the state Analyzing filial narratives from a wide range of primary texts including local gazetteers autobiographical and biographical nianpu records and fiction Epstein shows the diversity of acts constituting exemplary filial piety This context Orthodox Passions argues enables a radical rereading of the great novel of manners The Story of the Stone ca 1760 whose absence of filial affections and themes make it an outlier in the eighteenth century sentimental landscape By decentering romantic feeling as the dominant expression of love during the High Qing Orthodox Passions calls for a new understanding of the affective landscape of late imperial China The Cambridge History of China Denis Crispin Twitchett, John King Fairbank, 1978 International scholars and sinologists discuss culture economic growth social change political processes and foreign influences in China since the earliest pre dynastic period **Monarchs and Ministers** Beatrice S. Fall of Imperial China Frederic Wakeman, 1977 From Simon Schuster The Fall of Imperial China is Frederic Wakeman Jr's exploration of Imperial China both its astronomic rise and steep decline From the Introduction Historians of modern China are used to contrasting the dizzying changes in post renaissance Europe with the glacial creep of Confucian civilization The West's global expansion to new vistas of discovery thus distorts our perspective of those older worlds that resisted European conquest The most tenacious of these ancient civilizations was the Chinese empire **A Paradise Lost** Young-tsu Wong, 2000-12-01 Noted for its magnificent architecture and extraordinary history the Yuanming Yuan is China's most famous imperial garden The complex was begun in the early eighteenth century and construction continued over the next 150 years While Chinese historians and many Chinese in general view the garden as the paramount achievement of Chinese architecture and landscape design almost nothing is known about the Yuanming Yuan in the West A Paradise Lost is the first comprehensive study of the palatial garden complex in a Western language Written in a broad and engaging style Young tsu Wong brings the garden of perfect brightness to life as he leads readers on a grand tour of its architecture and history Wong begins by inspecting the garden's physical appearance and its architectural elements He discusses the origin and evolution of these structures and the aesthetics of their design and arrangement Throughout he refers to maps and original models of individual buildings and other existing gardens of the Ming Qing period including the well preserved Yihe Yuan and the Chengde Summer Mountain Retreat in Rehe A special feature of the book is its exploration of the activities and daily life of

the royal household **The Citizen and the Chinese State** Perry Keller, 2017-03-02 This volume addresses several core questions regarding the nature of law in China and its future development In particular these articles shed light on whether the rule of law ideal is commensurable with government based on the Chinese Communist Party Beginning virtually from scratch China has established a comprehensive legal system that boasts a constitution primary and secondary legislation and plentiful regulations covering most areas of public and private life Yet as these articles discuss its courts are enmeshed in Party and state hierarchies and are not empowered to directly apply constitutional principles or rights ensuring that the law is subordinate to national public policy goals Legal and extra legal methods for punishing wrongdoing and resolving disputes also raise questions of due process of law Ultimately the question is therefore whether China's legal system if eschewing formalised human rights is developing a capacity to protect fundamental human dignity The Oxford History of Historical Writing José Rabasa, Masayuki Sato, Edoardo Tortarolo, Daniel Woolf, 2012-03-29 Volume III of The Oxford History of Historical Writing contains essays by leading scholars on the writing of history globally during the early modern era from 1400 to 1800 The volume proceeds in geographic order from east to west beginning in Asia and ending in the Americas It aims at once to provide a selective but authoritative survey of the field and where opportunity allows to provoke cross cultural comparisons This is the third of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world Prince, Pen, and Sword: Eurasian Perspectives Maaïke van Berkel, Jeroen Duindam, 2018-01-22 Prince Pen and Sword offers a synoptic interpretation of rulers and elites in Eurasia from the fourteenth to the eighteenth century Four core chapters zoom in on the tensions and connections at court on the nexus between rulers and religious authority on the status function and self perceptions of military and administrative elites respectively Two additional concise chapters provide a focused analysis of the construction of specific dynasties the Golden Horde and the Habsburgs and narratives of kingship found in fiction throughout Eurasia The contributors and editors authorities in their fields systematically bring together specialised literature on numerous Eurasian kingdoms and empires This book is a careful and thought provoking experiment in the global comparative and connected history of rulers and elites
