## **Police Of Paris:**

**Policing Paris** Clifford D. Rosenberg, 2018-07-05 The surveillance of immigrants and potential terrorists preoccupies leaders throughout the industrialized world Yet these concerns are hardly new Policing Paris examines a critical moment in the history of immigration control and political surveillance Drawing on massive police archives and other materials Clifford Rosenberg shows how in the years after the Great War the French police terrified by the Bolshevik Revolution and the specter of immigrant criminality became the first major force anywhere systematically to enforce distinctions of citizenship and national origins As the French capital emerged as a haven for refugees dissidents and workers from throughout Europe and across the Mediterranean in the 1920s police officers raided immigrant neighborhoods to scare illegal aliens into registering with authorities and arrested those whose papers were not in order The police began to concentrate on colonial workers from North Africa tracking these workers with a special police brigade and segregating them in their own hospital when they fell ill Transformed by their enforcement legal categories that had existed for hundreds of years began to matter as never before They determined whether or not families could remain together and whether people could keep their jobs or were forced to flee During World War II identity controls marked out entire populations for physical destruction The treatment of foreigners during the Third Republic Rosenberg contends shaped the subsequent treatment of Jews by Vichy At the same time however he argues that the new methods of identification pioneered between the wars are more directly relevant to the present day They created forms of inclusion and inequality that remain pervasive as industrial welfare states around the world find themselves compelled to provide benefits to their own citizens and recruit foreign nationals to satisfy their labor needs

**Policing in France** Jacques de Maillard, Wesley Skogan, 2020-08-02 The eminent contributors to a new collection Policing in France provide an updated and realistic picture of how the French police system really works in the 21st century In most international comparisons France typifies the Napoleonic model for policing one featuring administrative and political centralization a strong hierarchical structure distance from local communities and a high priority on political policing France has undergone a process of pluralization in the last 30 years French administrative and political decentralization has reemphasized the role of local authorities in public security policies the private security industry has grown significantly and new kinds of governing models based on arrangements such as contracts for service provision have emerged In addition during this period police organizations have been driven toward central government control through the imposition of performance indicators and a top down decision was made to integrate the national gendarmerie into the Ministry of Interior The book addresses how police legitimacy differs across socioeconomic generational territorial and ethnic lines An analysis of the policing of banlieues deprived neighborhoods illustrates the convergence of contradictory police goals police violence the concentration of poverty and entrenched opposition to the states representatives and questions policing strategies such as the use of identity checks The collection also frames the scope of community policing

initiatives required to deal with the public's security needs and delves into the security challenges presented by terrorist threats and the nuances of the relationship between policing and intelligence agencies. Identifying and explaining the diverse challenges facing French police organizations and how they have been responding to them, this book draws upon a flourishing French language literature in history, sociology, political science, and law to produce this new English language synthesis on policing in France. This book is a valuable resource for researchers and practitioners working in and around French policing as well as students of international law enforcement.

**The World of the Paris Café** W. Scott Haine, 1998-09-04 In *The World of the Paris Café* W. Scott Haine investigates what the working class café reveals about the formation of urban life in nineteenth century France. Café society was not the product of a small elite of intellectuals and artists, he argues, but was instead the creation of a diverse and changing working population. Making unprecedented use of primary sources from marriage contracts to police and bankruptcy records, Haine investigates the café in relation to work, family life, leisure, gender roles, and political activity. This rich and provocative study offers a bold reinterpretation of the social history of the working men and women of Paris.

**The Stonemasons of Creuse in Nineteenth-century Paris** Casey Harison, 2008 The stonemasons were well known for their skills and their seasonal migration from central France, but especially for their role in rebellion. This book places the masons' story within the larger history of nineteenth century Paris. The coverage spans the long nineteenth century, starting before 1789 and ending near 1914.

**Paris Médical**, 1912 Each half year consists of two volumes: *Partie médicale* and *Partie paramédicale*.

*Paris 1961* Jim House, Neil MacMaster, 2006-09-28 The massacre of Algerian demonstrators by the Paris police on the night of 17 October 1961 is one of the most contested events in contemporary French history. This book provides a multi-layered investigation of the repression through a critical examination of newly opened archives, oral sources, the press, and contemporary political movements and debates. The roots of violence are traced back to counter insurgency techniques developed by the French military in North Africa and introduced into Paris to crush the independence movement among Algerian migrant workers. The study shows how and why this event was rapidly expunged from public visibility in France but was kept alive by immigrant and militant minorities to resurface in a dramatic form after the 1980s. Through this case study, the authors explore both the dynamics of state terror as well as the complex memorial processes by which these events continue to inform and shape post-colonial society.

Policing Interwar Europe G. Blaney, 2006-11-28 In the convulsive environment that followed World War I and the Russian Revolution, the issues of policing and public order were of primary importance to the various governments of Interwar Europe. The book features original research on 10 different countries and will be vitally useful for students and academics of 20th century Europe.

