

The background of the book cover is a painting of a cloister walk. It shows a perspective view down a brick-paved path between stone walls. On the left, there are wooden railings. A large, dark tree trunk is on the left side. In the distance, a figure in a brown robe is walking away. The lighting is warm and golden, suggesting late afternoon or early morning.

Thurston,2016-02-09 Fairacres Publications 174 From its beginnings the monastic life has presented a counter cultural way of living a contemplative search for God dependent on simplicity of life at odds with society s latest fashions Monastic community life where the members are formed in love of God and of each other is a distinct challenge to idolatry and injustice reminiscent of the prophets of old Bonnie Thurston reflects on how the contemplative and prophetic voices of monasticism are expressed in the current context of twenty first century living

Western Monastic Spirituality Roger Haight,Alfred Pach,Amanda Avila Kaminski,2022-06-07 Western Monastic Spirituality presents three authors as individuals certainly but also as textual informants who like road markers represent a line of the development of a Western monastic spiritual tradition John Cassian ca 360 435 helped bring the wisdom of northern Egyptian ascetical life of the late fourth century to southern France in the early fifth century Caesarius of Arles 468 470 542 drawing on his own monastic experience and Augustine s monastic rule composed a rule for a women s monastery in the city of Arles Not many years later Benedict wrote the most influential rule in Western monasticism one that still regulates the lives of monks today all over the world These three texts when looked at serially and together offer a theology of monastic spirituality an example of a relatively short but comprehensive early monastic rule and a present day Benedictine interpretation of how Benedict s monastic spirituality can be summed up in a short present day digest of his rule Reflection on early Western monasticism retrieves some basic Christian spiritual values that should inform life today outside the

fourth century And yet it is new because it is rooted in a place in the soul that never grows old Come and see where I live Jesus said to the disciples who were following him He could just as well have said come and see where you live where your real life is being lived Monastic spirituality is not some esoteric or Gnostic way of perceiving reality or understanding life It is a treasure hidden in the field of your own heart it is a universal spirituality that is the common inheritance of every human being it is a search for God From the atheist to the saint there is in the heart of all creatures a desire for ultimate meaning a desire for God In this sense everyone has the heart of a monk As you read this book you will meet some of the great themes of monastic life silence solitude community life prayer You will also be helped to find your most authentic self the self Thomas Merton spoke of when he said at the center of our being is a point of nothingness a point of pure truth Nothingness emptiness absence are important aspects of our spiritual journey There is a subtheme running through ancient monasticism that conceives of the monastery as a hospital a place for healing the soul the spirit the heart The place of the heart is highlighted in these conferences and homilies as an ancient theme so relevant to the modern person     *Dom Anselme Le Bail* Dieudonne Dufrasne,2010-04-01 Those who knew him above all monks will find Dom Anselme Le Bail again in these pages with warm gratitude Those who have not known him will encounter his vital and original character Both of these will be surprised and come to admire a man and a monk who has integrated a healthy humanism into a concrete ideal of his religious vocation
