Money Politics And Health Care Reconstructing The Federalprovincial Partnership

Richard Eccleston, Richard Krever

Money Politics And Health Care Reconstructing The Federalprovincial Partnership:

Money, Politics and Health Care Institute for Research on Public Policy, Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 2004 Current tensions in intergovernmental fiscal arrangements are thus important impediment to improving the health care system At the same time the failure of provinces to correct health care problems acts a serious irritant in intergovernmental relations creating a vicious cycle where deficiencies in intergovernmental fiscal relations make health care reform difficult while failures to effect health care reform increase conflict between the provinces and the federal government This collection of essays analyses key issues in federal provincial health care relations particularly the fiscal component The authors look at why there is a role for the federal government in health care and consider the critical issues in recent intergovernmental political battles over this role The issues of whether the vertical federal provincial fiscal imbalance is myth or reality how much the federal government does and should contribute financially to provincial health care programs and methods for settling disputes such as those over user fees are discussed The authors also provide concrete proposals for reconstructing the federal provincial partnership Contributors include Keith Banting Queen s University Robin Boadway Queen s University David Cameron University of Toronto Harvey Lazar Jennifer McCrea Logie France St Hilaire and Jean Fran ois Tremblay *Money, Politics and Health Care* Harvey Lazar, France St-Hilaire, 2012

Paradigm Freeze Harvey Lazar, Pierre-Gerlier Forest, John N. Lavis, John Church, 2013-10-24 Why has health care reform proved a stumbling block for provincial governments across Canada What efforts have been made to improve a struggling system and how have they succeeded or failed In *Paradigm Freeze* experts in the field answer these fundamental questions by examining and comparing six essential policy issues regionalization needs based funding alternative payment plans privatization waiting lists and prescription drug coverage in five provinces Noting hundreds of recommendations from dozens of reports commissioned by provincial governments over the last quarter century the great majority to little or no avail the book focuses on careful diagnosis rather than unplanned treatment of the problem *Paradigm Freeze* is based on thirty case studies of policy reform in Alberta Saskatchewan Ontario Quebec and Newfoundland and Labrador The contributors assess the nature and extent of healthcare reform in Canada since the beginning of the 1990s They account for the generally limited extent of reform that has occurred and identify the factors associated with the relatively few cases of large reform An insightful new perspective on a problem that has plagued Canadian governments for decades *Paradigm Freeze* is an important addition to the field of health policy Contributors include John Church University of Alberta Michael Ducie Alberta Health and Wellness Pierre Gerlier Forest Pierre Elliott Trudeau Foundation Stephen Tomblin Memorial University Jeff Braun Jackson Ontario Professional Firefighters Association Burlington ON Marie Pascale Pomey Universit de Montr al John N Lavis McMaster University Harvey Lazar Queen s University Elisabeth Martin Universit Laval Tom McIntosh University of Regina Dianna Pasic McMaster University Neale Smith University of British Columbia and Michael G Wilson McMaster University

Health Systems in Transition Gregory Marchildon, 2013-11-01 The health care system in Canada is much discussed in the international sphere but often overlooked when it comes to its highly decentralized administration and regulation *Health Systems in Transition* Canada provides an objective description and analysis of the public private and mixed components that make up health care in Canada today including the federal provincial intergovernmental and regional dynamics within the public system Gregory P Marchildon's study offers a statistical and visual description of the many facets of Canadian health care financing administration and service delivery along with relevant comparisons to five other countries systems This second edition includes a major update on health data and institutions a new appendix of federal laws concerning select provincial and territorial Medicare legislation and for the first time a comprehensive and searchable index It also provides a more complete assessment of the Canadian health system based on financial protection efficiency equity user experience quality of care and health outcomes Balancing careful assessment summary and illustration *Health Systems in Transition* Canada is a thorough and illuminating look at one of the nation's most complex public policies and associated institutions

Canadian Federalism Herman Bakvis, Grace Skogstad, 2020-07-15 This is Canada's only up to date collection of essays on issues in Canadian federalism covering the Harper and Trudeau eras as well as federal provincial debates over healthcare climate change trade and more

