Poland In Transition 19891991:

Intermarium Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture

The Political Economy of Transitions to Peace Galia Press-Barnathan, 2009-07-05 Much attention has focused on the ongoing role of economics in the prevention of armed conflict and the deterioration of relations In *The Political Economy of Transitions to Peace* Galia Press Barnathan focuses on the importance of economics in initiating and sustaining peaceful relations after conflict Press Barnathan provides in depth case studies of several key relationships in the post World War II era Israel and Egypt Israel and Jordan Japan the Philippines and Indonesia Japan and South Korea Germany and France and Germany and Poland She creates an analytical framework through which to view each of these cases based on three factors the domestic balance between winners and losers from transition to peace the economic disparity between former enemies and the impact of third parties on stimulating new cooperative economic initiatives Her approach provides both a regional and cross regional comparative analysis of the degree of success in maintaining and advancing peace of the challenges faced by many nations in negotiating peace after conflict and of the unique role of economic factors in this highly political process Press Barnathan employs both liberal and realist theory to examine the motivations of these states and the societies they represent She also weighs their power relations to see how these factor into economic interdependence and the peace process She reveals the predominant role of the state and big business in the initial transition phase cold peace but also identifies an equally vital need for a subsequent broader societal coalition in the second normalizing phase warm peace Both levels of engagement Press Barnathan argues are essential to a durable peace Finally she points to the complex role that third parties can play in these transitions and the limited long term impact of

International Trade and Restructuring in Eastern Europe

János Gács, 2013-11-11 János Gács and Georg Winekler In recognition of the key position of international trade in the transition and the need for concentrated discussions of topical trade issues the International Institute for Applied Systems Analysis IIASA organized an international conference on International Trade and Restructuring in Eastern Europe which took place in Laxenburg Austria on 19 and 21 November 1992 The Austrian National Bank joined IIASA to co sponsor the event Participants of the conference were experts of international economics and trade policy from East and West policy makers and representatives of international organizations like the IMF the Commission of the European Communities the OECD and the European Bank for Reconstruction and Development EBRD The papers prepared for the event and the lively discussions during the conference itself prove that the topics are intellectually challenging and timely for policy makers It has widely been recognized that international economic relations play a crucial role in the transition of countries of Central and Eastern Europe The scope speed and success of the efforts to transform the formerly centrally planned economies to market economies have increasingly become dependent on the pattern these countries have in their relation to the rest of the world Transition comprises three major processes macro stabilization marketization and restructuring The success of these three hinges to a large extent on the response of these economies to the new conditions set by international trade and exchange regimes

Progressive Corporate Governance for the 21st Century Lorraine Talbot, 2013-06-03 Progressive Corporate Governance for the 21st Century is a wide ranging and ambitious study of why corporate governance is the shape that it is and how it can be better The book sets out the emergence of shareholder primacy orientated corporate governance using a study of historical developments in the United Kingdom and the United States Talbot sees shareholder primacy as a political choice made by governments not a natural feature of the inevitable market She describes the periods of progressive corporate governance which governments promoted in the middle of the 20th century using a close examination of the theories of the company which then prevailed She critically examines the rise of neoliberal theories on the company and corporate governance and argues that they have had a negative and regressive impact on social and economic development In examining contemporary corporate governance she shows how regulatory styles as informed and described by prevailing

