**Monochrome Memories** Paul Grainge, 2000      **Monochrome Memories** Paul Grainge, 2002-09-30 Through engaging case studies on news magazines Hollywood film brand advertising and movie colorization this volume examines the resurgence of the black and white image in the 90s      **American Culture in the 1990s** Colin Harrison, 2010-03-31 American Culture in the 1990s focuses on the dramatic cultural transformations of the last decade of the millennium Lodged between the fall of Communism and the outbreak of the War on Terror the 1990s was witness to America's expanding influence across the world but also a period of anxiety and social conflict National traumas such as the Los Angeles riots the Oklahoma City bombing and the impeachment of President Clinton lend an apocalyptic air to the decade but the book looks beyond this to a wider context to identify new voices emerging in the nation This is one of the first attempts to bring together developments taking place across a range of different fields from Microsoft to the Internet from blank fiction to gangsta rap from abject art to new independent cinema and from postfeminism to posthumanism Students of American culture and general readers will find this a lively and illuminating introduction to a complex and immensely varied decade Key Features 3 case studies per chapter featuring key texts genres writers and artists Chronology of 1990s American Culture Bibliographies for each chapter 18 black and white illustrations      **The 1990s** Richard Alan Schwartz, 2006 Traces the history of the United States during the 1990s through such primary sources as memoirs letters contemporary journalism and official documents      **The Remaking of Memory in the Age of the Internet and Social Media** Qi Wang, 2024-10-29 It has long been believed that individual human memory has been strengthened by the storage representational reproductive and connective capacities of technologies and media However such views of how memory works are being challenged amidst today's digital maelstrom In particular the Internet and social media platforms have profoundly transformed the ways individuals receive store share and lose information Memory has become more externalized dialogical and transactive yet at the same time unwieldy opaque and inaccessible In *The Remaking of Memory in the Age of the Internet and Social Media* Qi Wang and Andrew Hoskins have assembled scholars from cognitive psychology philosophy neuroscience and media and communication studies to synthesize emerging social and cognitive science research on the impact of the Internet and social media on remembering and forgetting They probe whether human memory is being threatened by a shift from a healthy reliance to a dependency on digital media and technologies The book illuminates theoretical and empirical research which shows the consequences of human entanglements with the Internet and social media for memory representation expression and socialization in individuals and the implications for the family community and society Gathering the leading international scholars of Memory Studies together this volume offers a new interdisciplinary agenda of inquiry into the digital remaking of individual collective and cultural memory      *Intimations of Nostalgia* Michael Hviid Jacobsen, 2021-11-05 Nostalgia a complex and multi-layered emotion has gained interest since the turn of the century in both society and academic circles

Written by an international group of scholars this volume investigates the relationship between nostalgia and contemporary social issues from a multidisciplinary perspective From history and political theory to marketing and media each chapter discusses the way nostalgia has been presented within a disciplinary context and shows how it has evolved over time as a topic of research Casting light on many recent changes in society and culture this is an important contribution to the study of nostalgia and emotions

**The Republic of Love** Martin Stokes,2010-10 Focusing on three entertainers who have become national icons Martin Stokes offers a portrait of Turkish identity that is very different from the official version of anthems and flags In particular he discusses how a Turkish concept of love has been developed through the work of the singers and the public reaction to them

*Memory and Popular Film* Paul Grainge,2003-09-06 Taking Hollywood as its focus this timely book provides a sustained interdisciplinary perspective on memory and film from early cinema to the present Considering the relationship between official and popular memory the politics of memory and the technological and representational shifts that have come to effect memory s contemporary mediation the book contributes to the growing debate on the status and function of the past in cultural life and discourse By gathering key critics from film studies American studies and cultural studies *Memory and Popular Film* establishes a framework for discussing issues of memory in film and of film as memory Together with essays on the remembered past in early film marketing within popular reminiscence and at film festivals the book considers memory films such as *Forrest Gump* *Lone Star* *Pleasantville* *Rosewood* and *Jackie Brown*

*Stories between Tears and Laughter* Richard Vojvoda,2024-01-05 While histories of Czech cinema often highlight the quality of Czechoslovak New Wave films made in the 1960s post socialist Czech cinema receives little attention Through a methodology of historical reception *Stories between Tears and Laughter* explores how attitudes towards post socialist Czech cinema have shifted but still viewed it as popular cinema By analysing publicity materials reviews and articles Richard Vojvoda offers a new perspective on the notions of cultural value and quality that have been shaping the history of post socialist Czech cinema

Ostalgie in German Cinema After Reunification Tatiana Astafeva,2024-12-26 This book provides a thorough overview of the ostalgie films about the German Democratic Republic GDR produced since the 1990s Far from being a homogenous phenomenon that romanticizes the totalitarian state the ostalgie genre is multifaceted reflexive and at times subversive Thus Astafeva argues the core of ostalgie is an experience of distance that is prefocused by various aesthetic strategies This genre based definition makes it possible to conceptualize the phenomenon of ostalgie film in its heterogeneity and to reveal the mechanisms that lay in the essence of ostalgic experience The cognitivist phenomenological approach is underpinned by historiographic and genre theory and close analysis of film examples from the most popular ostalgie films such as *Goodbye Lenin* Wolfgang Becker 2003 to lesser known film productions and recent series such as *Kleo* 2022 2024 that allow exploration of various functions of the ostalgic experience Ostalgie films can foster uncritical reactionary and conservative views of history and expose the experience of distance by orienting aesthetics toward kitsch and retro They can also

