characters and stage directions to set the scene for the actor Publisher **The Color of Crime** Kathryn Russell-Brown, 2009 Perhaps the most explosive and troublesome phenomenon at the nexus of race and crime is the racial hoax a contemporary version of The Boy Who Cried Wolf Examining both White on Black hoaxes such as Susan Smith's and Charles Stuart's claims that Black men were responsible for crimes they themselves committed and Black on White hoaxes such as the Tawana Brawley episode Russell illustrates the formidable and lasting damage that occurs when racial stereotypes are manipulated and exploited for personal advantage She shows us how such hoaxes have disastrous consequences and argues for harsher punishments for offenders BOOK JACKET **Whispers on the Color Line** Gary Alan Fine, Patricia A. Turner, 2023-09-01 Legends are arguably the most common narrative form of folklore in American society From sex acts to business transactions from fashion to food from heroes to heroin rumors and legends take on every charged topic Children circulate texts about toys and candy teenagers share stories about sex drugs and rock and roll young professionals commiserate over the hazards of the work world These stories address aspects of life about which we receive mixed or ambiguous messages Given that matters relevant to race remain confused and divisive in many corridors of American society it is not surprising that rumors and legends that reflect racial misunderstanding and mistrust frequently circulate Whispers on the Color Line focuses on a wide array of tales told in black and white communities across America Topics run the gamut from alleged governmental conspiracies possible food tampering gang violence and the sex lives of celebrities Such beliefs travel by word of mouth in print and increasingly over the Internet In many instances these stories reflect the tenacious level of racial misunderstanding that continues to vex efforts to foster racial harmony creating separate racialized pools of knowledge The authors have spent over twenty years collecting and analyzing rumors and contemporary legends from the ever durable Kentucky Fried Rat cycle to persistent beliefs about athletic footwear manufacturers and their support for white supremacist regimes These implausible stories serve many purposes they assuage anxieties entertain friends increase our sense of control all without directly proclaiming our own attitudes Fine and Turner consider how these tales reflect attitudes that blacks and whites have both about each other and about the world they face In an engaging and penetrating narrative they brilliantly demonstrate how by transforming unacceptable impulses into a narrative that is claimed to have actually happened we are able to express the inexpressible Legends are arguably the most common narrative form of folklore in American society From sex acts to business transactions from fashion to food from heroes to heroin rumors and legends take on every charged topic Children circulate texts about toys a Black, White, and in Color Sasha Torres, 2018-06-05 This book examines the representation of blackness on television at the height of the southern civil rights movement and again in the aftermath of the Reagan Bush years In the process it looks carefully at how television's ideological projects with respect to race have supported or conflicted with the industry's incentive to maximize profits or consolidate power Sasha Torres examines the complex relations between the television industry and the civil rights

movement as a knot of overlapping interests She argues that television coverage of the civil rights movement during 1955 1965 encouraged viewers to identify with black protestors and against white police including such infamous villains as Birmingham s Bull Connor and Selma s Jim Clark Torres then argues that television of the 1990s encouraged viewers to identify with police against putatively criminal blacks even in its dramatizations of police brutality Torres s pioneering analysis makes distinctive contributions to its fields It challenges television scholars to consider the historical centrality of race to the constitution of the medium s genres visual conventions and industrial structures And it displaces the analytical focus on stereotypes that has hamstrung assessments of television s depiction of African Americans concentrating instead on the ways in which African Americans and their political collectives have actively shaped that depiction to advance civil rights causes This book also challenges African American studies to pay closer and better attention to television s ongoing role in the organization and disorganization of U S racial politics
