Wittgenstein's Religious Point of View Tim Labron,2006-09-01 Wittgenstein once said I cannot help seeing every problem from a religious point of view However since he never advocated any one religion many people have wondered just what this religious point of view could be This book answers this question by clarifying the overall nature s of his philosophies the early and the later and then by exploring the idea of a religious point of view as an analogy for a philosophy As a result the author reveals the concordance between the later Wittgenstein and central aspects of Hebraic thought Although perhaps this ought not to be surprising Wittgenstein himself described his thought as one hundred per cent Hebraic the truth of the matter has been obscured by popular supposition that Wittgenstein was anti Semitic      Unity ,1928      **Sociology of Religion** Roberto Cipriani,2020-10-28 In adopting an international perspective that goes beyond the conventional framework of western theology this volume bridges the divide between European and North American scholars through its careful retrieval of their common theoretical and research interests Cipriani provides a critical analysis of both classical thought and contemporary currents in this readable text aimed at both experts and students He has achieved a broadening in the scientific approach to the study of religion      **Peacebuilding in Pakistan** Heike Ruhland,2019 When Pakistan was carved out of India in 1947 as a homeland for the Muslims of the subcontinent it was envisioned as a secular state where non Muslims would be granted freedom of religion and equal citizenship However the subsequent historical events led to a fast Islamization of nearly every part of public life and discrimination against the country s religious minorities who today make up less than 4 per cent of the overall population Based on extensive field work involving more than 100 non structured qualitative interviews this study explores the situation of the religious minorities and the dynamics of interfaith peacebuilding in the Islamic Republic of Pakistan Primary focus was laid on the practice of interfaith dialogue which given the draconic blasphemy laws differs from interfaith dialogue as conceived of in the West Additionally other peacebuilding measures as offered by various non governmental organizations were taken into account be they advocacy promotion of human rights and unbiased education or policy negotiation with the government Heike Ruhland holds two master s degrees one in Islamic Studies University of Zurich and one in International Information Management University of Hildesheim She attained her PhD from the Academy of World Religions University of Hamburg      Philosophy of Religion Louis J. Pojman,2008-11-19 Covering the major issues of the field succinctly and lucidly this text takes an analytically rigorous approach and makes it accessible in presentation Pojman writes from an impartial perspective presenting various options and points of view while guiding students in their own search for truth within these often emotion laden crucial issues The text includes original discussions of religious experience the possibility that hope is an adequate substitute for belief and the relationship between ethics and religion      *The New Religious Humanists* Gregory Wolfe,1997 In Gregory Wolfe s collection *The New Religious Humanists* we find the work of a

new group of religious intellectuals who have a compelling vision for cultural renewal In his Introduction Wolfe argues that the only viable alternative to the tired debates between Left and Right comes from one of the oldest and most relevant strains of the Judeo Christian tradition The writers and topics gathered here offer a rich feast for the mind and heart including moving personal narratives meditations on the role of faith in public life and reflections on environmentalism abortion biotechnology and the arts

New World Metaphysics Giles Gunn,1981-06-04 From the days of discovery when America was for Europeans more dream than reality to our own days of disillusionment and faltering hope poets philosophers historians novelists and theologians have drawn on religious themes and images to express the meaning of their encounter with America Here in more than one hundred selections is the record of their quest for a New World metaphysics a spiritual vision or ultimate idea of order expressive of the American experience

**John Hick's Religious Pluralism in Global Perspective** Sharada Sugirtharajah,2023-01-01 This volume contains fresh scholarly contributions to mark the birth centenary of John Hick the internationally well known philosopher of religion whose works continue to have significant global relevance in today's religiously diverse and conflict ridden world His writings have reset the parameters of religious pluralism Up till now Hick's religious pluralism has been mainly seen in relation to the Western context where Christianity is the predominant religion This volume includes both Western and non Western engagement with his thinking in contexts such as Japan China Korea Nigeria and India where Christianity is a minority religion with little political power Its distinctiveness lies in widening the debate on religious pluralism by bringing Hick's pluralistic hypothesis into a constructive cross cultural and interreligious conversation with scholars of Hinduism Jainism Daoism Judaism Christianity Islam and African traditional religions In doing so this collection examines how Hick's philosophy of religious pluralism has been received appropriated and appraised by these scholars It has been appreciated and critiqued in equal measure and continues to impact on current thinking on religious pluralism This volume makes a significant contribution to the debate initiated by Hick

**Defending the Faith** George L. Berlin, 2012-02-01 America provided the Jews with a new kind of historical experience Within a largely welcoming legally equal society a new and more positive Jewish perception of Christianity would seem to have been a natural development However traditionalists such as Isaac Leeser emphasized the differences between the two religions assuming an outsider stance with regard to American culture In contrast Reformists identified the highest ideals of both Christianity and America with Judaism They portrayed Jesus as a Jew who taught nothing contrasting Jewish belief To the Reformers Jews were the Americans par excellence This book demonstrates that these Jewish writings on Christianity and Jesus are not a matter of interest so much for their theological content but more importantly for their exposition of the struggle within the Jewish community to define its relationship to American culture and society **The Publishers' Trade List Annual**, 1959
