Proceedings of an International Workshop ,2004

Agricultural Innovation Systems The World Bank,2012-02-21

Managing the ability of agriculture to meet rising global demand and to respond to the changes and opportunities will require good policy sustained investments and innovation not business as usual Investments in public Research and Development extension education and their links with one another have elicited high returns and pro poor growth but these investments alone will not elicit innovation at the pace or on the scale required by the intensifying and proliferating challenges confronting agriculture Experience indicates that aside from a strong capacity in Research and Development the ability to innovate is often related to collective action coordination the exchange of knowledge among diverse actors the incentives and resources available to form partnerships and develop businesses and conditions that make it possible for farmers or entrepreneurs to use the innovations While consensus is developing about what is meant by innovation and innovation system no detailed blueprint exists for making agricultural innovation happen at a given time in a given place for a given result The AIS approach that looks at these multiple conditions and relationships that promote innovation in agriculture has however moved from a concept to a sub discipline with principles of analysis and action AIS investments must be specific to the context responding to the stage of development in a particular country and agricultural sector especially the AIS This sourcebook contributes to identifying designing and implementing the investments approaches and complementary interventions that appear most likely to strengthen AIS and to promote agricultural innovation and equitable growth It emphasizes the lessons learned benefits and impacts implementation issues and prospects for replicating or expanding successful practices The information in this sourcebook derives from approaches that have been tested at different scales in different contexts It reflects the experiences and evolving understanding of numerous individuals and organizations concerned with agricultural innovation including the World Bank This information is targeted to the key operational staff in international and regional development agencies and national governments who design and implement lending projects and to the practitioners who design thematic programs and technical assistance packages The sourcebook can also be an important resource for the research community and nongovernmental organizations NGOs Transforming Agricultural Research Systems in Transition Economies Mohinder S. Mudahar,Robert William Jolly,Jitendra

Srivastava,1998-01-01 This report examines the current state of Russian agriculture and agricultural research systems It develops a conceptual framework for managing the transformation and rehabilitation of agricultural research systems in transition economies Chapters examine the strategic importance of agricultural research the status and importance of the agricultural sector the status of the agricultural knowledge system and challenges facing the system as well as ways to transform it This book is aimed toward agricultural scientists research administrators public officials and agricultural leaders interested in the transformation of agricultural research systems in the transition economies Scaling Up and Out: Achieving Widespread Impact through Agricultural Research Douglas Pachico,2004 **Capacity Building for Agricultural Research for Development** Adiel N. Mbabu,Andy Hall (Researcher in agriculture and economics),2012 *Evaluating the Impact of the Graduate Fellowship Programme of the International Livestock Research Institute* ,2002-01-01 agricultural research & extension network ,1994 **Planificación y gerencia de la investigación forestal** ,1995 An Organizational Performance Assessment System for Agricultural Research Organizations Warren Peterson,Govert Gijsbers,Michèle Wilks,2003 **Exploring Waste Management in Sustainable Development Contexts** Mohan, Chandra,Jeet, Shobhna,Dixit, Saurav,Carabineiro, Sónia A.C.,2024-05-30 Effective waste management is more crucial than ever in dealing with environmental challenges The Sustainable Development Goals SDGs provide a framework for addressing these challenges but their complex interplay with waste management practices requires deeper examination Exploring Waste Management in Sustainable Development Contexts offers a comprehensive exploration of this intersection highlighting the urgent need for innovative solutions to transform waste management into a driver of sustainable development The book delves into the various challenges of waste management from the types and volume of waste generated to its environmental and health impacts It sheds light on the inadequacies of current methods and presents sustainable practices that can pave the way for a greener future By focusing on sustainable approaches to waste management the book is an inspiration for actionable change and fosters a deeper understanding of waste management s role in achieving the SDGs **Modeling the Impact of Potato Research on Small Farmers in Bolivia** Jorge E. Quiroga,1998 *Food habits and consumption in developing countries* Adel P. den Hartog,Wija A. van Staveren,Inge D. Brouwer,2023-09-04 During the last decade the food and nutrition situation in developing countries has changed dramatically For better or worse urbanization and globalization have altered the diet and nutrition in both rural and urban areas In many developing countries a persistent level of under nutrition exists both in rural areas and in urban slums due to less access to food needed for an active and healthy life On the other hand over nutrition or eating too much has emerged among the middle income groups It is essential to have a better understanding of how people deal with their food in developing countries in order to plan and implement food and nutrition programmes This manual deals with the process of changing food habits and consumption patterns in developing countries Nutritional implications together with practical information is discussed in relationship to conducting field surveys Part one

