### **Policies On Leave From Work:**

*Work and Family Policy* Stephen Sweet, 2013-09-13 Numerous challenges exist in respect to integrating work and family institutions and there is remarkable cross national variation in the ways that societies respond to these concerns with policy This volume examines these concerns by focusing on cross national variation in structural cultural arrangements Consistent support is found in respect to the prospects of expanding resources for working families both in the opportunity to provide care as well as to remain integrated in the workforce However the studies in this volume offer qualifiers explaining why some effects are not as strong as might be hoped and why effects are sometimes restricted to particular classifications of workers or families It is apparent that when different societies implement similar policies they do not necessarily do so with the same intended outcomes and usage is mediated by how policies are received by employers and workers The chapters in this book speak to the merits of international comparative analysis in identifying the strategies challenges and benefits of providing resources to workers and their families This book was originally published as a special issue of *Community Work Family*

**Handbook of Family Policies Across the Globe** Mihaela Robila, 2013-06-19 Family policy holds a particular status in the quest for a more equitable world as it intersects the rights of women children and workers But despite local and global efforts and initiatives the state of family policy in different areas of the world varies widely Through a cross section of countries on six continents *Family Policies Across the Globe* offers the current state of the laws concerning family life structure and services providing historical cultural and socioeconomic context Lucidly written chapters analyze key aspects of family definition marriage child well being work family balance and family assistance reviewing underlying social issues and controversies as they exist in each country Details of challenges to implementation and methods of evaluating policy outcomes bring practical realities into sharp focus and each chapter concludes with recommendations for improvement at the research service and governmental levels The result is an important comparative look at how governments support families and how societies perceive themselves as they evolve Among the issues covered Sierra Leone toward sustainable family policies Russia folkways versus state ways Japan policy responses to a declining population Australia reform revolutions and lingering effects Canada a patchwork policy Colombia a focus on policies for vulnerable families Researchers professors and graduate students in the fields of social policy child and family studies psychology sociology and social work will find in *Family Policies Across the Globe* a reference that will grow in importance as world events continue to develop

**The Oxford Handbook of Family Policy Over the Life Course** Mary Daly, Birgit Pfau-Effinger, Neil Gilbert, Douglas J. Besharov, 2023 Drawing on a multidisciplinary group of experts from many countries this Handbook is intended to be a reference work that provides students and scholars in policy related disciplines a wide ranging perspective on the diverse ways that family policies respond to modern issues and trends over the life course The Handbook is divided into two main parts The first part offers a panoramic introduction to the setting and issues which contemporary family policies have been designed to address The second part and main body of the volume is organized around four benchmark periods that encompass the main stages of the family life cycle and social policies that are called into play during these stages

**Making Motherhood Work** Caitlyn Collins, 2020-05-05 The work family conflict that mothers experience today is a national crisis Women struggle to balance breadwinning with the bulk of parenting and social policies aren t helping Of all Western industrialized countries the United States ranks dead last for supportive work family policies Can American women look to Europe for solutions Making Motherhood Work draws on interviews that Caitlyn Collins conducted over five years with 135 middle class working mothers in Sweden Germany Italy and the United States She explores how women navigate work and family given the different policy supports available in each country Taking readers into women s homes neighborhoods and workplaces Collins shows that mothers expectations depend on context and that policies alone cannot solve women s struggles With women held to unrealistic standards the best solutions demand that we redefine motherhood work and family

Poverty, Battered Women, and Work in U.S. Public Policy Lisa D. Brush, 2011-07-28 Drawing on longitudinal interviews government records and personal narratives feminist sociologist Lisa Brush examines the intersection of work welfare and battering Brush contrasts conventional wisdom with illuminating analyses of social change and social structures highlighting how race and class shape

women's experiences with poverty and abuse and how domestic violence moves out of the home and follows women to work. Brush's unique interview data on work-related control abuse and sabotage together with administrative data on earnings, welfare, and restraining orders offer new empirical insights on the impact of work requirements and other post-welfare rescission changes on the lives of low-income and battered mothers. Personal narratives provide first-hand accounts of women's perceptions of the broad forces that shape the circumstances of their everyday lives: their health, their prospects, their ambitions, and their diagnoses of their world. Deftly integrating the political and the personal, the administrative and the narrative, the economic and the emotional, Brush underscores the vital need to reexamine ideas, policies, and practices meant to keep women safe and economically productive that instead trap women in poverty and abuse. With her fresh approach to problems people often see as intractable, Brush offers a new way of calculating the costs of battering for the policy makers and practitioners concerned with the well-being of poor battered women and their families and communities.

Father Involvement and Gender Equality in the United States Richard Petts, 2022-08-31 This book focuses on issues of family work and gender with a focus on gender inequality. Women are disadvantaged in both paid and domestic work due in large part to being primarily responsible for duties within the domestic sphere. The COVID-19 pandemic has exacerbated these inequalities, making the issue of reducing gender inequality even more pressing. Fathers play an important role in contributing to and perhaps reducing gender inequality, but barriers to their involvement in family life have received less attention than detailing challenges that mothers face. If men were equally involved in all aspects of domestic life, i.e. were fully engaged, dads' women's burdens would be reduced and perceptions of who is responsible for parenting may change, resulting in greater gender equality. Father Involvement and Gender Equality in the United States focuses on the key issue of father involvement, seeking to understand why fathers are less involved at home than mothers despite an increased desire for fathers to be more engaged parents. This book utilizes recent national survey data, interviews with fathers, and insights from the author's personal experience as a father to identify current norms of fatherhood within the United States, barriers to father involvement, and strategies to overcome these barriers. Overall, this book argues that by establishing the expectation that fathers will be fully engaged dads as a cultural norm and by providing structural opportunities for fathers to meet this cultural standard, greater gender equality can be achieved within the United States. The arguments presented in this book are valuable for scholars in the areas of family work and gender, policymakers and business leaders who seek to promote gender equality and work-family balance, and parents who are interested in achieving a more egalitarian division of labor within their own families.

State Magazine, 1997      **State Magazine. United States Department of State**, 1997      European Gender Regimes and Policies Sevil Sümer, 2016-04-22 Comprehensive gender equality remains an unfulfilled goal in many European countries in spite of important developments and challenges to the traditional gendered division of labour. This volume reviews recent advances of gender policies in different countries in the European Union together with recent empirical data on gender

relations in the labour market and within families It adopts an international and interdisciplinary perspective through its use of qualitative and quantitative data and a comprehensive theoretical framework Particular attention is paid to the latest developments in the field of gender equality in different Scandinavian countries countries which are customarily seen as forerunners in the area The title culminates with an in depth discussion on the possibility of converging alternate gender policy regimes in Europe
