Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc William Jerdan, William Ring Workman, Frederick Arnold, John Morley, Charles Wycliffe Goodwin, 1830 *Publishers' Circular and General Record of British and Foreign Literature, and Booksellers' Record*, 1873 **The Literary Gazette**, 1836 **The Poems of Anna Letitia Barbauld** Mrs. Barbauld (Anna Letitia), 1994-01-01 This volume brings together for the first time all the known poems of English writer Anna Letitia Barbauld 1743 1825 a once esteemed but long neglected figure whose career spanned the Age of Sensibility and the Romantic Era William McCarthy and Elizabeth Kraft have collected 170 of her poems including twenty three previously unpublished and eleven conjectural attributions This is the first scholarly edition of any writings of Barbauld a brilliant woman whose interests ranged from literary criticism to history and affairs of state to children s stories At the end of the eighteenth century Barbauld may well have been the most eminent living poet male or female in Britain Barbauld belongs almost equally to two generations Her verse displays an eighteenth century adherence to balance common sense and poetic diction and meter but it also celebrates the individual the passionate and the fanciful in a clearly Romantic manner In the current reconfiguring of Romanticism Barbauld provides an important contrast to the major male poets who have until recently defined the era poets who clearly acknowledged her influence on their own work yet who played a role in Barbauld s lapse into obscurity in the century after her death Coleridge before a serious falling out with Barbauld admired her greatly and Wordsworth confessed that he wished the final eight lines of her poem Life had been of his own composing Walter Savage Landor ranked her Summer Evening s Meditation among the finest poems in the English language Barbauld s poems have retained their capacity to delight readers they are witty learned imaginative and unpredictable in both choice and treatment of subject Read as a whole this collection reveals a striking variety of style and voice and provides the basis for a major and long overdue reevaluation of Barbauld s poetry McCarthy and Kraft present unmodernized texts of the poems that reflect as nearly as possible the author s final intention and give variant readings in textual notes A lengthy introduction includes a discussion of the poems a history of their composition and publication and an outline of Barbauld s life and writing career *The Publishers' Circular and General Record of British and Foreign Literature*, 1889 **An Introduction to the Critical Study and Knowledge of the Holy Scriptures**, 1839 **Serial Forms** Clare Pettitt, 2020-06-04 Serial Forms The Unfinished Project of Modernity 1815 1848 proposes an entirely new way of reading the transition into the modern It is the first book in a series of three which will take the reader up to the end of the First World War moving from a focus on London

to a global perspective Serial Forms sets out the theoretical and historical basis for all three volumes It suggests that as a serial news culture and a stadial historicism developed together between 1815 and 1848 seriality became the dominant form of the nineteenth century Through serial newsprint illustrations performances and shows the past and the contemporary moment enter into public visibility together Serial Forms argues that it is through seriality that the social is represented as increasingly politically urgent The insistent rhythm of the serial reorganizes time recalibrates and rescales the social and will prepare the way for the 1848 revolutions which are the subject of the next book By placing their work back into the messy print and performance culture from which it originally appeared Serial Forms is able to produce new and exciting readings of familiar authors such as Scott Byron Dickens and Gaskell Rather than offering a rarefied intellectual history or chopping up the period into Romantic and Victorian Clare Pettitt tracks the development of communications technologies and their impact on the ways in which time history and virtuality are imagined
