Monet Et Ses Amis:

Manet and the Family Romance Nancy Locke, 2001 douard Manet s paintings have long been recognized for being visually compelling and uniquely recalcitrant While critics have noted the presence of family members and intimates in paintings such as *Le D jeuner sur l herbe* Nancy Locke takes an unprecedented look at the significance of the artist s family relationships for his art Locke argues that a kind of mythology of the family or Freudian family romance frequently structures Manet s compositional decisions and choice of models By looking at the representation of the family as a volatile mechanism for the development of sexuality and of repression conflict and desire Locke brings powerful new interpretations to some of Manet s most complex works Locke considers for example the impact of a father son drama rooted in a closely guarded family secret the adultery of Manet p re and the status of L on Leenhoff Her nuanced exploration of the implications of this story that Manet in fact married his father s mistress makes us look afresh at even well known paintings such as *Olympia* This book sheds new light on Manet s infamous interest in gypsies street musicians and itinerants as Locke analyzes the activities of Manet s father as a civil judge She also reexamines the close friendship between Manet and the Impressionist painter Berthe Morisot who married Manet s brother Morisot becomes the subject of a series of meditations on the elusiveness of the self the transience of identity and conflicting concerns with appearances and respectability Manet and the Family Romance offers an entirely new set of arguments about the cultural forces that shaped these alluring paintings

Color in the Age of Impressionism Laura Anne Kalba,2017-04-21 This study analyzes the impact of color making technologies on the visual culture of nineteenth century

France from the early commercialization of synthetic dyes to the Lumi re brothers perfection of the autochrome color photography process Focusing on Impressionist art Laura Anne Kalba examines the importance of dyes produced in the second half of the nineteenth century to the vision of artists such as Edgar Degas Pierre Auguste Renoir and Claude Monet The proliferation of vibrant new colors in France during this time challenged popular understandings of realism abstraction and fantasy in the realms of fine art and popular culture More than simply adding a touch of spectacle to everyday life Kalba shows these bright varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color Impressionism emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification mirrored and mediated this change shaping the ways in which people made sense of both modern life and modern art Demonstrating the central importance of color history and technologies to the study of visibility Color in the Age of Impressionism adds a dynamic new layer to our understanding of visual and material culture

Conservative Echoes in Fin-de-Si_cle Parisian Art Criticism Michael Marlais,2010-11-01 While the painting of the 1880s and 1890s in Paris has been studied in great depth the concurrent art criticism has not been given the attention it deserves Conservative Echoes examines previously unexplored aspects of the symbolist criticism of art revealing its conservative nature and thus providing a new view of the art criticism of one of the most significant periods in the development of modern art Art historians tend to focus on a small body of criticism written by authors who championed one or more of the artists recognized today as leaders of the avant garde In essence it is the art that directs most studies of criticism rather than the criticism itself Michael Marlais has studied late nineteenth century criticism on all levels from popular press to esoteric review in order to understand the context in which avant garde art criticism appeared He focuses on the critics F lix F n on Albert Aurier Alphonse Germain Camille Mauclair and Maurice Denis noting both conservative and modernist features of their writing while attempting to situate them within the antinaturalist intellectual trends of the period Marlais emphasizes the relationship of avant garde critics to the broader cultural milieu thus providing both a valuable corrective in the study of fin de si_cle art history and another way of understanding the cultural climate in Paris during that time

Fellow Men Bridget Alsdorf,2022-07-12 Focusing on the art of Henri Fantin Latour 1836 1904 and his colleagues Gustave Courbet Edgar Degas Edouard Manet Fr d ric Bazille and Pierre Auguste Renoir Fellow Men argues for the importance of the group as a defining subject of nineteenth century French painting Through close readings of some of the most ambitious paintings of the realist and impressionist generation Bridget Alsdorf offers new insights into how French painters understood the shifting boundaries of their social world and reveals the fragile masculine bonds that made up the avant garde A dedicated realist who veered between extremes of sociability and hermetic isolation Fantin Latour painted group dynamics over the course of two decades from 1864 to 1885 This was a period of dramatic change in French history and art events like the Paris Commune and the rise and fall of impressionism

raised serious doubts about the power of collectivism in art and life Fantin Latour's monumental group portraits and related works by his friends and colleagues from the 1850s through the 1880s represent varied visions of collective identity and test the limits of association as both a social and an artistic pursuit By examining the bonds and frictions that animated their social circles Fantin Latour and his cohorts developed a new pictorial language for the modern group one of fragmentation exclusion and willful withdrawal into interior space that nonetheless presented individuality as radically relational

John House, 2004-01-01 A new perspective on Impressionist art that offers revealing fresh interpretations of familiar paintings In this handsome book a leading authority on Impressionist painting offers a new view of this admired and immensely popular art form John House examines the style and technique subject matter and imagery exhibiting and marketing strategies and social political and ideological contexts of Impressionism in light of the perspectives that have been brought to it in the last twenty years When all of these diverse approaches are taken into account he argues Impressionism can be seen as a movement that challenged both artistic and political authority with its uncompromisingly modern subject matter and its determinedly secular worldview Moving from the late 1860s to the early 1880s House analyzes the paintings and career strategies of the leading Impressionist artists pointing out the ways in which they countered the dominant conventions of the contemporary art world and evolved their distinctive and immediately recognizable manner of painting Focusing closely on the technique composition and imagery of the paintings themselves and combining this fresh appraisal with recent historical studies of Impressionism House explores how pictorial style could generate social and political meanings and opens new ways of looking at this luminous art