of the manual provides insight into the dynamics of food habits and consumption and its socio economic and cultural dimensions Part two gives practical information on small scale surveys to be carried out within the framework of a nutrition issue including data collecting on food habits and the measurement of food intake This manual addresses professionals with practical or academic training and those who are involved in various types of food and nutrition programmes or related activities It can also be used as a handbook in food and nutrition training courses at higher and at academic level

Agriculture Investment Sourcebook World Bank,2005-04-08 Investing to promote agricultural growth and poverty reduction is a central pillar of the World Bank s current rural strategy Reaching the Rural Poor 2003 This Sourcebook addresses how to implement the rural strategy by sharing information on investment options and identifying innovative approaches that will aid the design of future lending programs for agriculture It provides generic good practices and many examples that demonstrate investment in agriculture can provide rewarding and sustainable returns to development efforts It is divided into eleven self contained modules Each module contains three different types of subunits that can also be stand alone documents I Module Overview II Agricultural Investment Notes III Innovative Activity Profiles The stand alone nature of the subunits allows flexibility and adaptability of the material Selected readings and web links are also provided for readers who seek more in depth information The Sourcebook draws on a wide range of experiences from donor agencies governments institutions and other groups active in agricultural development It is an invaluable reference tool for policy makers professionals academics and students and anyone with an interest in agricultural investments Strengthening monitoring and evaluation for adaptation planning in the agriculture sectors Food and Agriculture Organization of the United Nations,United Nations Development Programme,2019-12-11 The importance of monitoring and evaluation M E of climate change adaptation has been highlighted at global level including under the Paris Agreement Simultaneously adaptation M E systems are beginning to emerge at the national level in the context of national planning and budgeting processes This technical guidance note details how to develop M E systems for adaptation planning in agriculture sectors

University-based Agricultural Research Heike Michelsen, Frank Hartwich,2004 Collaboration and Accountability in Agricultural Research Mario A. Allegri,1999 *ISNAR's Achievements, Impacts, and Constraints* Ronald

Mackay,International Service for National Agricultural Research,1998

Impact of Project Intervention on Rural Households in Nepal Lila Bahadur Karki,2004 Obtaining enough food for survival is a fundamental challenges in most of the developing countries The livestock sector is of paramount importance to sustain the agrarian production where mixed farming system is practiced The possibility of increasing the consumption of animal protein in such countries requires an acceleration of the livestock s productivity One of the most feasible solutions in this regard is to enhance the efficiency of livestock farmers where intervention of development projects play decisive role This book presents a stringent analyses of such interventions on socio economic and environmental aspects at households level The major issue is to isolate the impact

on innovation in smallholder peasants food self sufficiency natural resource management institutional development gender equity and production efficiency due to such intervention and its overall effect on the living standard of beneficiaries and other stakeholders of the community Besides spillover impact was considered in terms of physical changes due to combined effect of activities transferred into the periphery as percolation A With Without project evaluation approach was applied as a research methodology The findings are based on the primary information collected through household survey The collected cross sectional information was analyzed using descriptive statistics econometric models and qualitative analyses The empirical findings obtained from such analyses confirm a substantial contribution of a project intervention as long as the activities are institutionalized for the sustainability of the accrued benefit over time