Health Care Federalism in Canada Katherine Fierlbeck, William Lahey, 2013-12-01 Now that Ottawa has left health care to the provinces what is the future for Canadian health care in a decentralized federal context Is the Canada Health Act dead *Health Care Federalism in Canada* provides a multi perspective interdisciplinary analysis of a critical juncture in Canadian public policy and the contributing factors which have led to this point Social scientists legal scholars health services researchers and decision makers examine the shift from a system where Ottawa has played a significant sometimes controversial role to one where provinces have more ability to push health care design in new directions Will this change inspire innovation and collaboration or inequality and confusion Providing an up to date analysis of health care policy and intergovernmental relations at a crucial time *Health Care Federalism in Canada* will be of interest to anyone concerned with the current dynamics and future potential of Canadian health care Contributors include Greg Marchildon Canada Research Chair at the Johnson Shoyama Graduate School of Public Policy in Saskatchewan Ken Boessenkool public affairs strategist and former political advisor to Stephen Harper Adrian Levy Professor and Head Department of Community Health and Epidemiology at Dalhousie University Boris Sobolev Canada Research Chair at the School of Public and Population Health University of British Columbia Gail Tomblin Murphy Director WHO Collaborating Centre for Health Workforce Planning and Research and David Haardt Department of Economics Dalhousie University

Federalism and Decentralization in Health Care Gregory Marchildon, Thomas J. Bossert, 2018-04-13 While health system decentralization is often associated with federations there has been limited study on the connection between federalism and the organization of publicly financed or mandated health services *Federalism and Decentralization in Health Care* examines

eight federations that differ in terms of their geography history and constitutional and political development Looking at Canada Brazil Germany Mexico Nigeria Pakistan South Africa and Switzerland Federalism and Decentralization in Health Care examines constitutional responsibility for health care the national laws establishing a right to health care the predominant sources and organization of public revenues directed to health care and the overall organization of the health system In addition to these structural features each country case study is subjected to a decision space analysis to determine the actual degree of health system decentralization This involves determining whether national and subnational governments have narrow moderate or broad discretion in their decisions on governance access human resources health system organization and financing This comparative approach highlights the similarities and differences among these federations Offering reflections on recent trends in centralization or decentralizations for the health system as a whole Federalism and Decentralization in Health Care is a valuable resource for those studying health care policy in federal systems and especially those interested in comparative aspects of the topic

Bending the Cost Curve in Health Care Gregory P. Marchildon, Livio Di Matteo, 2015-01-01 Through Canadian and international perspectives *Bending the Cost Curve in Health Care* explores the management of growing health costs in an extraordinarily complex arena The book moves beyond previous debates agreeing that while efficiencies and better value for money may yet be found more fundamental reforms to the management and delivery of health services are essential prerequisites to bending the cost curve in the long run While there is considerable controversy over direction and details of change there also remains the challenge of getting agreement on the values or principles that would guide the reshaping of the policies the structures and the regulatory environment of health care in Canada Leading experts from around the world representing a range of disciplines and professional backgrounds come together to organize and define the problems faced by policy makers Case studies from the United States the United Kingdom Australia the Nordic countries and industrialized Asian countries such as Taiwan offer useful reform experiences for provincial governments in Canada Finally common Canadian cost factors such as pharmaceuticals and technology and paying the health workforce are explored This book is the first volume in The Johnson Shoyama Series on Public Policy published by the University of Toronto Press in association with the Johnson Shoyama Graduate School of Public Policy an interdisciplinary centre for research teaching and executive training with campuses at the Universities of Regina and Saskatchewan

The Oxford Handbook of Canadian Politics John Courtney, John Childs Courtney, David Smith, 2010-04-29 The Oxford Handbook of Canadian Politics provides a comprehensive overview of the transformation that has occurred in Canadian politics since it achieved autonomy nearly a century ago examining the institutions and processes of Canadian government and politics at the local provincial and federal levels It analyzes all aspects of the Canadian political system the courts elections political parties Parliament the constitution fiscal and political federalism the diffusion of policies between regions and various aspects of public policy

