Gun Violence in America Alexander DeConde, 2003 An in depth analysis of the folklore surrounding gun use and the state of the debate in today's political climate [Guns, Crime, and Punishment in America](#) Bernard E. Harcourt, 2003-07 Guns Crime and Punishment in America assembles a diverse group of the nation's leading authorities on guns and gun violence to present the most up to date research currently available Exploring such controversial issues as gun tracing initiatives the possible extension of the Brady Bill gun oriented policing federal law enforcement initiatives such as Project Exile and civil litigation against gun manufacturers Guns Crime and Punishment in America embarks upon a more balanced and nuanced discussion about firearms Though the book's contributors operate from a wide variety of political perspectives and methodological approaches a central desire unifies the

book to end the extreme polarization that currently characterizes the debate on guns and generate reasonable and practical gun policies in the United States Contributors Sara Sun Beale Anthony A Braga Carl Bogus Jenny Berrien Abigail Caplovitz Philip J Cook Garth Davies Christopher Eisgruber Jeffrey A Fagan Mark Geistfeld James B Jacobs Dan M Kahan David Kairys David B Kopel Sanford Levinson Jens Ludwig Daniel C Richman Jerome H Skolnick Richard Slotkin Chris Winship and Franklin E Zimring

Urban Gun Violence Melvin Delgado, 2021 Urban Gun Violence explains the abuse of automatic weapons and identifies way to mitigate this abuse

The Myth of the Madding Crowd Clark McPhail, Crowd behavior is one of the most colorful but least understood forms of human social behavior This volume is a major contribution to the field of collective behavior with implications for social movement analysis McPhail s critical assessment of the major theories of crowd behavior establishes that whatever their particular limitations and strengths all share a general and serious flaw their explanations were developed without prior examination of the behaviors to be explained Drawing on a wide range of empirical studies that include his own careful field work the author offers a new characterization of temporary gatherings He presents a life cycle of gatherings and a taxonomy of forms of collective behavior within gatherings as well as combinations of these forms and gatherings into larger events campaigns and waves McPhail also develops a new explanation for various ways in which purposive actors construct collective actions

Targeting Guns Gary Kleck, 2017-07-05 This new paperback comprehensively reviews the research evidence on the links between guns violence and gun control and reports results of the author s own research as well In Targeting Guns Kleck follows the line of argument and careful statistical inference of his earlier prizewinning volume Point Blank while updating the literature reviews and statistical information and adding two chapters

Big Bang Norman L. Langer, 2002-01-01 Discusses the debate over gun control and gun rights issues and explores how these issues have effected various societies around the world with an emphasis on teenagers

The North American Trajectory Neil Nevitte, 2017-07-05 North America is steering a new course with the United States Canada and Mexico moving toward continental economic integration This book examines basic value changes that are transforming economic social and political life in these three countries demonstrating that they are gradually adopting an increasingly compatible cultural perspective A narrow nationalism dominant since the 19th century has slowly been giving way to a more cosmopolitan sense of identity As old economic boundaries become outmoded a North American perspective makes greater sense To what extent then do the three North American publics I each with its own heterogeneities and tensions share a common culture That question can only be answered if we have some yardstick by which to measure their cultural similarity These societies are far from identical But data from the 1990 1991 World Values survey drawn from 43 societies around the world show that on crucial topics the core values of the American public are significantly closer to those of the Canadians and to a somewhat lesser

extent to those of the Mexicans than they are to those of most other peoples in the world Furthermore time series evidence indicates that the values of the three North American publics have been converging This book draws on a unique body of directly comparable cross national and cross temporal survey evidence to show that what Americans Canadians and Mexicans want out of life is changing in analogous ways These changes coupled with sociostructural transformations are reshaping peoples feelings about national identity about trusting each other and about the balance between economic and non economic goals North American economic integration is being reinforced by the gradual emergence of increasingly similar cultural values

Gun Control in the United States Gregg Lee Carter, 2017-01-23 This up to date second edition work will stimulate and clarify readers thinking on the key issues surrounding guns in the United States especially on the debate over gun control Most public debate and discussion about guns in U S society is rarely guided by research not surprising as most individuals have a personal opinion on this highly inflammatory topic based on their upbringing or personal experiences Additionally most research about gun use in America is confusing and contradictory making it difficult for citizens to gain much from their attempts to investigate the topic objectively This book offers concise understandable coverage of all aspects of the issue including incidence of gun violence gun control gun rights government regulation legislation and court decisions gun organizations for gun control and for gun rights gun enthusiast subcultures for example hunters target shooters and collectors and U S attitudes toward guns Many of the covered topics are placed in historical and cross cultural perspective The new edition of Gun Control in the United States A Reference Handbook enables the reader to navigate and interpret the research to become sufficiently educated on any specific aspect of the gun issue to make an informed decision for example whether to support stricter or more lenient gun control whether to become a gun owner whether to support a particular political party or candidate or whether to develop or to refine a particular philosophy regarding guns Other aspects of the contemporary gun debate that are addressed include whether the Supreme Court s ruling that the Second Amendment guarantees an individual right will withstand future challenges whether the strong gun regulations used in Europe would be effective and applicable in reducing gun violence in the United States and whether the diversity explosion created by the high rate of immigration from countries where guns are strictly controlled will soon change the politics of the U S gun control debate

