Approaches to Reducing the Use of Forced or Child Labor National Research Council, Policy and Global Affairs, 2009-11-09 Globally child labor and forced labor are widespread and complex problems They are conceptually different phenomena requiring different policy responses though they may also overlap in practice The Trafficking Victims Protection Act of 2000 TVPA was designed to reduce the use of child and forced labor in the production of goods consumed in the United States The Act was reauthorized in 2003 2005 and 2008 In response to provisions of TVPA the the Bureau of International Labor Affairs requested that the National Research Council organize a two day workshop The workshop summarized in this volume discusses methods for identifying and organizing a standard set of practices that will reduce the likelihood that persons will use forced labor or child labor to produce goods with a focus on business and governmental practices

Corporate Social Responsibility and Global Labor Standards Luc Fransen, 2011-12-21 How effective are multinational companies at improving working conditions in their supply chains This book focuses on a crucial dynamic in private efforts at regulating labor standards in international production chains It addresses questions regarding the quality of rules Are existing efforts to privately regulate labor standards credible as well as business demand for private regulation To what extent are different types of regulation adopted

by companies This volume seeks to understand the underlying issue of whether private regulation can be both stringent and popular with firms The study analyzes the nature and origins of the business demand for and the competition between all relevant private regulatory organizations focusing on clothing production The argument of the book focuses on the interaction between activists and firms in consensual developing and governing private regulatory organizations and in contentious forms activists exerting pressure on firms The book describes and explains an emerging divide in the effort to regulate working conditions in clothing production between a larger cluster of less stringent and a smaller cluster of more stringent private regulatory organizations and their supporters The analysis is based on original data adopting both comparative case study and inferential statistical methods to explain developments in apparel retail and sportswear sectors
