Policies For Development:

Economic Policies for Development: Carmen Díaz-Roldán, Laura Pérez Ortiz, 2020 The promotion of economic development is a recurrent area of interest both in the policy ground as well as in the academic arena Developed and developing countries are aware that there are pending issues to be solved Trying to offer a response to some of them the Sustainable Development Goals SDGs or the 2030 Agenda of the United Nations balance social economic and environmental factors which are in turn the pillars for sustainable economic growth In this context social changes innovations and technological advances would play a crucial role But the needed changes require adequate economic policies aimed to promote sustainable economic development Joint to this the past financial and economic crisis has questioned the usefulness of several paradigms accepted by the academy and has also favored the research on economic policies In the current globalized world the new approaches to conduct economic policies and the practical lessons that emerge from empirical analysis are revealed as necessary tools to understand international economic relations In this book we provide some contributions that show the most recent approaches showing to which extent economic policies would overcome a sustainable economic development First we will review the current situation and the perspectives of development theories and policies Next we will show the scope of both demand side and supply side policies when trying to achieve economic development Finally we will show several examples of how developing countries from the Latin America area are dealing with the current situation after the economic crisis in light of the Sustainable Development Goals Our results provide a vast and comprehensive analysis of the situation the perspective and the proposals for the future of the economic policies for development

Policies to Enhance Sustainable Development Organisation for Economic Co-operation and Development, 2001-05-14 This report identifies some of the main barriers conceptual and practical that stand in the way of progress in sustainable development and some of the areas where concrete government actions will allow a better integration of environmental economic and social goals

The Development Dimension Trade, Agriculture and Development Policies Working Together OECD, 2006-04-18 These conference proceedings explore why policy coherence is important how it affects global agricultural trade and whether it can help reduce poverty and hunger

Development Policies of Central and Eastern European States Ondřej Horký-Hlucháň, Simon Lightfoot, 2013-09-13 The states from Central and Eastern Europe that joined the EU in 2004 and 2007 provide a fascinating series of case studies for scholars interested in politics IR and development studies The interest comes from the fact that never before had so many recipients of EU aid joined the Union and taken on the commitment to become aid donors The journey from recipients of aid to aid donors is interesting because not only does it tell us about development policy in CEE states this policy area gives us an insight into governmental structures in CEE states foreign policy priorities public opinion the role of NGOs civil society and how well CEE states have taken on board the EU acquis the EU s rule book The book also explores whether the development

cooperation programmes of the majority of CEEs reflect the so called transition experience of moving from authoritarianism and socialism to democracy and modern liberalism It also explores the extent to which these donors are aligned with the approaches of the DAC donors Finally by extending the scrutiny to the bottom up development activities of non state actors and public opinion the book will analyse the dynamics of the solidarity of the former East with the global South This book was published as a special issue of Perspectives on European Politics and Society

Population and Development Issues

Yves Charbit,2022-06-16 One of the major challenges facing the world today is the interaction between demographic changes and development Rather than the usual view that the population itself is the main problem Population and Development Issues argues that it is just one factor among many others such as poverty illiteracy poor health unemployment the condition of women and climate change This book analyzes the relationships between the key demographic variables fertility morbidity and mortality migration etc and major development issues notably education employment health gender social and geographical inequalities and climate concerns Bringing together contributions from specialists across every field it presents empirical data simply and clearly alongside theoretical reflections
