Resources in Education, 1998 **The Crisis for Young People** Andy Green, 2017-06-28 This book is open access under a CC BY 4.0 license This book provides an original and challenging analysis of one of the most pressing social issues of our times intergenerational inequality Based on recent mixed method research it explores the extent and scope of generational divides through an up to date analysis of the changing opportunities for young people in Britain across different life domains A central question addressed is whether current changes are best understood as growing inequalities within and across age groups or whether we face a genuine intergenerational decline over the life course of this and future generations of youth Andy Green's controversial manifesto for intergenerational equity includes replacing higher education fees with a tax on graduates of all ages the introduction of capital gains tax on sales of first homes voting at 16 and a new charter of rights for private tenants **Social Inclusion and Higher Education** Tehmina N Basit, Sally Tomlinson, 2014-04-09 Available Open Access under CC BY NC licence This book is about the experiences of students in institutions of higher education from non traditional backgrounds The expansion of Higher Education world wide shows no signs of slowing down and there is already a large literature on who has access to higher education and to qualifications that offer higher life time incomes and status However to date there has been minimal focus on what happens to the students once they are in the institutions and the inequalities that they face This book aims to fill this gap in the literature The chapters demonstrate that the students and

their families are finding ways of acquiring forms of capital that encourage and sustain their participation in higher education Contributions from the UK the USA and Australia reveal that the issues surrounding the inclusion of non traditional students are broadly similar in different countries It should be read by all those leading managing or teaching in institutions of higher education and all students or intending students whatever their background *Geography, Education and the Future* Graham Butt,2011-03-17
