Doyle KStJ DL 22 May 1859 *The Poison Belt* Arthur Conan Doyle, 2020-11-08 Challenger sends telegrams asking his three companions from The Lost World Edward Malone Lord John Roxton and Professor Summerlee to join him at his home outside London and instructs each of them to bring oxygen On arrival they are ushered into a sealed room along with Challenger and his wife In the course of his researches into various phenomena Challenger has predicted that the Earth is moving into a belt of poisonous ether which based on its effect on the people of Sumatra earlier in the day he expects to stifle humanity Challenger seals them in the room with cylinders of oxygen which he correctly believes will counter the effect of the ether The five wait out the Earth's passage through the poison belt as they watch the world outside die and machines run amok

According to Victorian values or to Doyle's understanding of them Challenger's servants are left outside the sealed room and they continue to perform their duties until the ether overtakes them. Finally the last of the oxygen cylinders is emptied and they open a window ready to face death. To their surprise they do not die and conclude the Earth has now passed through the poison belt. They journey through the dead countryside in Challenger's car finally arriving in London. They encounter only one survivor an elderly bed-ridden woman prescribed oxygen for her health. After returning to Challenger's house they discover that the effect of the ether is temporary and the world reawakens with no knowledge that they have lost any time at all. Eventually Challenger and his companions manage to convince the world what happened a task made easier by the tremendous amount of death and destruction caused by runaway machines and fires that took place while the world was asleep and humanity is shocked into placing a higher value on life.

Arthur Conan Doyle 22 May 1859 - 7 July 1930 was a Scottish writer and physician most noted for creating the fictional detective Sherlock Holmes and writing stories about him which are generally considered milestones in the field of crime fiction.

The Lost World and the Poison Belt Arthur Conan Doyle, Sir, Paul-Thomas Ferguson, Trace Davis, Lucas Heinemann, Teresa Johnston, 2013-05-18

The Lost World is an adventure story centered on the discovery of a prehistoric land deep within the Amazon populated by various species of dinosaurs as well as ancient humanoids. The Poison Belt while containing all of the principle characters featured in The Lost World bears striking dissimilarities from its predecessor. Most notably while The Lost World depicts a dangerous expedition into unknown jungle lands The Poison Belt while still featuring dangers largely takes place in Professor Challenger's home during what the characters believe to be a world-ending event. Each story raises questions about the role of science in an increasingly modern world presented with the slyly humorous approach Conan Doyle revealed in so many of his great works.
