The Stepmother's Diary Fay Weldon, 2013-11-05 I read my daughter's diaries the other day You may find that despicable but let me share with you You think truly dreadful things only happen in other countries other cultures far away but they also happen in your own back yard and to the nicest people Sappho was so happy when she married Gavin She was in love and it seemed that at last everything was falling into place But she hadn't considered his daughter Isobel She is a delightful charming girl who spends her school holidays caring for the elderly and is the apple of Gavin's eye Now cast in the role of Wicked Stepmother Sappho tries all she can to befriend Isobel and find her place in the new family It's not easy but no one had promised it would be Sappho perseveres But she has a history and the history works against her When it becomes clear that contrary to popular belief it is Isobel who steals Gavin's love and attention and Sappho who must fight for his affection Sappho is at a loss How can she win her husband back With warmth wit and her unique insights into the workings of the female mind Fay Weldon has written a brilliant unsettling new novel about family life today

The Light Ages: The Surprising Story of Medieval Science Seb Falk, 2020-11-17 Named a Best Book of 2020 by The Telegraph The Times and BBC History Magazine An illuminating guide to the scientific and technological achievements of the Middle Ages through the life of a crusading

astronomer monk Falk's bubbling curiosity and strong sense of storytelling always swept me along. By the end *The Light Ages* didn't just broaden my conception of science; even as I scrolled away on my Kindle, it felt like I was sitting alongside Westwyk at St Albans abbey, leafing through dusty manuscripts by candlelight.

Alex Orlando *Discover Soaring Gothic cathedrals, violent crusades, the Black Death*: these are the dramatic forces that shaped the medieval era. But the so-called Dark Ages also gave us the first universities, eyeglasses, and mechanical clocks. As medieval thinkers sought to understand the world around them, from the passing of the seasons to the stars in the sky, they came to develop a vibrant scientific culture.

In *The Light Ages*, Cambridge science historian Seb Falk takes us on a tour of medieval science through the eyes of one fourteenth-century monk, John of Westwyk. Born in a rural manor, educated in England's grandest monastery, and then exiled to a cliff-top priory, Westwyk was an intrepid crusader, inventor, and astrologer. From multiplying Roman numerals to navigating by the stars, curing disease, and telling time with an ancient astrolabe, we learn emerging science alongside Westwyk and travel with him through the length and breadth of England and beyond its shores.

On our way, we encounter a remarkable cast of characters: the clock-building English abbot with leprosy, the French craftsman turned spy, and the Persian polymath who founded the world's most advanced observatory. *The Light Ages* offers a gripping story of the struggles and successes of an ordinary man in a precarious world and conjures a vivid picture of medieval life as we have never seen it before. An enlightening history that argues that these times weren't so dark after all, *The Light Ages* shows how medieval ideas continue to color how we see the world today. *The Entrance*, 1985. [Spacewrecked on Venus and two more stories](#) Neil R. Jones, 2022-11-24. Three action short stories from *The Golden Age of Science Fiction* by Neil R. Jones. Featured here: *Spacewrecked on Venus*, *The Jameson Satellite*, and *Doomsday on Ajiat*.
