

Police and Medical Co-operation in the European Union

Dr. R. van der Wal, *Forensic Department,
University Hospital Groningen, Groningen, The Netherlands*

Received 12 November 1998; accepted 12 November 1998

ABSTRACT

Co-operation of police and forensic medicine is essential for the investigation of criminal cases. The author describes the co-operation of police and forensic medicine in the Netherlands and in the European Union.

KEY WORDS: forensic medicine, police, co-operation, European Union

INTRODUCTION

Police and forensic medicine are two professions that are closely related. The police investigate criminal cases and the forensic medicine provides the police with the necessary medical knowledge and skills to solve these cases. The police and forensic medicine are both essential for the investigation of criminal cases. The author describes the co-operation of police and forensic medicine in the Netherlands and in the European Union.

THE NETHERLANDS

In the Netherlands, the police and forensic medicine are closely co-operated. The police investigate criminal cases and the forensic medicine provides the police with the necessary medical knowledge and skills to solve these cases. The police and forensic medicine are both essential for the investigation of criminal cases. The author describes the co-operation of police and forensic medicine in the Netherlands and in the European Union.

CONCLUSION

The co-operation of police and forensic medicine is essential for the investigation of criminal cases.

Police And Judicial Co Operation In The European Union Fide 2004 National Reports:

Police and Judicial Co-operation in the European Union Fédération internationale pour le droit européen.

Congrès, Anthony Moore, 2004-06-17 How EU members are adapting their laws to provide for inter state judicial and police co operation

Security versus Justice? Florian Geyer, 2016-04-01 One of the most dynamic areas of EU law since the great changes brought to the EU constitutional order by the Amsterdam Treaty in 1999 has been cooperation in the fields of policing and criminal justice Both fields have already been the subject of substantial legislative effort in the EU and an increasing amount of judicial activity in the European Court of Justice In 2007 after the Constitutional Treaty of 2004 failed the new Reform Treaty planned very substantive changes to these policies Bringing together a wide ranging set of topics and contributors this book enables readers to understand these changes by examining three key questions how did we get to the Reform Treaty what have been and still are the key struggles in competence and how do the changes fit into the transformation of police and judicial cooperation in criminal matters in the EU

From Soviet Republics to EU Member States Peter Van Elsuwege, 2008 This book offers a comprehensive analysis of the legal and political challenges surrounding the EU accession of the Baltic States It examines the impact of EU enlargement on relations with Russia and on the constitutional development of the countries concerned *Cambridge Yearbook of European Legal Studies, Vol 9, 2006-2007*

Catherine Barnard, 2007-12-18 The Cambridge Yearbook of European Legal Studies provides a forum for the scrutiny of significant issues in EU Law the Law of the Council of Europe and Comparative Law with a European dimension and particularly those issues which have come to the fore during the year preceding publication The contributions appearing in the collection are commissioned by the Centre for European Legal Studies CELS Cambridge a research centre in the Law Faculty of the University of Cambridge specialising in European legal issues The papers presented are all at the cutting edge of the fields which they address and reflect the views of recognised experts drawn from the University world legal practice and the civil services of both the EU and its Member States Inclusion of the comparative dimension brings a fresh perspective to the study of European law and highlights the effects of globalisation of the law more generally and the resulting cross fertilisation of norms and ideas that has occurred among previously sovereign and separate legal orders The Cambridge Yearbook of European Legal Studies is an invaluable resource for those wishing to keep pace with legal developments in the fast moving world of European integration

