Police Station Skills Accreditation Manual:

Police Station Skills for Legal Advisers: Accreditation manual Eric Shepherd, 2004 *Police Station Skills Practice Guide* Consultant Forensic Psychologist Eric Shepherd, Eric Shepherd, 2004-07-01 The third edition of Police Station Skills for Legal Advisers is an essential reference for those engaged in the active defence of clients in the police station. It is aimed at all legal advisers both solicitors and legal representatives whether seeking accreditation already accredited or responsible for supervising those seeking accreditation and for quality control of defence provided in the police station. The Practical Reference comprises two parts: 1. checklists of the objectives for each stage with practical advice on how to achieve each objective; 2. a key topics section containing material that the practitioner needs when defending a client. *Criminal Litigation Handbook* Martin Hannibal, Lisa Mountford, 2007 The Handbook on Criminal Litigation offers a comprehensive and practical guide to the areas of criminal litigation covered on the Legal Practice Course. Making effective use of realistic case studies which are backed up by documentation online, the text combines theory with practical considerations and encourages students to focus on putting their knowledge into a practical context. Written in an informal style, the text covers all procedural and evidential issues that arise in criminal cases. The more complex areas of criminal litigation are examined using numerous diagrams, flowcharts and examples, while potential changes in the law are highlighted by specially designed Looking Ahead boxes. Each chapter ends with a key point summary and self-test questions enabling students to quickly sum up what they have read and test their own knowledge. Online Resource Centre The comprehensive Online Resource Centre offers vital support to students throughout their course. Updates are freely accessible to enable students to keep up to date with developments in the field, while links to other useful websites and legislation encourage students to explore the subject area fully. Additionally, two chapters covering regulatory crime and fraud are freely accessible online for those students whose course emphasizes corporate crime. Lecturers are able to access video clips of fictional but realistic court proceedings which follow the case studies included in the text. Documentation supporting these case studies is also provided via the site. Additional videos cover the procedure at the police station and sentencing in the Crown Court. Lecturers are also able to access a test bank of questions which provide an innovative way to assess students' understanding. *Introducing Forensic and Criminal Investigation* Jane Monckton-Smith, Tony Adams, Adam Hart, Julia Webb, 2013-03-18 This book is a lucid and practical guide to understanding the core skills and issues involved in the criminal investigation process. Drawing on multiple disciplines and perspectives, the book promotes a critical awareness and practical comprehension of the intersections between criminology, criminal investigation and forensic science and uses active learning strategies to help students build their knowledge. The book is organised around the three key strategic phases in a criminal investigation: Instigation and Initial Response, The Investigation, Case Management. Each strategic phase of the investigative process is carefully explained and examined. Alongside this practical approach, theoretical perspectives and academic research are laid bare for students.

Introducing Forensic and Criminal Investigation is essential reading for students in criminology criminal justice policing forensic psychology and related courses
