Polarities In The Evolution Of Mankind:

Polarities in the Evolution of Mankind Rudolf Steiner, 1987 Steiner unfolds here the spiritual background to many social questions around the theme of the polarities of West and East materialism and mysticism knowledge and belief He makes visible the forces of decline active in modern civilization and how these three are trying to wrest human destiny from the active participation of human beings He presents with profound poignancy how Christ is pouring a new spirit into human evolution *Polarities in the Evolution of Mankind* Rudolf Steiner, 2000-01

Rudolf Steiner and the Founding of the New Mysteries Sergei O. Prokofieff, 2017-06-21 In this revised and expanded edition of his classic debut Sergei O Prokofieff investigates the deepest mysteries of Rudolf Steiner's life and individuality from the years of apprenticeship and the great Sun period to the path of the Teacher of Humanity and the birth of the New Mysteries He discusses the earthly and supersensible aspects of the first Goetheanum the implications of the Christmas Conference of 1923/24 and the Foundation Stone meditation that Steiner left as a legacy to members of the Anthroposophical Society In his very personal Introduction Prokofieff describes in moving detail the events in his life which led to his discovery of anthroposophy whilst living in Communist Russia and how eventually he came to write this extraordinary study of Rudolf Steiner The resulting volume a work of secondary anthroposophical literature unprecedented in its depth and significance was first published in Germany in 1982 meeting with equal amounts of acclaim astonishment and controversy It is published in this paperback edition to mark the 35th anniversary of the original publication The Encounter with Evil and Its Overcoming Through Spiritual Science

Sergei O. Prokofieff, 1999 In our everyday lives we are constantly challenged by the phenomenon of evil in all its many manifestations But how can we cope with this seemingly eternal hindrance In the first of these three essays Prokofieff suggests that we start by developing a knowledge of the forces of evil in order to learn how they work in human evolution Such knowledge is in itself the beginning of the process of overcoming evil In order that members of the Anthroposophical Society might go further along this path Rudolf Steiner gave them the spiritual Foundation Stone of the Good This Foundation Stone which consists of light imaginative form and the substance of love can live in our hearts and souls as a firm foundation for esoteric work and a creative contribution towards the overcoming of evil Ultimately it can lead us to a conscious experience of Christ in the etheric realm of the earth In the second and third essays Prokofieff examines further themes relating to the etheric advent of Christ and its connection with the Foundation Stone of the Good

May Human Beings Hear It! Sergei O. Prokofieff, 2014-03-12 During the Christmas period of 1923/4 Rudolf Steiner refounded the Anthroposophical Society at its headquarters in Dornach Switzerland This important event which has come to be known as the Christmas Conference can be studied on many levels and its many mysteries have been central to Sergei O Prokofieff's anthroposophical research over the years His beginning point has been an enduring question What did Rudolf Steiner mean when he called the Christmas Conference the start of a World Turning point of Time In this far reaching work the author

working from several different viewpoints guides the reader towards an answer Prokofieff suggests that the impulse of the Christmas Conference can only be reenlivened today through conscious action by individuals to experience its spiritual essence Rather than offering dogmatic conclusions he opens up paths of approaching this goal by throwing light on different aspects of the Conference and what lies at its heart the Foundation Stone and its Meditation In particular Prokofieff explores three key perspectives the connection of the Christmas Conference with humanity s evolution the inner relationship of each individual anthroposophist to the Christmas Conference and the significance of the Conference to Rudolf Steiner himself Although this is major work of some length the individual chapters of May Human Beings Hear It are complete in themselves and can therefore be studied independently of each other

Speaking to the Stars Jonathan Hilton,2023-04-05 A New Star Wisdom developed by Willi Sucher from the insights of Rudolf Steiner the great paradox is that the loss of direct spiritual perception of the gods was necessary in evolution so that human beings could fulfill their great task in world evolution According to Rudolf Steiner this task is that we become beings of freedom and of the love that is born out of that freedom This means that the experience of separation from the divine unique to humanity among all beings has the possibility not the predetermination to establish something new in the cosmos a rank of beings who freely choose to participate with the divine plan out of the love born from that freedom from the book Based on the author s comprehensive video course on star wisdom astrosophy this book presents a thorough introduction to star wisdom as inaugurated by the spiritual philosopher Rudolf Steiner and the pioneer of astrosophy Willi Sucher whose work and methods Jonathan Hilton has studied practiced and developed for many years Beginning with the basics Hilton takes the reader through an introductory course on astrosophy from understanding and working with the zodiac and planetary spheres to actual chart construction and to the spiritual significance and deeper meaning behind practical astrosophy and its potential for one s own inner development In the process he also brings a historical perspective and carefully draws important distinctions between today s popular astrology and the esoteric basis for an approach to star wisdom as viewed and developed through spiritual science Also included in this course on astrosophy are numerous statements from the works of Rudolf Steiner on our human relationship to the stars zodiac and cosmos This is an essential guide for anyone who wants to begin a study of this discipline and spiritual path through the stars Liberally illustrated with more than seventy color and black and white images