Alan Dashwood Angela Ward **Legal Responses to Trafficking in Women for Sexual Exploitation in the European Union** Heli Askola, 2007-03-01 The phenomenon of trafficking in women for sexual exploitation which in the last decade has changed from a marginal non issue to a legitimate concern in many parts of the world has become familiar through newspaper coverage and now finally legislators and law enforcement agencies have begun to act In Europe many EU Member States now have or are developing at least some sort of anti trafficking policies with some of them in the forefront of global anti trafficking efforts Moreover the EU itself has become markedly more active with regard to curbing trafficking in human beings as part of its migration control and police and judicial co operation functions However even co ordinated efforts such as those being worked on by the EU tend to produce only short term cures to a problem that is in truth global and structural in nature and which cannot be eradicated or necessarily even significantly reduced through policing and migration control measures alone Too often there is little debate on broader measures which might be targeted to address the root causes of trafficking such as poverty under development general lack of economic and migration opportunities and above all gender inequality Against this background this book deals with present efforts to control trafficking in women for sexual exploitation In doing so it examines claims that what is needed effectively to prevent and tackle trafficking is a comprehensive approach and at the very least one that is far more wide ranging and coherent than what exists today and also analyses the assertion that destination countries and more specifically Member States of the EU could and perhaps should take more action against trafficking through regional co operation particularly in the framework of the EU rather than as individual Member States The book will be of interest to a wide range of scholars in EU law human rights comparative law sociology feminist theory and politics as well as policy makers practitioners and NGO activists in various European countries

The Principle of Mutual Recognition in EU Law Christine Janssens, 2013-10-31 Examining the principle of mutual recognition in the EU legal order this book takes a cross policy approach to focus on the principle in the internal market and in the criminal justice area It asks whether the principle of mutual recognition as developed in relation to the free movement provisions internal market can equally be applied in judicial cooperation in criminal matters the area of freedom security and justice and if such a cross policy application is desirable Divided into three parts the book first looks at the way this principle functions in the internal market Part II examines how the principle works in judicial cooperation in criminal matters with the final part answering the book s central questions In each part further related questions are asked What is the object of the principle of mutual recognition Who are the main actors involved How does the mechanism of mutual recognition operate with an emphasis on the existing limits to mutual recognition How does mutual recognition relate to harmonization and to mutual trust What is the relevance of equivalence requirements and the distribution of competence between the home issuing State and the host executing State What are the main characteristics of the principle of mutual recognition And is it a workable principle Through an in depth analysis of the relevant Treaty provisions EU legislation EU case law and EU policy

documents the book comes to the conclusion that a cross policy application of the principle of mutual recognition is both feasible and desirable *The European Union's Fight Against Corruption* Patrycja Szarek-Mason, 2010-03-11 Analyses anti corruption policy within EU Member States and the evolution of anti corruption policy during the accession process

Networking the Rule of Law Cristina Dallara, Daniela Piana, 2016-04-22 Judicial networks have proved effective in influencing recent judicial policies enacted by both old and new EU member states However this influence has not been standard This volume seeks to improve our understanding of how networks function as well as the extent they matter in the governance of a constitutional democracy The authors examine the judicial function of networks the way they cross the legal and territorial borders that confine the jurisdiction of the domestic institutions and whether or not they are independent of the capacity and the leadership of their members A highly salient issue in contemporary law and politics judicial networks are now qualified actors of governance With the aim to understand how to what extent and with what consequences networks interact with hierarchical institutions that still exist within the States this book is essential reading for legal experts policy makers engaged in promoting the rule of law members of the judicial networks in the EU and extra EU countries as well as academics and students **Towards a European Criminal Record** Constantin Stefanou, Helen

Xanthaki, 2008-05-22 The success of the four core freedoms of the EU has created fertile ground for transnational organised crime Innovative transnational legal weapons are therefore required by national authorities The availability of data on criminal convictions is at the forefront of the debate But which mechanism for availability can be used effectively while at the same time respecting an increasingly higher level of data protection at national level In the fluid post Reform Treaty environment the EU is moving towards the creation of a European Criminal Record which will ultimately secure availability of criminal data beyond the weaknesses of Mutual Legal Assistance mechanisms Examining the concept of a European Criminal Record in its legal political and data protection dimensions this multidisciplinary study is an indispensable exploration of a major initiative in European Criminal Law which is set to monopolise the debate on EU judicial co operation and enforcement *Policing in Europe* Antoinette Verhage, 2010 The Journal of Police Studies is a quarterly which is