regulatory theories enables neoliberal outcomes She illustrates how United Kingdom derived corporate governance codes have informed the corporate governance initiatives of European and global institutions From this she argues that neoliberalism has re entered ex command transition economies through those United Kingdom and OECD inspired corporate governance Codes over a decade after the earlier failed and destructive neoliberal prescriptions for transition had been rejected Throughout Talbot argues that shareholder primacy has socially regressive outcomes and firmly takes a stand against current initiatives to enhance shareholder voting in such issues as director remuneration The book concludes with a series of proposals to recalibrate the power between those involved in company activity shareholders directors and employees so that the public company can begin to work for the public and not shareholders *Poland's Security Policy* Justyna Zajac, 2016-11-02 This book examines how the changing post Cold War order affected Poland s security policy and particularly how the West s weakening position and Russia s revisionist policy reinforced the traditional view of security in Poland It addresses the reasons why Poland a middle power in Central Europe adopted a bridging strategy in the early 1990s how this strategy changed along with the redistribution of power in the international system why after the 2008 Georgian Russian War Poland took steps to support NATO consolidation strengthen relations with the USA and expand its own military capabilities and how the Ukraine crisis affected Poland s security This overview is an invaluable resource for students of international and European studies security studies political science as well as for decision makers politicians EU staff and anyone interested in international politics in Central Europe *Poland's Foreign Policy After 1989* Roman Kuźniar, 2009 This is the first monograph that examines Polish foreign policy since 1989 Author Roman Kuzniar focuses on the main challenges of the period in question regaining sovereignty and establishing a solid foundation for Poland s security as well as Poland s economic and civilizational development The successes in these areas made Poland regain the freedom to operate in the international arena Kuzniar combined a regular lecture on foreign policy with his critical commentary As Kuzniar states This book is concerned with the real foreign policy i e the one that Poland has actually been pursuing the positive policy rather than the postulated one What this is not then is a study of accompanying concepts options criticisms or debate While always interesting and at times fascinating these threads are only referred to intermittently here **The Politics of Labor in a Global Age** Christopher Candland, Rudra Sil, 2001 This volume features essays on labour relations at national local and workplace levels as economic and political actors cope with the similar challenges associated with economic adjustment measures and the impact of globalization Expanding European Unity - Central and Eastern Europe, 2023-08-14 Since the fall of the Berlin wall in 1989 the former Communist countries of Central and Eastern Europe have been pushing for a quick return to Europe The project of expanding European unity is in full progress however so far none of the former Soviet bloc countries have been able to join the European Union Technical problems related to financial management and administrative matters still have to be overcome but more fundamental issues are also at stake what are the borders of Central and Eastern

Europe And will the eastward expansion of the European Union be conducted on the basis of western images and stereotypes of the East This volume examines the state of affairs after ten years of attempts to further enlarge the Union Written by authors from the East as well as the West some of the articles focus on the general issue of how to distinguish between Western Central and Eastern Europe while others discuss the specific situation of the countries that are closest to joining the European Union Poland the Czech Republic and Hungary

Europe's Growth Champion Marcin Piatkowski,2018-02-09 What makes countries rich What makes countries poor Europe s Growth Champion Insights from the Economic Rise of Poland seeks to answer these questions and many more through a study of one of the biggest and least heard about economic success stories Over the last twenty five years Poland has transitioned from a perennially backward poor and peripheral country to unexpectedly join the ranks of the world s high income countries Europe s Growth Champion is about the lessons learned from Poland s remarkable experience the conditions that keep countries poor and the challenges that countries need to face in order to grow It defines a new growth model that Poland and its Eastern European peers need to adopt to grow and catch up with their Western counterparts Poland s economic rise emphasizes the importance of the fundamental sources of growth institutions culture ideas and leaders in economic development It demonstrates that a shift from an extractive society where the few rule for the benefit of the few to an inclusive society where many rule for the benefit of many can be the key to economic success IEurope s Growth Champion asserts that a newly emerged inclusive society will support further convergence of Poland and the rest of Central and Eastern Europe with the West and help to sustain the region s Golden Age It also acknowledges the future challenges that Poland faces and that moving to the core of the European economy will require further reforms and changes in Poland s developmental character

Middle Powers and Regional Influence Joshua B. Spero,2018-11-16 In the growing literature on middle powers this book contributes by expanding case study analysis and extending international relations theory in its application to foreign policy decisions Thus this book builds on prominent middle power literature and aims to advance our theoretical understanding for why crucial foreign policies were made by the pivotal middle powers this book examines Poland South Korea and Bolivia For this book s three case studies and their first term leadership s critical junctures from first term post communist Poland post authoritarian post ruling party South Korea and post colonial Bolivia we have the antecedents for contemporary middle powers essential for realizing the regional evolution for cooperative change with greater powers systemically we may then grasp today why those historical foreign policies albeit not so long ago give us crucial antecedents for adapting and trying yet again to resolve seemingly perennial power dilemmas regionally peacefully Here are why middle power impact matters not only regionally for stronger dominant greater power neighbours but also for transformative middle power leaderships which proved pivotal geopolitically for their region s challenges and changes