Making Medicare Gregory

Marchildon,2012-11-23 The Canadian health care system is so indisputably tied to our national identity that its founder Tommy Douglas was voted the greatest Canadian of all time in a CBC television contest However very little has been written to date on how Medicare as we know it was developed and implemented This collection fills a serious gap in the existing literature by providing a comprehensive policy history of Medicare in Canada Making Medicare features explorations of the experiments that predated the federal government s decision to implement the Saskatchewan health care model from Newfoundland s cottage hospital system to Bennetcare in British Columbia It also includes essays by key individuals including health practitioners and two premiers who played a role in the implementation of Medicare and the landmark Royal Commission on Health Services Along with political scientists policy specialists medical historians and health practitioners this collection will appeal to anyone interested in the history and legacy of one of Canada s most visible and centrally important institutions Canada: The State of the Federation, 2011 Nadia Verrelli,2015-01-01 In this edition of Canada State of the Federation contributors consider whether and to what degree the relationship between the central government and the provincial and territorial governments has changed in the past decade The authors address three overarching questions First is the power base changing in Canada If so how are governments responding Second what are the implications of the changing environment for the relationships between governments And third are there underlying forces such as economic or technological change or demands for citizen engagement that are pushing some provinces and regions to become more assertive in the global environment The papers are organized into four categories those that identify and analyze the changing federal environment those concerned with the implications of the 2011 federal election those that deal with health policy and economic federalism and those that explore the growing importance of the North and the changing dynamics among the provinces and the federal government Among the topics discussed are the impact of a majority government based on a West Ontario coalition with Quebec represented primarily by the Opposition the implications of the trade off between health care spending and the public financing of other essential public goods and second generation trade agreements such as the Canada European Union Comprehensive Trade Agreement **Territory, Democracy and Justice** S. Greer,2005-12-16 Territory Democracy and Justice brings together experts from six countries to ask what territorial decentralization does and what it means for democracy policymaking and the welfare state Integrated and international in a fragmented field the chapters identify the importance and consequences of territorial decentralization The authors analyze the successes the generalizable ideas and the international lessons in the study of comparative territorial politics as well as new directions for research Canadian Fiscal Arrangements Harvey Lazar,2005-08-18 The key issues in fiscal federalism will be debated once again when the federal government the provinces and the territories return to the negotiating table Ottawa has appointed an expert panel on equalization and territorial formula financing and the provinces and territories have established an advisory panel on fiscal imbalance Both will report in the first half of 2006 after which the negotiating pace

will accelerate In a timely collection contributors from the government and academia tackle these fiscal policy issues from a broad spectrum of perspectives **Governance and Public Policy in Canada** Michael M. Atkinson, Gregory P.

Marchildon, Peter W. B. Phillips, Kenneth A. Rasmussen, Daniel Béland, Kathleen McNutt, 2013-01-01 Governance and Public Policy in Canada lays the foundation for a systematic analysis of policy developments shaped as they are by multiple players institutional tensions and governance legacies Arguing that provinces are now the most central site of governance and policy innovation the book assesses the role of the provinces and places the provincial state in its broader economic institutional social and territorial context The aim throughout is to highlight the crucial role of provinces in policy changes that directly affect the lives of citizens Three key themes unify this book First it addresses the role of policy convergence and divergence among provinces Although the analysis acknowledges enduring differences in political culture and institutions it also points to patterns of policy diffusion and convergence in specific areas in a number of provinces Second the book explores the push and pull between centralization and decentralization in Canada as it affects intergovernmental relations Third it underscores that although the provinces play a greater role in policy development than ever before they now face a growing tension between their expanding policy ambitions and their capacity to develop fund implement manage and evaluate policy programs Governance and Public Policy in Canada describes how the provincial state has adapted in the context of these changing circumstances to transcend its limited capacity while engaging with a growing number of civil society actors policy networks and intergovernmental bodies **The Future of Federalism** Richard Ecclestone, Richard Krever, 2017-01-27 The crisis and its aftermath had a dramatic short term effect on federal relations and as the twelve case studies in this volume show set in place a new set of socio political factors that are shaping the longer run process of institutional evolution and adaptation in federal systems This illuminating book illustrates how an understanding of these complex dynamics is crucial to the development of policies needed for effective and sustainable federal governance in the twenty first century