oriented towards high standard quality contributions on policing issues and phenomena that are of interest to the police Topics are approached from a specialist and if required multidisciplinary point of view The volume looks to answer questions regarding the developments of police and police cooperation in Europe at the supranational level as well as explore the reactions of police organizations in individual European countries to the process of transnationalisation in terms of the design of and philosophy within police organizations Leading Policing in Europe Caless, Bryn, Tong, Steve, 2017-01-18 In this unique book the authors present for the first time information from over a hundred strategic police leaders in 22 countries about how they are selected for high office how they are held to account and what their views are on current and future challenges in policing The Modernisation of EU Competition Law Enforcement in the European Union Dermot

Cahill, John D. Cooke, Wouster Wils, 2004-06-17 An international survey covering the domestic anti trust laws of 25 EU member states Access to European Union Nicolas Moussis, 2005 Tilburg Foreign Law Review , 2004 Migration and Asylum Law and Policy in the European Union Imelda Higgins, Kay Hailbronner, 2004-06-17 An international survey covering the migration and asylum laws of 15 EU member states Article 81 EC and Public Policy Christopher Townley, 2009-09-22 This book discusses the role of public policy in Article 81 of the EC Treaty The Commission and recently the Court of First Instance have said that the sole objective of Article 81 EC is consumer welfare Many competition lawyers and economists support this view Writing in a crisp plain style Townley demonstrates that public policy considerations are still relevant in that provision He also examines how and where they are currently considered and then suggests why how and where this might be changed The book explains how some of the most complex competition law cases can be understood and offers a framework for those fighting or deciding such cases in the future As such it will be of interest to European competition lawyers both academics and practitioners furnishing them with a framework for hard cases as well as students seeking a deeper understanding of how the European competition rules work and how they interact both with European Union and Member State public policy goals It will also help competition economists by revealing the mechanisms through which public policy considerations impact upon the consumer welfare test in European law **Guide to European Policies** , 2005

Encyclopedia of White-Collar and Corporate Crime Lawrence M. Salinger, 2013-06-14 Since the first edition of the Encyclopedia of White Collar and Corporate Crime was produced in 2004 the number and severity of these crimes have risen to the level of calamity so much so that many experts attribute the near Depression of 2008 to white collar malfeasance namely crimes of greed and excess by bankers and financial institutions Whether the perpetrators were prosecuted or not white collar and corporate crime came near to collapsing the U S economy In the 7 years since the first edition was produced we have also seen the largest Ponzi scheme in history Maddoff an ecological disaster caused by British Petroleum and its subcontractors Gulf Oil Spill and U S Defense Department contractors operating like vigilantes in Iraq Blackwater White collar criminals have been busy and the Second Edition of this encyclopedia captures what has been going on in the news and behind the scenes with new articles and updates to past articles **The British National Bibliography** Arthur James Wells, 2006 International Antitrust Litigation Jurgen Basedow, Stephanie Francq, Laurence Idot, 2012-02-03 The decentralisation of competition law enforcement and the stimulation of private damages actions in the European Union go hand in hand with the increasingly international character of antitrust proceedings As a consequence there is an ever growing need for clear and workable rules to co ordinate cross border actions whether they are of a judicial or administrative nature rules on jurisdiction applicable law and recognition as well as rules on sharing of evidence the protection of business secrets and the interplay between administrative and judicial procedures This book offers an in depth analysis of these long neglected yet practically most important topics It is the fruit of a research project funded by the European Commission which

brought together experts from academia private practice and policy making from across Europe and the United States The 16 chapters cover the relevant provisions of the Brussels I and Rome I and II Regulations the co operation mechanisms provided for by Regulation 1 2003 and selected issues of US procedural law such as discovery that are highly relevant for transatlantic damages actions Each contribution critically analyses the existing legislative framework and formulates specific proposals to consolidate and enhance cross border antitrust litigation in Europe and beyond
