Klingaman, 2019-02-19 The acclaimed narrative history of the American home front during WWII from the attack on Pearl Harbor through 1942 For Americans on the home front the twelve months following the Japanese attack on Pearl Harbor

comprised the darkest year of World War Two Despite government attempts to disguise the magnitude of American losses it was clear that the nation had suffered a nearly unbroken string of military setbacks in the Pacific by the autumn of 1942 government officials were openly acknowledging the possibility that the United States might lose the war Appeals for unity and declarations of support for the war effort made it appear as though the class hostilities and partisan animosities that had beset the United States for decades had suddenly disappeared Yet a deeply divided American society was splintering even further as conflicting interest groups sought to turn the wartime emergency to their own advantage Meanwhile blunders and repeated displays of incompetence by the Roosevelt administration added to the sense of anxiety and uncertainty that hung over the nation The Darkest Year focuses on Americans state of mind not only through what they said but in the day to day details of their behavior William K Klingaman delves into the social and cultural changes wrought by war including shifts in family roles race relations economic pursuits popular entertainment education and the arts

Meet Joe Copper Matthew L. Basso, 2013-07-17 I realize that I am a soldier of production whose duties are as important in this war as those of the man behind the gun So began the pledge that many home front men took at the outset of World War II when they went to work in the factories fields and mines while their compatriots fought in the battlefields of Europe and on the bloody beaches of the Pacific The male experience of working and living in wartime America is rarely examined but the story of men like these provides a crucial counter narrative to the national story of Rosie the Riveter and GI Joe that dominates scholarly and popular discussions of World War II In Meet Joe Copper Matthew L Basso describes the formation of a powerful white working class masculine ideology in the decades prior to the war and shows how it thrived on the job in the community and through union politics Basso recalls for us the practices and beliefs of the first and second generation immigrant copper workers of Montana while advancing the historical conversation on gender class and the formation of a white ethnic racial identity Meet Joe Copper provides a context for our ideas of postwar masculinity and whiteness and finally returns the men of the home front to our reckoning of the Greatest Generation and the New Deal era
