yet leisure travel is more than just economically important. It plays a vital role in defining who we are by helping to place us in space and time. In so doing it has aesthetic, medical, political, cultural and social implications. However, it hasn't always been so. Tourism as we know it is a surprisingly modern thing, both a product of modernity and a force helping to shape it. *A History of Modern Tourism* is the first book to track the origins and evolution of this pursuit from earliest times to the present. From a new understanding of aesthetics to scientific change from the invention of steam power to the creation of aircraft from an elite form of education to family car trips to see national shrines, this book offers a sweeping and engaging overview of a fascinating story not yet widely known.

Anthropology, Art and Cultural Production Maruska Svasek, 2007-02-20 This book provides an introduction to anthropological perspectives on art. Svasek defines art as a social process. We study not only the artefacts themselves and the values attributed to them but also the process of production and its wider context. Providing a critical overview of various anthropological theories of art, Svasek offers a new perspective which centres on the analysis of commoditisation, aestheticisation and object agency. She explores the process of collecting and exhibiting art works and how this relates to art's production, distribution and consumption in an increasingly global market. The book outlines the significance of art and aesthetics in everyday life and examines the shifting boundaries between art and other categories such as kitsch, souvenirs, propaganda and pornography. Finally, Svasek argues for an anthropological perspective that links the production and consumption of artefacts to political, religious and other cultural processes. Ideal as a teaching text, this book gives a detailed overview of themes that are central to the fields of art history, art sociology and cultural studies.

A Small Town Near Auschwitz Mary Fulbrook, 2013-09-26 The story of a small town near Auschwitz and of its local Nazi administrator. An ordinary functionary and family man without whose help and those of thousands like him the murderous plans of the Nazi elite could never have been fully realized.

Global Social Archaeologies Koji Mizoguchi, Claire E. Smith, 2019-06-27 *Global Social Archaeologies* contributes to the active engagement of contemporary social archaeology through addressing issues such as postcolonialism, community heritage and Indigenous rights. It addresses the major challenge of breaking down global divides, especially in relation to fundamental human rights, inequality and inequities of wealth, power and access to knowledge. This authoritative volume, authored by the current and past presidents of the World Archaeological Congress, introduces readers to the various theoretical and methodological tools available for the investigation of the past. Taking into account the implications for contemporary societies, it offers a new framework for social archaeologies in a globalised world. By combining new data from their research with an innovative synthesis and analysis of leading research by others, the authors have developed fresh conceptualisations and understandings of archaeology as a social practice and of the ways in which it simultaneously straddles the past, present and future. Exploring a range of case studies and enhanced by a wealth of illustrations, *Global Social Archaeologies* highlights a new approach to archaeology, one that places human rights at the core of archaeological theory and practice.