Overpromising and Underperforming? Peter Graefe, Julie M. Simmons, Linda Ann White, 2013-01-01 Public reporting has been used experimentally in federal provincial relations since the mid 1990s as an accountability mechanism to promote policy effectiveness intergovernmental cooperation and democratic legitimacy Our understanding of how well it is working however remains limited to very specific policy sectors even though this information is essential to policy makers in Canada and beyond Overpromising and Underperforming offers a deeper analysis of the use of new accountability mechanisms paying particular attention to areas in which federal spending power is used This is the first volume to specifically analyse the accountability features of Canadian intergovernmental agreements and to do so systematically across policy sectors Drawing on the experiences of other federal systems and multilevel governance structures the contributors investigate how public reporting has been used in various policy fields and the impact it has had on policy making and intergovernmental relations **Forging the Canadian Social Union** Institute for Research on Public Policy, 2003 Social Union Framework

evaluates the Social Union Framework Agreement SUFA as well as subsequent developments in intergovernmental relations as the deadline for the review of the Agreement approaches

Why Regions Matter: Small Worlds in Comparative Perspective Ailsa Henderson, 2014-06-11 Bringing together experts on regionalism and federalism this collection explores the impact of legislative regions on parties and voters It reflects on the 1980 publication of *Small Worlds* by David Elkins and Richard Simeon which outlined how and why voters and policies differ across Canadian provinces Using recent data the essays in this collection provide a comparative re examination of the impact of regions The book explores attitude divergence in Canada and in the US the role and impact of regional parties in Quebec Scotland and Bavaria the impact of multi level governance on how citizens understand and discharge their duties and the capacity of sub state political systems to influence general political attitudes The result is an empirical and analytical contribution to regionalism and federalism studies that demonstrates how and why regions matter This book was published as a special issue of *Regional and Federal Studies*

Intergovernmental Policy Capacity in Canada Gregory J. Inwood, Patricia O'Reilly, Carolyn M. Johns, 2011 In a highly networked world where governments must cope with increasingly complex and inter related policy problems the capacity of policy makers to work intergovernmentally is not an option but a necessity Gregory Inwood Carolyn Johns and Patricia O'Reilly offer unique insights into intergovernmental policy capacity revealing what key decision makers and policy advisors behind the scenes think the barriers are to improved intergovernmental policy capacity and what changes they recommend Senior public servants from all jurisdictions in Canada discuss the ideas institutions actors and relations that assist or impede intergovernmental policy capacity Covering good and bad economic times and comparing insiders concerns and recommendations with those of scholars of federalism public policy and public administration they provide a comparative analysis of major policy areas across fourteen governments Intergovernmental policy capacity while of increasing importance is not well understood By examining how the Canadian federation copes with today's policy challenges the authors provide guideposts for federations and governments around the world working on the major policy issues of our day

Nationalism and the State Nicola McEwen, 2006 Since the mid 1970s many developed states have reduced the size and scope of their welfare systems At the same time states have faced growing demands for self government from national minorities These twin processes have had a substantial impact upon the structure power and legitimacy of the state yet few have considered their inter relationship This book aims to fill this gap by conducting a focused comparison of nationalism and welfare development in Scotland and Quebec The recent emergence of Scottish and Quebecois nationalism took place against a backdrop of welfare retrenchment Did the post war welfare state contain these territorial identities and strengthen attachment to the state among Scots and Quebecers Did the retrenchment of state welfare lead to demands for greater self government Demands for Scottish self government led to the creation of the Scottish Parliament and the devolution of power over wide areas of social policy The book examines the complexities of welfare development in multi level states drawing

upon the Quebec Canada experience to explore the relationship between nationalism and welfare development in post devolution Scotland