**Paris Concealed** James H. Johnson, 2025-01-22 A comprehensive history of masks in France from the seventeenth to the nineteenth century. Masks can conceal, disguise, or protect. They can guard status, inspire delight, or spread fear. They can also betray trust through insincerity, deceit, and hypocrisy. In *Paris Concealed*, historian James

H Johnson offers a sweeping history of masks both visible and unseen from the time of Louis XIV to the late nineteenth century exploring the complex roles that masking and unmasking have played in the fashioning of our social selves Drawing from memoirs novels plays and paintings *Paris Concealed* explores the many domains in which masks have been decisive Beginning in the court of Versailles Johnson charts the genesis of courtly politesse and its widespread condemnation by Enlightenment philosophers and political thinkers He describes strategies deployed in the era of the French Revolution for unmasking traitors and later efforts to penetrate criminal disguises through telltale marks on the body He portrays the disruptive power of masks in public balls and carnivals and with the coming of modernity evokes their unsettling presence within the unconscious Compellingly written and beautifully illustrated *Paris Concealed* lays bare the mask's transformations from marking one's position in a static society to inspiring imagined identities in meritocracies to impeding the elusive search for one's true self To tell the history of masks Johnson shows is to tell the history of modern selfhood

*Policing Prostitution in Nineteenth-Century Paris* Jill Harsin, 2019-02-19 Prostitution was a serious problem for nineteenth century Europe a threat to public health and public order and at the same time a prop to morality allowing society to protect the purity of most women by sacrificing that of only a few Jill Harsin examines the methods by which the police of Paris resolved the contradictions of this situation an extrajudicial administrative system involving the registration regular medical examination and periodic administrative detention of all working class prostitutes As the author shows this regulatory system not only deprived prostitutes of civil rights but increasingly encroached on the rights of all working women who by the standards and definitions of the police exhibited suspicious moral character Drawing on a variety of sources Professor Harsin presents statistical material on such topics as prostitutes criminality providing new evidence for an area hitherto dominated by speculation Her work challenges previous interpretations by showing a regulatory system well in place during the Restoration Jill Harsin is Assistant Professor of History at Colgate University Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*Provisioning Paris* Steven Laurence Kaplan,2018-09-05 Dependence upon grain deeply marked every aspect of life in eighteenth century France Steven Kaplan focuses upon this dependence at the point where it placed the greatest strain on the state the society and the individual on the daily supply of grain and flour that furnished the staff of life He reconstructs the history of provisioning in pre industrial Paris and provides a comprehensive view of a culture shaped by the subsistence imperative Who were the agents of the provisioning trade What were their commercial practices What sorts of relations did they maintain with each other How did the authorities regulate their business To answer these questions Professor Kaplan combed the archives and libraries of France He maps out the elementary structures of the trade and shows how they were transformed as a result of cultural and political as well as commercial and technological changes In rich ethnographic detail he evokes the dayto day life of merchants millers bakers brokers and market officials He shows how flour superseded grain and how the millers overtook the merchants in the provisioning process He explores the tension between the suppliers need for freedom and the consumers need for security Even as he weaves the intricate patterns of life inside and outside the marketplace he never loses sight of the immense interests at stake the stability and legitimacy of the government the durability of the social structure and the survival of the people

La Bagarre Steven Laurence Kaplan,2012-12-06 It is my hope that this publication of a lost work by Galiani will interest scholars of many nations and disciplines Few writers could make a more compelling claim upon such a cosmopolitan audience An Italian with deep roots in his homeland Galiani achieved celebrity in the salons of Paris An ecclesiastic his most notable concerns were worldly to say the least An erudite classicist Galiani was passionately concerned about economics and technology A philosophe and ostensibly something of a subversive he was enthralled by power and he served for many years as a government agent and adviser at home and abroad Galiani embodied many of the preoccupations and paradoxes of the Enlightenment His torians and literary analysts devoted to the study of the lumie res through out Europe are bound to find Galiani s work important In recent years there has been an efflorescence of interest in the history of political economy and its relationship not only to the history of ideas but also to the history of social structure economic development admin istrative institutions collective

mentalities and political mobilization Galiani's work helps to crystalize many of these connections which scholarly specialization has tended to obscure Galiani had a leading voice in one of the most significant debates in the eighteenth century on the implications of radical economic social and institutional change Ideology and Experience Stephen Wilson, 1982-09-01 This analysis of racism in late 19th century France views the subject not in isolation but in its social context as an indicator and symptom of social change It also provides general analysis of anti Semitic ideology in France and of the Jewish response to this challenge *The New Encyclopedia of Social Reform ...* William Dwight Porter Bliss, 1909

**The French Polity** William Safran, 2015-10-05 Focusing on the interplay between individual and institutions The French Polity is the most current and comprehensive text for introducing students to the changing and enduring characteristics of the French political scene It combines historical perspective and contextual information on French society to clearly explain the evolution and health of this country political institutions process and culture Throughout William Safran a leading area studies expert goes beyond description to offer original analyses of French politics **The Green Bag**, 1895 Includes index
