Montherlant And Suicide:

Montherlant and Suicide Charlotte Frankel Gerrard,1977 *The Facts on File Companion to the French Novel* Karen L. Taylor,2006 French novels such as Madame Bovary and The Stranger are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization

French Writers and the Politics of Complicity Richard J. Golsan,2006-02 Focusing on the political commitments of three French writers who collaborated with the Vichy Regime and Nazi Germany during World War II and on those of three leading French intellectuals of the 1990s whose misplaced political idealism led them to support xenophobic authoritarian regimes and dangerous historical revisionisms Richard J Golsan reexamines the notion of political commitment or engagement in two difficult periods in modern French history Discussing the fiction essays and journalism of Henry de Montherlant Jean Giono and Alphonse de Chateaubriant Golsan explores the complexity of artistic and intellectual collaboration during the German Occupation He demonstrates that in this context complicity with political evil often derived from nonpolitical motives including sexual orientation antimodern aesthetics and dangerously skewed religious beliefs Turning to the post cold war era of the 1990s Golsan examines the philosopher Alain Finkielkraut s support for Croatian independence the mediologist Régis Debray s pro Serb stance during the bombing of Kosovo and the historian Stéphane Courtois s revisionist comparison of Nazi and Communist crimes during the 1997 debate surrounding the publication of The Black Book of Communism In these three cases laudable motives and misguided historical comparisons with Vichy Nazism and the Occupation period that marked the political and intellectual discourses of France in the 1990s resulted paradoxically in antidemocratic engagements profoundly at odds with the original motivations behind these intellectuals commitments In each of these case studies political complicity derives from a combination of passions and ideals whether positive or negative emotional or intellectual as well as a desire to make the present conform to a particular and generally skewed vision of the past The full implications of these involvements are neither fully grasped nor understood by their authors either through lack of objectivity rationality or imagination or through willful ignorance The results are always unfortunate and often disastrous Considered together these six intellectuals serve as sobering reminders that political commitments are never as simple or straightforward as they seem and that admirable motives for political involvement can have dangerous and destructive consequences in historical practice Specters of Anarchy Jeff Shantz,2015-10-01 Anarchy The word alone conjures strong emotional responses Anarchism is one of the most important if maligned radical social movements In the 21st century anarchist politics have enjoyed a significant revival offering a positive vision of social change and an alternative to the injustice and inequality associated with states and corporate dominance Yet anarchism remains misunderstood and misrepresented in mass media and government accounts that associate the term with chaos and disorder Despite the

negative portrayals anarchism in fact has always been a movement of intense creativity More than a political movement anarchism has for over a century made important contributions to cultural developments especially in literature and art Often overlooked are the vital creative expressions of anarchism This lively volume featuring works by innovative scholars presents the compelling potency of anarchist literature through distinct voices Anarchism has greatly influenced literary production and provided inspiration for a diversity of writers and literary movements Edited by a longtime anarchist theorist this exciting collection of engaging works highlights the rich articulations of anarchism and literary creations It places anarchism at the center of analysis and criticism Authors examined include Octavia Butler John Fowles James Joyce Ursula LeGuin Eugene O'Neill B Traven and Oscar Wilde among others The collection shows the richness of anarchist movements in politics and culture *Specters of Anarchy* examines critically the generally overlooked intersections engagements debates and controversies between literature and criticism and anarchist theories and movements historically and in the present period Synthesizing literary criticism with the theory and practice of anarchism this book offers a re-reading of important literary and political works Anarchist politics is a major and growing contemporary movement yet the lack of informed analysis has meant that the actual perspectives desires and visions of this movement remain obscured Lost in recent sensationalist accounts are the creative and constructive practices undertaken daily by anarchist organizers imagining a world free from violence oppression and exploitation An examination of some of these constructive anarchist visions which provide examples of politics grounded in everyday resistance offers insights into real world attempts to radically transform social relations in the here and now of everyday life

Suicide Century Andrew Bennett, 2017-10-05 *Suicide Century* investigates suicide as a prominent theme in twentieth century and contemporary literature Andrew Bennett argues that with the waning of religious and legal prohibitions on suicide in the eighteenth and nineteenth centuries and the increasing influence of medical and sociological accounts of its causes and significance in the twentieth century literature responds to the act and idea as an increasingly normalised but incessantly baffling phenomenon Discussing works by a number of major authors from the long twentieth century the book explores the way that suicide makes and unmakes subjects assumes and disrupts meaning induces and resists empathy and insists on and makes inconceivable our understanding of ourselves and of others

The Dedalus Book of Literary Suicides Gary Lachman, 2024-05-20 Lachman's goal to write a book on writers who had killed themselves or had tried to or had written about suicide at some length or depth would be immense To qualify the author requires the suicide to be in some way interesting Thus we have the philosopher Philipp Mainländer who killed himself because of the second law of thermodynamics Zeno who purportedly hanged himself after stubbing his toe on a turtle and Yukio Mishima's sensational and bloody hara kiri performance Suicides are arranged by type Existential suicides brought on by metaphysical issues emotionally rich Romantic suicides political suicides manic depressive mortal coil shuffling à la Sylvia Plath and the bizarre and often nonchalant suicides of many Surrealists Lachman focuses on little known or forgotten

