**Suicide and Homicide-Suicide Among Police** Antoon Leenaars, Dale Lund, 2017-07-28. The goal of this book is to fully explore what the author refers to as the near epidemic levels of suicide and homicide-suicide among law enforcement officers and ultimately to offer recommendations and best practices with which to better address the problem. The book begins by discussing suicide in some depth for one has to know suicide unequivocally to understand a suicidal or homicidal suicidal officer. Suicide and homicide-suicide are complex, multi-determined events, the result of an interplay of individual, relational, social, cultural, and environmental factors. The complexity of causation necessitates a parallel complexity of knowledge. There are at least two avenues to understanding the nomothetic general approach which deals with generalizations using empirical, statistical, and demographic methods or techniques, and the idiographic specific approach which typically involves the intense study of individuals. This book explores both. Attempting to be mindful of the needs of the office, on the street, the mental health provider, the administrator, the forensic specialist, and the survivors of these needless tragedies, the belief is that by amalgamating the concerns of a diverse audience, we can meet the challenge of identifying at-risk individuals and situations and saving lives.

**Managing and Leading Today's Police** Kenneth John Peak, Larry K. Gaines, Ronald W. Glensor, 2025-07-04. **Policing** Carol Archbold,2012-10-17 The free open access Student Study Site at sagepub com archbold features eFlashcards self quizzes Sage journal articles web resources video and audio links and more Book Jacket **Spatial Policing** Charles E. Crawford,2010 The ghetto the block neighborhood community and hot spot are all terms that capture a particular space or a familiar location for citizens and law enforcement officers These spaces may appear welcoming to some or send waves of fear into others who have to enter What is it about an area of the city that makes it a hot spot for crime at night Why do the police act speak and patrol so differently across segments of the city At their core these questions all show an awareness of the power of space Spatial Policing is a fascinating look at how the contexts of space location and time influence law enforcement which can result in differential treatment and controversial patrol practices Each chapter in Spatial Policing written by leading experts in law enforcement spatial and cultural issues in criminal justice provides a highly readable text and offers an in depth discussion of theory research findings as well as real world examples of the most important spatial contexts for police actions Spatial Policing explores in rich detail the numerous contexts of space from urban settings to rural to the space of minorities and international borders to examine how each represents a unique challenge for individual officers departments and their patrol efforts in our society Recognizing how space is used and

defined as well as how it conditions the interactions between citizens and the police is at the heart of Spatial Policing. Ultimately for law enforcement space matters. Police officers are all too aware of the spaces in which they work but police researchers have been slow to catch on. Environmental criminology has made its mark on policing but the literature has been lacking a thorough treatment of this progression. Spatial Policing addresses both shortcomings authoritatively and comprehensively. John L. Worrall, The University of Texas at Dallas and Editor, Police Quarterly. This is a wonderful book. It goes far beyond what most books on the geography of crime consider in that it provides both a substantial theoretical underpinning to the field as well as interesting and cutting edge articles that apply the most current thinking on the spatial dimensions of crime. Charles Crawford has put together a text that is destined to become a leading authority in an important and emerging segment of criminology. John Fuller, University of West Georgia. Spatial Policing aids readers in developing critical thinking skills in spatial terms which in turn will be an invaluable tool for policing in the real world and researching crimes and an asset to students and practitioners in critically assessing the root causes of crime in spatial terms. Criminal Justice Review. *Police Leadership and Administration*. Gennaro F. Vito, Anthony G. Vito, William F. Walsh, 2024-09-19. This innovative text adapts the strategic management process to the police organizational environment illustrating how to tailor responses to the unique problems and issues that professionals are likely to face in the field of law enforcement. The authors cover pioneering management techniques for leaders facing the challenges of today's complex environment offering police executives guidance on planning setting direction developing strategy assessing internal and external environments creating learning organizations and managing and evaluating the change process. The book also tackles how to handle the political economic social and technical considerations that differ from one community to the next. Providing a foundation with which to adapt to an ever changing criminal justice climate this book trains leaders to search for solutions rather than relying on old formulas and scientific management principles. It is an essential resource for forward thinking police leadership courses in colleges and professional training programs.
