Monopoly in Economics and Law Donald Dewey, 1959 *An Explanation of the Economic Law of Competition and Monopoly* Allen Ripley Foote, 1903 *Handbook of Law and Economics* A. Mitchell Polinsky, Steven Shavell, 2007-11-07 Law can be viewed as a body of rules and legal sanctions that channel behavior in socially desirable directions for example by encouraging individuals to take proper precautions to prevent accidents or by discouraging competitors from colluding to raise prices The incentives created by the legal system are thus a natural subject of study by economists Moreover given the importance of law to the welfare of societies the economic analysis of law merits prominent treatment as a subdiscipline of economics This two volume Handbook is intended to foster the study of the legal system by economists The two volumes form a comprehensive and accessible survey of the current state of the field Chapters prepared by leading specialists of the area Summarizes received results as well as new developments

Monopoly in Economics and Law Professor Donald Dewey, 2012-05-01 *Monopsony in Law and Economics* Roger D. Blair, Jeffrey L. Harrison, 2010-09-06 Most readers are familiar with the concept of a monopoly A monopolist is the only seller of a good or service for which there are not good substitutes Economists and policy makers are concerned about monopolies because they lead to higher prices and lower output The topic of this book is monopsony the economic condition in which there is one buyer of a good or service It is a common misunderstanding that if monopolists raise prices then monopsonists must lower them It is true that a monopsonist may force sellers to sell to them at lower prices but this does not mean consumers are better off as a result This book explains why monopsonists can be harmful and the way law has developed to respond to these harms