characters such as Polish avant garde figure Witkacy Thomas Chatterton the original tragic Romantic genius narcissistic publisher Harry Crosby and the tormented Austrian poet Georg Trakl The second part of Dead Letters is a selection of writings about suicide whose real value lies in Lachman's research and his knack of smoothly relating obscure biographical tidbits and philosophical ideas This work on a grim subject never becomes overly morbid and Lachman remains respectful of his troubled subjects Suicide is not recommended but this volume surely is Splendid summary of self destruction Mike Pursley in Fortean Times The Shock of History: Religion, Memory, Identity Dominique Venner, 2015-08-06 The shock of history we live it neither knowing or comprehending it France Europe and the world have entered into a new era of thought attitudes and powers This shock of history makes clear the fact that there is no such thing as an insurmountable destiny The time will come for Europe to awaken to respond to the challenges of immigration toxic ideologies the perils of globalism and the confusion that assails her But under what conditions That is the question to which this book responds Conceived in the form of a lively and dynamic interview with a historian who after taking part in history himself never ceased to study and reflect upon it In this text the first of his major works to appear in English Dominique Venner recounts the great movements of European history the origin of its thought and its tragedies He proposes new paths and offers powerful examples to ward off decadence and to understand the history in which we are immersed and in which we lead our lives **Depression and Suicide** J.P. Soubrier, J. Vedrinne, 2016-06-06 Depression and Suicide **Encyclopedia of Lesbian and Gay Histories and Cultures** George Haggerty, Bonnie Zimmerman, 2003-09-02 Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology this Encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavours While gays and lesbians have shared many aspects of life their histories and cultures developed in profoundly different ways To reflect this crucial fact the Encyclopedia has been prepared in two separate volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered Written by some of the most famous names in the field as well as new researchers this is intended as a reference for students and scholars in all areas of study as well as the general public

Five Lessons on the Psychoanalytic Theory of Jacques Lacan Juan-David Nasio, 1998-01-01 In this first English translation of a classic text by one of the foremost commentators on Lacan's work Nasio eloquently demonstrates the clinical and practical import of Lacan's theory even in its most difficult or obscure moments Five Lessons on the Psychoanalytic Theory of Jacques Lacan is the first English translation of a classic text by one of the foremost commentators on Lacan's work Juan David Nasio makes numerous theoretical advances and eloquently demonstrates the clinical and practical import of Lacan's theory even in its most difficult or obscure moments What is distinctive in the end about Nasio's treatment of Lacan's theory is the extent to which Lacan's fundamental concepts the unconscious jouissance and the body become the locus of the overturning or exceeding of the discrete boundaries of the individual The recognition of the of the implications of Lacan's

psychoanalytic theory then brings the analyst to adopt what Nasio calls a special listening Historical Dictionary of French Literature John Flower,2013-01-17 Almost all of us know French literature even if we don't know French because it is probably the second largest and certainly the most translated into English And even if we don't read we would have seen film and television versions think Count of Monte Cristo and even a musical rendition Les Mis So this is a particularly interesting volume in the literature series since it covers French literature from the earliest times to the present It is also a particularly rich literature espousing every genre from poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands with recently strong feminist and gay strains Obviously the core dictionary section includes among its panoply of often substantial and detailed entries hundreds of authors dozens of significant works the various styles mentioned above and many others events that have impacted literature such as the Dreyfus Affair and the Algerian War and literary prizes The chronology manages to cover about 1 200 years of literary output And the introduction sets it all out neatly from one historical and literary period to the next The bibliography broken down by period and author directs us to further reading in both French and English Grieving a Suicide Albert Y. Hsu,2017-07-04 Albert Y Hsu wrestles with emotional and spiritual questions surrounding suicide ultimately pointing survivors to the God who offers comfort in our grief and hope for the future This revised edition now includes a discussion guide for suicide survivor groups Jacques Lacan & Co Elisabeth Roudinesco,1990-10-29 Roudinesco provides a finely drawn map of the intellectual debates within French psychoanalysis especially under the influence of the German emigré s during the 1930s and 1940s She is a good historian in that she provides not only a narrative history but also extensive passages from Lacan's own oral history interviews with the various figures so that we have not only her commentary but some flavor of the original documentation Many of the quotes are gems Sander Gilman Bulletin of the History of Medicine

Dostoevsky's Polyphonic Talent Joe E. Barnhart, 2005 This book illuminates the connectedness of Dostoevsky's literary art with his philosophical and psychological brilliance Two Fyodor Dostoevsky conferences originating at the University of North Texas set the stage for this volume Scholars contributed original papers focusing on how Dostoevsky's literary art and philosophical insights enrich one another Fyodor Dostoevsky wrote and thought polyphonically His polyphonic method is both his special literary technique and his distinctive way of probing theological social and philosophical depths As Bakhtin and Terras suggest all Dostoevsky's major literary inventions from the underground man to the vitriolic Grushenka are products of his ability to listen profoundly to his own characters Like the genius author redactor of 1 and 2 Samuel he reports the heights and depths of human emotion and behavior whether exploring the anatomy of dysfunctional families making the heart soar with Zosima's vision of forgiveness or giving Ivan Karamazov full rein to challenge theism Dostoevsky's characters transform themselves into irregular verbs whose fierce independence emerges only because of their desperate and inescapable interdependence His major characters are text subtext and context for each other They play inside each other's head and answer in one way or another