East Central Europe since 1989 Sabrina P. Ramet,Lavinia Stan,2024-12-12 This groundbreaking treatment of post communist developments in East Central Europe examines politics economics media

religious institutions transitional justice gender inequality and literature highlighting the overt functions latent functions and side effects associated with each sphere Communism in East Central Europe had cracks from the beginning as uprisings in East Germany in 1953 and Hungary in 1956 demonstrated But with the establishment of the Independent Trade Union Solidarity in Poland in the Summer of 1980 communism went into steady decline and between 1988 and 1991 crumbled What followed has been an unsteady transition to various forms of often corrupt pluralism with democracy doing best in the Czech Republic with the exception of the years 2017 2021 and Slovenia and worst in Hungary Albania Serbia and Bosnia Herzegovina Drawing on the functionalist theory of Robert K Merton the authors examine what policymakers communist and post communist were or are trying to accomplish the intended and unintended results of these policies and the side effects they have produced This volume will be of interest not only to specialists in East Central Europe but also to graduate and undergraduate students members of the diplomatic corps and general readers

Central European Constitutional Courts in the Face of EU Membership Allan F. Tatham, 2013-03-27 Central European Constitutional Courts in the Face of EU Membership explores the enduring German legal influence on other systems of constitutional justice concentrating on the impact of the Federal Constitutional Court's approach to EU integration on its counterparts in Hungary and Poland Such a model aims to protect Germany's constitutional identity or essential core of sovereignty the contents of which are not susceptible to transfer or limitation in the face of the requirements of the Union's constitutional legal order The influence of this model on the two Central European courts has encouraged them to take an active part in negotiating the new multilayered judicial construct of Europe Tatham thus firmly places the Hungarian and Polish constitutional courts within the overall context of the continuing dialogue between national courts and the Court of Justice in the evolution of the European constitutional space

Culture and Economy After the Cultural Turn Larry Ray, Andrew Sayer, 1999-10-28 Traditionally social science treated culture as a peripheral issue but the last twenty years have witnessed a cultural turn throughout the social sciences Culture is now at the core of debate Culture and Economy After the Cultural Turn examines the impact of the cultural turn for the social sciences in relation to the decline of interest in economic aspects of society It presents a number of responses to the changing relationship between culture and economy and to the way in which the cultural turn has sought to understand it Contributors from a wide range of disciplines present differing views on these matters in relation to issues of political sensibilities and movements equality and recognition cultural management

OECD Economic Surveys: Poland 1992 OECD, 1992-01-01 OECD's 1992 Economic Survey of Poland examines restructuring the Polish economy macroeconomic developments and policies strengthening the structural framework for growth fostering restructuring in enterprises and strengthening Poland's integration into the world economy

Economic Complexity and Equilibrium Illusion Ping Chen, 2010-04-05 The Principle of Large Numbers indicates that macro fluctuations have weak microfoundations persistent business cycles and interrupted technologies can be better characterized by macro vitality and

meso foundations Economic growth is limited by market extent and ecological constraints The trade off between stability and complexity is the foundation of cultural diversity and mixed economies The new science of complexity sheds light on the sources of economic instability and complexity This book consists of the major work of Professor Ping Chen a pioneer in studying economic chaos and economic complexity They are selected from works completed since 1987 including original research on the evolutionary dynamics of the division of labour empirical and theoretical studies of economic chaos and stochastic models of collective behavior Offering a new perspective on market instability and the changing world order the basic pillars in equilibrium economics are challenged by solid evidence of economic complexity and time asymmetry including Friedman s theory of exogenous money and efficient market the Frisch model of noise driven cycles the Lucas model of microfoundations and rational expectations the Black Scholes model of option pricing and the Coase theory of transaction costs Throughout a general theory based on complex evolutionary economics is developed which integrates different insights from Marx Marshall Schumpeter Keynes and offers a new understanding of the evolutionary history of division of labour This book will be of interest to postgraduates and researchers in Economics including macroeconomics financial economics advanced econometrics and economic methodology
