Monet, Renoir, and the Impressionist Landscape Virginia Museum of Fine Arts, 2000 **Monet, Renoir and the Impressionist Landscape** Virginia Museum of Fine Arts, 2000 Impressions of France John House, 1995 Impressions of France traces the development of the French painted landscape from 1860 to 1890 a period of dramatic artistic evolution Taking as his context the Paris Salons the central forum for the display of contemporary art in Paris and the focus for discussions of the state of modern art John House explains how the Impressionist landscapes exhibited there both reflected and forever changed the cultural tastes of the age Monet, Renoir, and the impressionist landscape George T. M. Shackelford, Nagoya-Boston museum of fine arts (Nagoya, Japan), 1999 **Impressionism** John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes **Renoir Landscapes, 1865-1883** Colin B. Bailey, Robert McDonald Parker, Auguste Renoir, 2007 This stunning book published to accompany a major touring exhibition examines Renoir s landscape art in depth demonstrating that he was one of the most audacious and original landscape artists of his age **Impressionism** Jane Bingham, 2008 How did the Impressionists get their name Who were the most famous Impressionists Did the Impressionist style have a lasting impact Impressionism answers all these questions It also discusses how and why the Impressionist movement began looks at how the Impressionists captured the changing effects of light and color in nature and examines the different subjects Impressionist artists chose for their paintings Art on the Wall is an exciting and informative series that explores a range of art movements and styles Each title in the series looks at the history behind the movement and discusses the techniques used by its artists The text is supported with stunning paintings and other artworks that illustrate each art style The titles also include biographies of well known artists and try it yourself activities that encourage readers to create their works of art using the techniques of the movement **Critical Readings in Impressionism and Post-Impressionism** Mary Tompkins Lewis, 2023-12-22 The essays in this wide ranging beautifully

illustrated volume capture the theoretical range and scholarly rigor of recent criticism that has fundamentally transformed the study of French Impressionist and Post Impressionist art Readers are invited to consider the profound issues and penetrating questions that lie beneath this perennially popular body of work as the contributors examine the art world of late nineteenth century France including detailed looks at Monet Manet Pissarro Degas C zanne Morisot Seurat Van Gogh and Gauguin The authors offer fascinating new perspectives placing the artworks from this period in wider social and historical contexts They explore these painters pictorial and market strategies the critical reception and modern criteria the paintings engendered and the movement s historic role in the formation of an avant garde tradition Their research reflects the wealth of new documents critical approaches and scholarly exhibitions that have fundamentally altered our understanding of Impressionism and Post Impressionism These essays several of which have previously been familiar only to scholars provide instructive models of in depth critical analysis and of the competing art historical methods that have crucially reshaped the field Contributors Carol Armstrong T J Clark Stephen F Eisenman Tamar Garb Nicholas Green Robert L Herbert John House Mary Tompkins Lewis Michel Melot Linda Nochlin Richard Shiff Debora Silverman Paul Tucker Martha Ward Colours of Impressionism: Masterpieces from the Musée d'Orsay Paul Perrin, Marine Kisiel, 2018-01-31 One of the great innovations of the Impressionists was their radical use of colour their application of strokes of complementary or contrasting hues captured the shifting effects of light and foregrounded the nature of vision Using colour as the lens through which to magnify the movement s intricacies this catalogue sweeps us from Manet s rich blacks through green and blue landscapes of Monet and C zanne to the sensuous pinks of Renoir Along this journey scientific discoveries and emerging definitions of modernity are explored illuminating the profound innovations of the Impressionists and the shifting preconceptions of their art Origins of Impressionism Gary Tinterow, Henri Loyrette, 1994 This handsome publication which accompanies a major exhibition at The Metropolitan Museum of Art is a lively and engaging account of the artistic scene in Paris in the 1860s the years that witnessed the beginnings of Impressionism For the first time the interactions and relationships among the group of painters who became known as the Impressionists are examined without the overworn art historical polarities commonly evoked academic versus avant garde classicist versus romantic realist versus impressionist A host of strong personalities contributed to this history and their style evolved into a new way of looking at the world These artists wanted above all to give an impression of truth and to have an impact on or even to shock the public And they wanted to measure up to or surpass their elders This complex and rich environment is presented here the grand old men and the young turks encounter each other the Salon pontificates and the new generation moves fitfully ahead benignly but always with determination Origins of Impressionism gives a day by day year by year study of the genesis of an epoch making style Bibliographies and provenances are provided for each of the almost two hundred works in the exhibition and there is an illustrated chronology With more than two hundred superb colorplates this informative survey is an essential work for both the general reader and the scholar

transformations of pictorial structure change one's experience of space. In addition, it proves that this transformation is an ongoing process: pictorial art is progressively articulated through historical development and is therefore able to increase its cognitive and aesthetic scope. To support such a perspective, the book brings together ideas from Ernst Cassirer and Paul Crowther. Cassirer's philosophy of symbolic forms offers a profound way of understanding historical transformations in our experience of space, and Crowther's work on imagination and aesthetics shows how this can be extended to pictorial space and the uniqueness of pictorial art. By combining the two approaches, it is demonstrated how pictorial art extends our basic involvement in and cognition of space and provides it with a special kind of aesthetic meaning.

Impressionists Side by Side Barbara Ehrlich White, 1996. White looks at the personal and professional relationships between eight artists: Degas, Manet, Monet, Renoir, Cézanne, Pissarro, Morisot, and Cassatt.

The Smith College Museum of Art Smith College. Museum of Art, John Davis, Jaroslaw Leshko, 2000. Smith College art professors Davis and Leshko showcase 100 paintings and sculptures from their institution's vaunted collection encompassing Americans from Gilbert Stuart to Louise Nevelson and Europeans from Corot to Henry Moore. In the introduction, how and why Smith became steward of such a fine body of work is ascribed to the school's high-minded mission and its generous alumni donors. The rest of the book is divided into two sections: one American and the other European. Each individual full-color reproduction is accompanied by an informative one-page essay and a brief reading list. During several years of renovations at Smith, the items featured in this book are traveling to diverse sites, which should increase the book's appeal.
