Poison By Prescription The Azt Story:

Poison by Prescription John Lauritsen, 1990 Es handelt sich hier um eine Sammlung von Artikeln aus dem New York Native in denen behauptet wird AZT sei eine hochgiftige Droge und es gebe überhaupt keine wissenschaftlichen Beweise für eine Wirksamkeit Zudem sei sie auch nur dank Fälschungen und Korruption in den Kliniken zugelassen worden Fazit Wieder einmal eine dieser Verschwörungstheorien die letztlich nie schlüssig bewiesen werden können [The Medical-Pharmaceutical Killing Machine](#) Children's Health Defense, 2024-11-26 Medical and pharmaceutical history is replete with examples of dangerous interventions that have poisoned injured or killed However events since 2020 have attracted attention as never before to medicine's potential to be both lethal and malevolent In The Medical Pharmaceutical Killing Machine Children's Health Defense situates current perils in their broader context with the aim of helping readers understand how to protect themselves and their loved ones In the Greek Trojan War saga the god Apollo ensured that Cassandra's prophecies would never be believed with disastrous consequences As recounted in the book modern medicine too has produced its fair share of medical Cassandras doctors and writers who have tried to warn the public about medicine's life threatening underbelly generally to little avail A chapter dedicated to nine of these medical skeptics beginning with Ivan Illich and his coining of the term iatrogenesis to describe adverse outcomes caused by doctors weaves a powerful portrait of harms regularly denied and ignored with those making the claims typically marginalized and canceled The book shows that there is no shortage of tools in the killing machine arsenal One chapter highlights the mRNA vaccine technology inaugurated with COVID illustrating how this new mechanism for iatrogenesis is inflicting novel forms of toxicity not all of which are yet understood Another chapter about assisted suicide and euthanasia describes the chilling global proliferation of policies and propaganda promoting those practices for vulnerable populations that include babies children people diagnosed with autism and the mentally ill The book also describes factors that make it possible for the killing machine to continue operating with impunity including the ascendance of an evidence based medicine juggernaut medical gaslighting and a ballooning global enforcement infrastructure Nor does it shy away from confronting what some now characterize as iatrogenocide a chapter asking Why Do They Do It considers money prestige and control as three possible answers Ultimately it is only by acknowledging the long standing reality of an all too effective medical pharmaceutical killing machine that people can learn to dodge the threats and work toward building a different model that prioritizes life and genuine health **Limited Boxed Set: The Real Anthony Fauci** Robert F. The Silent Revolution in Cancer and AIDS Medicine Heinrich Kremer,2012-09-10 Examining all the major research data since the 1940s this book challenges two orthodox medical models HIV as the cause of AIDS and random genetic mutations as the cause of cancer Based on the recent findings from Evolutionary Biology and Nitric Oxide research it presents a fundamentally new understanding of the human cell its double genome split between the cell nucleus and the mitochondria and the role of energy production and signal modulation for immune reactions and carcinogenesis Finally it explains the concept of a new Cell Symbiosis Therapy for the treatment of all chronic diseases including cancer Now available in English for the first time this book is a must read for doctors patients and anyone following the cutting edge of biology and immunology With the blasting open of such doors of knowledge the medical world will never again be the same Heinrich Kremer MD Medical Director Emeritus was from 1968 1975 head of social therapy for addicts sexual offenders and people with personality disorders at the Berlin Tegel prison which was the pilot project for the reform of the German penal system In 1988 he resigned as medical director of a model clinic specializing in youth drug addiction due to differences on medical ethics regarding the HIV test and AIDS therapy From 1993 1999 as collaborating member of the Study Group for Nutrition and Immunity Bern he investigated together with Prof Alfred H ssig the mechanisms occurring in AIDS defining illnesses and in cancer Since the publication of this book in German in 2001 he has been in demand as a lecturer on the

Adult Homosexuality Gay and Lesbian Teachers and Coming Out Homosexuality Marriage Fidelity and the Gay Community
Case of Gay Husbands Can Seduction Make Straight Men Gay Gay and Lesbian Identities in Non industrialized Societies
Surinam Dutch New Guinea Turkey Nicaragua and Argentina Political Economic Construction of Gay Male Identities
Readers will clearly see that the controversy over the being born gay or becoming gay debate is far from resolved From the beginning
the book explores how human beings are less constrained by biology than many would like to believe Social circumstances
and economics cause some determination of identity but not exclusively Theoretical introductions to each chapter attempt to
synthesize elements on both sides of this most contemporary debate

Narratives Steven F. Kruger,2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS
 crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as
 the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with
 AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the
 one hand AIDS is seen as an invariably fatal weakening of an individual s bodily defenses a depiction often used to reconfirm
 an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an
 epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one

major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it