Theory on Gender Paula England, 1993-01-01 How do various social theories explain gender inequality Are these theories infused with masculinist biases that need to be redressed with insights from feminist theory To address these questions this collection of original essays features prominent sociologists discussing the strengths and the limitations of the theoretical traditions within which they have worked Among the theoretical perspectives included are those of Marxism world system theory macrostructural theories rational choice theory neofunctionalism psychoanalysis ethno methodology

expectation states theory poststructuralist symbolic interactionism and network theory Each of the chapter length essays of the first two sections provides an overview of the theory explains its implications for gender inequality reviews empirical research and comments upon sexist biases or other limitations of the perspective The final section contains chapters on feminist debates over methodology critical commentaries on the preceding papers by four feminist scholars and replies by the original authors

Challenges for Work and Family in the Twenty-First Century Dana Vannoy, Paula Dubeck, Stimulated by unprecedented and complex changes in the nation's social landscape the fourteen original papers in the present volume attempt to recast our approach to existing institutional arrangements between family and economy The authors set the stage for redefinitions that give meaning and place to individuals thus serving broader social goals

Nonprofit Organizations in an Age of Uncertainty Joseph Galaskiewicz, Wolfgang Bielefeld, The purpose of this panel study of nonprofit organizations in the metropolitan area of Minneapolis St Paul Minnesota over the period from 1980 to 1994 is to explain why some nonprofit organizations grew and others shrank and why some NPOs survived and others died during this decade and a half The authors are particularly concerned with the different tactics or strategies employed by the NPOs and the consequences that these choices had for the organization

Gun Culture or Gun Control? Peter Squires, 2012-12-06 In 1996 the shooting and killing of 16 young children in a Dunblane primary school provoked wide reaching parliamentary reform to British gun laws Within months virtually all privately owned handguns had been outlawed Gun Culture or Gun Control presents the first substantial analysis of the social and political reactions to events in Dunblane and also examines many of the wider issues relating to gun control in the United Kingdom Rigorously comparative throughout Peter Squires provides a non partisan exploration of the differences between attitudes to firearms and their control in Britain and in the United States Amongst the topics the author considers are the social history of firearms on both sides of the Atlantic the differing policy directions adopted in Britain and the USA media coverage of the gun question firearms and policing the future of the gun in society

Guns in American Society Gregg Lee Carter, 2012-05-04 Thoroughly updated and greatly expanded from its original edition this three volume set is the go to comprehensive resource on the legal social psychological political and public health aspects of guns in American life The landmark 2002 edition of Guns in American Society An Encyclopedia of History Politics Culture and the Law was acclaimed for helping readers get beyond the sometimes overheated rhetoric and navigate the overwhelming amount of unbiased academic research on gun related issues Now in light of the steady rate of gun violence and several high profile shooting incidents this extraordinary three volume work returns in a timely and thoroughly updated edition With over 100 new entries the latest edition of Guns in American Society is the most current resource available on all aspects of the gun issue including rates of violence gun control gun rights regulations and legislation court decisions pro and anti gun organizations gun ownership hunters and collectors public opinion toward guns and much more With expert contributions from the fields of criminology history law medicine

politics and social science it gives students journalists policymakers and researchers a foundation for their own investigations while helping readers of all kinds make decisions as family members potential gun owners and voters **Gun Control and the Constitution** Robert J. Cottrol, 2023-06-14 First Published in 1993 This volume is a collection of legal and historical material of the second amendment that includes court cases and decisions law review articles and gives a balanced view of both sides of the debate **Beside the Golden Door** James D. Wright, Beth A. Rubin, Joel A. Devine, Written for the general public as well as for specialists this volume details some of the numerous dimensions of the homelessness issue the rise in poverty the decline of low income housing problems in counting the homeless the role of familial estrangement mental illness substance abuse and health status and behaviors The authors conclude with discussions of rural versus urban homelessness street children in Latin America and homelessness in postindustrial societies
