experiment because they have nothing to lose older ones because they have nothing to fear With their legacies secure they re free to reinvent themselves sometimes with revolutionary results Titian s late style offered a way for pigment itself not just the things it depicted to express feelings on the canvas foreshadowing Rubens Frans Hals 19th century Impressionists and 20th century Expressionists Goya s late work enlarged the psychological territory that artists could enter Monet s late waterlily paintings were eventually recognized as prophetic for the centerless diaphanous space developed after World War II by abstract expressionists like Jackson Pollock and Phillip Guston In his seventies Matisse began to produce some of the most joyful art of the 20th century especially his famous cutouts that brought an ancient craft into the realm of High Modernism Hopper the ultimate realist used old age on occasion to depart into the surreal And Nevelson the patron saint of late bloomers pioneered a new kind of sculpture wall sized wooden assemblages made from odds and ends she scavenged from the streets of Manhattan Though these six artists differed in many respects they shared one thing a determination to go on creating driven not by the bounding energies of youth but by the ticking clock that would inspire them to produce some of their greatest masterpieces
