Monde De Felix:

Félix Guattari Gary Genosko, 2009-04-20 This is an introduction to the thought of the radical French thinker Félix Guattari. Guattari's main works were published in the 1970s and 1980s. His background was in psychoanalysis; he was trained by Lacan and he practised as a psychoanalyst for much of his life. He developed a distinctive psychoanalytic method informed always by his revolutionary politics. Guattari was actively involved in numerous political movements from Trotskyism to Autonomism, tackling ecological and sexual politics along the way. A true believer in collectivity, much of his work was written in collaboration, most famously with Gilles Deleuze. This is also an introduction to key concepts such as schizoanalysis, transversality, a signifying semiotics, and various kinds of machine. [The Child in French and Francophone Literature](#)

Guattari Beyond Deleuze Carlos A. Segovia, 2024-11-08 This book argues that by virtue of his original and ongoing contribution to ontology and modal philosophy from the texts gathered in *Psychanalysis and Transversality* to the unpublished manuscript notes for *What Is Philosophy?* Guattari is to be acknowledged a philosopher in his own right, independently from Deleuze. Furthermore, it looks back and forth beyond *Anti-Oedipus* and contends that Guattari's major writings gradually supplement deterritorialization with determinability. Accordingly, it offers a new interpretation of the nuanced development of Guattari's philosophical thought which it proposes to define as constructivist rather than post-structuralist. Additionally, it explores the innovative responses that Guattari's philosophy supplies to various contemporary philosophical debates like those on accelerationism, indeterminacy, compossibility, and worlding. Finally, it examines the differences that upon a careful cross-reading of their earliest texts, including *The Anti-Oedipus Papers* and *Difference and Repetition*, must be drawn between Guattari's constructivism and Deleuze's sacrificial philosophy. *Felix Guattari* Gary Genosko, 2002-08-01 This is the first detailed assessment of the life and work of Félix Guattari. Mr. Anti, as the French press labelled him, the friend of and collaborator with Gilles Deleuze, Jacques Lacan, and Antonio Negri, and one of the 20th Century's last great activist intellectuals, Guattari is widely known for his celebrated writings with Deleuze, but these writings do not represent the true breadth and impact of his thinking, writing, and activism. Guattari's major work as a clinical and theoretical innovator in psychoanalysis was closely linked to his participation in struggles against European right-wing

politics Felix Guattari introduces the reader to the diversity and sheer range of Guattari's interests from anti psychiatry to Japanese culture political activism and his theorizing of subjectification Highlighting why Guattari's work is of increasing relevance to contemporary political psychoanalytical and philosophical thought Felix Guattari An Aberrant Introduction presents the reader with an adventurous and provocative introduction to this radical thinker **Dictionnaire**