encourage reflexive and meta reflexive understandings of history so that the GDR past is critically discussed and reworked Furthermore ostalgie films can in some cases activate historical consciousness facilitate the production of historical knowledge and generate ethical thinking and empathy *Beyond Style and Genre* Christofer Jost,2023 Popular culture today manifests itself in a dense network of styles and genres while the aesthetic preferences of the audience are highly differentiated Besides popular culture also implies a diversity of aesthetic strategies discourses and value systems that traverse the symbolic demarcations between styles and genres and are effective across different artistic fields and individual media Aesthetic concepts such as camp retro or trash are expressions of a transgressive mode of production that facilitates a multitude of cross connections between aesthetic spaces of experience The volume brings together authors from different disciplines who approach aesthetic concepts in popular culture on a historical theoretical and methodological level analyze them on the basis of various aesthetic phenomena or discuss aspects relevant to their theoretical contextualization such as the emergence and establishment of artistic practices and aesthetic value systems *Critical Perspectives on Mass Market Entertainment* ,2025-06-12 This book offers critical insights into contemporary mass market entertainment across various geographical and cultural contexts blending theoretical reflections with empirical case studies It examines cultural phenomena and objects from both Western and non Western perspectives analyzing representations production and consumption practices By highlighting the interplay of identities power dynamics and digital transformations this work deepens your understanding of entertainment as both a cultural phenomenon and an ideological apparatus It emphasizes the need for ongoing critical engagement with mass market entertainment in our rapidly changing world Screen Media and the Construction of Nostalgia in Post-Socialist China Zhun Gu,2023-01-31 This book traces the cultural transformation of nostalgia on the Chinese screen over the past three decades It explores how filmmakers from different generations have engaged politically with China s rapidly changing post socialist society as it has been formed through three mutually constitutive frameworks political discourse popular culture and state led media commercialisation The book offers a new critical model for understanding relationships between filmmakers industry and the State *Devouring Cultures* Cammie M. Sublette,Jennifer Martin,2016-01-01 Funded in part by The Julia Child Foundation for Gastronomy and the Culinary Arts Page 4 of cover America, History and Life ,2005 Article abstracts and citations of reviews and dissertations covering the United States and Canada **The Past in Visual Culture** Jilly Boyce Kay,Cat Mahoney,Caitlin Shaw,2017-01-26 In recent years digital technology has made available an inconceivably vast archive of old media Images of the past accessed with the touch of a finger are now intertwined with those of the present raising questions about how visual culture affects our relationship with history and memory This collection of new essays contributes to a growing debate about how the past and its media are appropriated in the modern world Focusing on a range of visual cultures the essays explore the intersection of film television online and print media and visual art platforms whose boundaries are increasingly hard to define and the

various ways we engage the past in an environment saturated with the imagery of previous eras Topics include period screen fiction nonfiction media histories and memories cinematic nostalgia and recycling and the media as both purveyors and carriers of memory

The Child Savage, 1890-2010 Elisabeth Wesseling, 2016-12-05 Taking up the understudied relationship between the cultural history of childhood and media studies this volume traces twentieth century migrations of the child savage analogy from colonial into postcolonial discourse across a wide range of old and new media Older and newer media such as films textbooks children s literature periodicals comic strips children s radio and toys are deeply implicated in each other through ongoing remediation meaning that they continually mimic absorb and transform each other s representational formats stylistic features and content Media theory thus confronts the cultural history of childhood with the challenge of re thinking change in childhood imaginaries as transformation through repetition patterns rather than as rise shine decline sequences This volume takes up this challenge demonstrating that one historical epoch may well accommodate diverging childhood repertoires which are recycled again and again as they are played out across a whole gamut of different media formats in the course of time

Fiesta de diez pesos: Music and Gay Identity in Special Period Cuba Moshe Morad, 2016-04-15 The Special Period in Cuba was an extended era of economic depression starting in the early 1990s characterized by the collapse of revolutionary values and social norms and a way of life conducted by improvised solutions for survival including hustling and sex work During this time there developed a thriving though constantly harassed and destabilized clandestine gay scene known as the ambiente In the course of eight visits between 1995 and 2007 the last dozen years of Fidel Castro s reign Moshe Morad became absorbed in Havana s gay scene where he created a wide social network attended numerous secret gatherings from clandestine parties to religious rituals and observed patterns of behavior and communication He discovered

the role of music in this scene as a marker of identity a source of queer codifications and identifications a medium of interaction an outlet for emotion and a way to escape from a reality of scarcity oppression and despair Morad identified and conducted his research in different types of musical space from illegal clandestine parties held in changing locations to ballet halls drag show bars private living rooms and kitchens and santer a religious ceremonies In this important study the first on the subject he argues that music plays a central role in providing the physical emotional and conceptual spaces which constitute this scene and in the formation of a new hybrid gay identity in Special Period Cuba **Velvet Retro** Veronika Pehe, 2020-02-03 Scholars of state socialism have frequently invoked nostalgia to identify an uncritical longing for the utopian ambitions and lived experience of the former Eastern Bloc However this concept seems insufficient to describe memory cultures in the Czech Republic and other contexts in which a retro fascination with the past has proven compatible with a steadfast critique of the state socialist era This innovative study locates a distinctively retro aesthetic in Czech literature film and other cultural forms enriching our understanding of not only the nation s memory culture but also the ways in which popular culture can structure collective memory
