between them and their two legged neighbors has now shifted This is the icescape that author and geographer James Raffan invites us to inhabit in *Ice Walker* In precise and provocative prose he brings readers inside Nanu s world as she treks uncertainly around the heart of Hudson Bay searching for nourishment for the children that grow inside her She stops at nothing to protect her cubs from the dangers she can see other bears wolves whales human beings and those she cannot By focusing his lens on this bear family Raffan closes the gap between humans and bears showing us how like the water of the Hudson Bay our existence and our future is tied to Nanu s He asks us to consider what might be done about this fragile world before it is gone for good Masterful vivid and haunting *Ice Walker* is an utterly unique piece of creative nonfiction and a deeply affecting call to action
