**Reproductive Health and Human Rights** Laura Reichenbach,Mindy Roseman,2011-09-30 Reproductive Health and Human Rights The Way Forward critically reflects on the past fifteen years of international efforts aimed at improving health alleviating poverty diminishing gender inequality and promoting human rights The volume includes essays by leading scholars and practitioners that are centered on the 1994 United Nations International Conference on Population and Development ICPD and its resulting Programme of Action ICPD an agreement among 179 governments UN agencies and NGOs was intended to shape population and development policy reinterpreted and redefined as reproductive health More than a decade after the enthusiasm that accompanied ICPD there is growing concern about its effectiveness in the context of global health and development Reproductive Health and Human Rights addresses that concern The book grapples with fundamental questions about the relationships among population fertility decline reproductive health human rights poverty alleviation and development and assesses the various arguments demographic public health human rights based and economic for and against ICPD today A number of the chapters address institutional challenges to ICPD and consider how the changing political religious academic and disciplinary contexts matter Other chapters engage operational and conceptual issues and whether ICPD has been able to move the reproductive health agenda forward on topics such as maternal mortality abortion HIV AIDS adolescents reproductive technologies and demography Finally several chapters examine how ICPD has been sidelined by emerging health and development agendas and what could be done in response Unlike any book yet published Reproductive Health and Human Rights The Way Forward examines the state of the arguments for reproductive health and rights from a multidisciplinary perspective that provides policymakers scholars and activists with a better understanding of how reproductive health and rights have developed their place in the global policy agenda and how they might evolve most effectively in the future      **Reproductive Health Indicators for Global Monitoring** WHO

(Geneva).,2001      Reproductive Health and Gender Equality Guang-zhen Wang,2016-04-08 Since the late 1990s approaches to women s reproductive health has shifted from a service based model to a human rights approach This approach associates reproductive health with freedom from discrimination and enjoyment of a satisfying and safe sex life and full access to

information and services related to reproduction In spite of this shift and the global effort to promote women s reproductive health through the enhancement of human rights and gender equality progress has been very slow In this book the author fills a much needed empirical study of women s reproductive health The author assesses data from 137 developing countries or areas and challenges the prevailing bioscience and public health models by linking women s reproductive health to gender equality measures and development policies Discussion on abortion rights regional variations and reproductive health needs among refugees and internally displaced persons are also discussed This is a timely study which provides a theoretical and social policy basis for monitoring and improving women s reproductive health in developing countries This is particularly important in the light of insufficient research in the field and a lack of analysis on the empirical and theoretical linkages between reproductive health and gender equality The book will be of interest to researchers professionals and students interested in women s health issues gender women s studies and human rights
